

Coriolis Effect at the Equator: Evidence Against a Stationary Flat Earth

Watch this neat experiment in Uganda, one of the countries in Africa that are intersected by the equator. Water in a bowl just a few meters north of the equator drains down a spout in a clockwise direction, and just south of the equator, water in a bowl drains down a spout in a counterclockwise (anticlockwise) direction. Right on the equator, water in a bowl doesn't drain down in either direction, the water just goes straight down through the spout. Please watch the short video clip for a clearer understanding.

If you can't hear any sound, just click the sound icon near the bottom of the video.

At the EQUATOR

[🔊 original sound](#)

This is called the Coriolis effect and it's due to the Coriolis force, an apparent force that as a result of the earth's rotation deflects moving objects (such as projectiles or air currents) to the right in the northern hemisphere and to the left in the southern hemisphere. Typhoons in the Pacific and hurricanes in the Atlantic are both in the northern hemisphere and spin (as seen from above) in a counterclockwise direction due to Coriolis force. Cyclones are in the southern hemisphere and spin in a clockwise direction due to the Coriolis force. And this force is caused by the rotation of the earth which is fastest at the equator and gets slower and slower the further north or south you go from the equator.

A hurricane in the Northern Atlantic.

Typhoon Mawar in the Northern Western Pacific near Guam.

A cyclone in the Southern Hemisphere

When I lived in Japan, I met a young man from Australia who told me one of the first things he did after arriving at the Tokyo International Airport, was to go to a restroom to see if the water in a sink would flow down the drain in a clockwise direction. It did of course. He was used to seeing water drain down the sink in a counterclockwise direction in Australia. Both Australia and Japan are thousands of kilometers from the equator. The cool thing about this experiment in Uganda is it was done only a *few meters*, only 10 meters or so, north and south of the equator.

The results of the demonstration is clear evidence for a rotating spherical earth. Flat earthers call a spherical rotating earth a NASA lie, and I call Flat earthers sadly [deceived by a CIA psyop](#). Folks, the academic world believed the earth was a sphere at least from 2200 years ago when Eratosthenes of Cyrene calculated the circumference of the earth to be around 39,060 to 40,320 kilometers. That's pretty close to what it actually is. Don't be deceived by the CIA's covert Flat Earth propaganda! Its aim is to marginalize Bible believers and make Christians look like fools in the eyes of the unbelieving world! Yes, you can say there are lies in the scientific and academic world, Darwin's evolution being the principal one, but if all science was false you wouldn't be reading this on your phone or computer screen right now because it was science that created the technology that brought about your device.

Some folks who believe the earth is flat and stationary say if the earth is spinning at 1670 kilometers an hour at the equator, the oceans would fly off into space! My friends, the perception of speed is relative to the viewer. The higher a jet airplane appears in the sky, the slower it appears to fly. The earth is revolving only *one revolution per 24 hours*. If you took a tennis ball, dipped in it water, and spun it like a top several revolutions per second, yes, water would fly off it. How about if you could revolve it only a

single revolution over a 24-hour period? I bet you couldn't even turn it that slow without some kind of mechanical device similar to what mechanical clocks use. Water would not fly off the tennis ball at that slow speed and gravity is not even a factor like it is with a revolving earth.

I don't mean to offend Flat Earthers. I love people. It hurts me to see Christians and Bible believers destroy their credibility and testimony for Christ by repeating falsehoods they heard on YouTube. I submit to you there would be no Flat Earth movement today if it wasn't for YouTube. Why does YouTube censor certain videos that tell you the truth and permit videos that tell you lies? Because the Devil is the prince of the power of the air (Ep 2:2) and he's trying to lead you astray.

It was a total shock for me to see Texe Marrs, a Christian pastor, and conspiracy researcher who I liked, to interview Edward Hendrie and promote Hendrie's book, "The Greatest Lie on Earth: Proof That Our World Is Not a Moving Globe." Texe called Hendrie a "fine Christian man." But not only did Hendrie go to Notre Dame, a *Jesuit* high school in South Bend Indiana, he also went to a **Jesuit law school**! It's not outside the realm of possibility that Hendrie is in fact an undercover Jesuit infiltrator in Christian society. Yearly tuition for Notre Dame is \$63,000! You have to be part of the Roman Catholic elite to attend such schools. And maybe Texe Marrs himself wasn't what he appeared. He was a close friend of Alex Jones.

Discussion with a Lady Seeking Answers Why Flat Earth Memes are Pseudoscience

The image above is a flat earth meme to give a false impression that a spinning earth should throw off water into space just like a spinning wet tennis ball. It's discussed in this article.

I don't take much time talking to people who are convinced the Earth is flat and who are trying to convince me of their pseudoscience. I really thought the lady in this conversation was sincere, but in the end, she rejected my arguments. Who's right? You be the judge.

The lady's comments are indented and in *italics*.

So my question about the globe is, how do you explain areas that should be "hidden behind the curve" when you can plainly see farther than that with the naked eye? And how does air pressure work, assuming you reject the dome firmament. I'm genuinely still trying to figure out what I actually believe about all this.

It seems to me that you are repeating what you heard on Flat Earth videos. The fact is that you cannot see beyond the curvature of the earth. I am from Chicago and I cannot see the eastern shore of lake Michigan because of the curvature of the Earth unless I view it from an airplane. And just the fact that the higher you go in an airplane, the further away the horizon is, is evidence of a spherical Earth. From the air, I could see both the East and West shore of Lake Michigan when I flew over it.

There is no dome. Air pressure works because of the weight of the air due to gravity. We think of air as being very light but if you consider 20-30 miles of air over us all those molecules of air are going to be compressed near the Earth because of the weight of the miles and miles of molecules. That's how air pressure works. And the thing is this is not rocket science but simple science that people should be able to understand in high school. One Flat Earth video said the reason for gravity is because of air pressure. And a simple experiment proves that to be absolutely false. I saw a video of a room with all the air pumped out of it and a heavy metal weight was dropped from a height the exact same time a feather was dropped. And gravity pulled the heavy metal weight and the feather down and they both hit the ground at precisely the same time! You see Flat Earthers also deny the force of gravity. And yet they dare not violate the principle of gravity by walking off the roof of a 20 store building.

Flat Earth videos are very deceptive. Unless you really understand true science, you will take statements as fact that are totally untrue. Like one man who said with binoculars you can see things what the curvature of the earth is supposed to be hiding. That's totally false!

specious

Merriam-Webster's definition of the word specious

Flat Earth videos are full of specious reasoning.

(She sent me this meme of a wet and spinning tennis ball.)

Of course, if you spin a wet tennis ball at 50 revolutions per second, water will fly off it, but not if it rotates only one revolution over a 24 hour period. (And gravity is not even a factor in this case!)

The average speed of the earth spinning is supposedly 1500km/hour so it's not too far off to spin a tennis ball quickly. A condescending attitude doesn't help your case.

Do you really think I am trying to be condescending? 1500km/hour at the equator means the earth is revolving only once every 24 hours. I would not consider that to be a spinning earth. Do you? You couldn't even turn a tennis ball that slow! It would drive me crazy if I tried because it would take 24 hours. To say the Earth is spinning is not only misleading, it is false in my understanding of the definition of the word spin. Spinning Earth is mind manipulation in my opinion. I am just trying to say the facts. I don't want to talk down to people. I love people. It breaks my heart to hear sincere Christians call Flat Earth the truth. I consider Flat Earth to be promoted by government-funded agents seeking to marginalize Christians. And sad to say they have done a good job because millions of Bible believers are deceived. No famous and respected man of God I know of teaches Flat Earth.

Please know that I am continuing this conversation with you because I thought you are sincere in wanting me to help you understand that arguments for Flat Earth are based on false assumptions and pseudoscience. If I thought otherwise I would end the conversation. It would only be a waste of both of our time if you are not really interested in understanding what I have to say.

If gravity pulls things to the ground then how does a cloud made up of water droplets stay afloat? Gravity is still a theory, as is much of what we call modern science. I do lean towards electromagnetism being the force over gravity as it can already be observed in animals such as the gecko with its toes. And it's my opinion that much of science is made up, evolution. So if they lie about one thing, why are they telling the truth about other things? Satan is the father of lies and the prince of this world.

Modern science has given us the technology and tools to communicate with each other on this platform, and now for a relatively low cost, the price of our monthly WiFi and/or phone bill. I find it highly ironic and even hypocritical that Flat Earthers mock modern science and yet use technology that science has provided to spread their Flat Earth pseudoscience! I'm not speaking about you but about Flat Earthers in general. I think you are repeating what you heard about clouds from a Flat Earth YouTube.

Clouds generally form, survive and grow in air that is moving upward. Rising air expands as the pressure on it decreases, and that expansion into thinner, high-altitude air causes cooling. That's why they stay up in the air. But they don't stay up forever and eventually fall down as rain due to gravity.

Yes, gravity is a theory, and the reason why Flat Earthers need to debunk the established theory of gravity with their own theories is because if the established theory of gravity is true, a Flat Earth cannot be possible. One of the theories of gravity I heard from a Flat Earther is the earth is constantly being accelerated upward by a force. And yet other Flat Earthers say the Earth is motionless! So you see, Flat Earth doctrine is not consistent throughout the Flat Earth community.

Again I repeat, I am only taking time to share this with you because you told me you are sincerely seeking answers. If I thought you were convinced about Flat Earth, nothing I would say would change your mind, and I would be wasting my time.

Of course, there is pseudoscience in the academic world as well. As you clearly brought out, evolution is one of them. But the first real scientists such as Isaac Newton were men of God who believed in God Who designed the universe according to principles and laws, and they sought to discover those laws. That's what real science is about. It's the pursuit of knowledge. And the best scientists are those who hold the Genesis account of creation to be fact and especially those who believe in our Lord Jesus Christ.

Do you believe the moon reflects the light of the sun?

Yes, absolutely, I believe that. The moon doesn't generate its own light. It refracts the light of the Sun.

So how is it that when the sun and moon are both in direct line of each other in the sky it's not full? Today at 3 pm I could see both the moon and sun. The moon was only 1/2.

Phases of the moon are caused by the alignment of the earth, the moon, and

the sun. Like the earth, 1/2 of the moon's surface is always exposed to direct sunlight. However, depending on the moon's orientation with the earth during its 28 day orbit of the planet, a person on the surface of the earth will only be able to see a fraction of that exposed area, and the rest of the moon will appear to be dark or in shadow.

That's what they say. But when they are literally both in the sky there is nothing between them at all to cast a shadow.

But we see the shadow because of the moon's position in relation to the earth. It's all about the position or alignment of the sun, the Moon and the Earth. When the Earth's shadow from the Sun covers the moon that's when we have a lunar eclipse. When the shadow moves away the moon is full again. I think what I shared above about the alignment of the moon the Sun and the Earth is pretty clear. The moon like the Earth is always one half illuminated by the Sun but we only see part of that illumination at times because of our alignment with the Moon because the Moon orbits the earth. And the reason Flat Earthers want to debunk that is because it proves the existence of gravity.

This explains why we see the phases of the Moon. The image is not in scale of course. I think it is very clear and reasonable but of course, the Flat Earth people will reject it because they reject a spherical Earth and they reject the conventional theory of gravity.

One of my friends told me that in order to be convinced that the Earth is flat I have to watch at least 30 Flat Earth YouTubes. I told him, "no thank you I don't care to become brainwashed with false information." Some Flat Earthers told me they wavered back and forth at first but eventually entered the Flat Earth camp after seeing so many flat Earth videos. I think they are dangerous because they are so deceptive.

You keep saying your explanations are so simple, but you can't see that it's IMPOSSIBLE for something to cast a shadow if it is not between the light source and the object it is casting the shadow on... that's simple science. If the sun and moon are in a direct line in the sky, the Earth is not between them at all. I think I'm done with our conversation. I was looking for solid arguments and I'm not finding them. Thanks for your time.

Desklamp experiment showing how the phases of the moon work.

A simple experiment with my desk lamp and a model of the Earth shows the error of your reasoning. In this case, the model earth in the photo represents the Moon, the desk lamp represents the Sun, and I am standing figuratively on the earth taking the photo. From my position, though I can see the sun and the model simultaneously, part of the model is not illuminated by the light bulb. For you to say that is "impossible" tells me you are parroting the falsehoods of the Flat Earthers from a YouTube you watched.

I thought that you were sitting at the fence about Flat Earth but now I see you have gone to the other side. As I said, Flat Earth videos are deceptive and the reasoning on them is specious. The bottom line for me is exactly one half of the Earth is illuminated by the Sun at all times while the other half of the earth is in darkness. This is impossible if the Earth is flat. A

simple experiment with a light bulb in a dark room next to a wall or near the floor proves that.

Flat-Earthers show us images of a **lamp illuminating a dark wall** to demonstrate –incorrectly– how night happens on a flat Earth.

① Areas farther from the lamp get less light, but still receive light nonetheless ② they look dark because cameras cannot deal with extremely bright & dim things simultaneously ③ the lamp is visible from any points on the wall ④ at no point on the wall the lamp appears obscured by the wall. – Despite of their claims, this only demonstrates that **flat Earth cannot explain how night occurs.**

[The Flat Earth Movement is a Religious Cult!](#)

I received the following comments from a new friend, Brother Nick.
Am I standing against the 'Flat-Earth' Religion? – **YES** – Because the '**Flat-Earth' Religious movement** is posing as a Christian Doctrine – which it IS NOT – AND there are a few followers of the 'Flat-Earth' Religion of Jeranism who say that **belief in the 'Flat-Earth' is AN ESSENTIAL DOCTRINE FOR SALVATION !**

– AND – It is my personal experience that those who do strongly believe in the 'Flat-Earth' Religion are very dedicated to following **"ANOTHER JESUS" – and "ANOTHER SPIRIT" – and "ANOTHER GOSPEL"**

– Just as the most Religious followers of Roman Catholicism – and Mormonism – and Mohammedanism believe and follow **"ANOTHER JESUS" – and "ANOTHER SPIRIT" – and "ANOTHER GOSPEL"**– which are Very Strongly Condemned in 2 Corinthians 11:3-4 & Galatians 1:6-9 [AV]

AND – It is also my personal experience that there are very few 'Christian' Ministries or individuals that are standing against the '**Flat-Earth' Religions Doctrines \ Beliefs \ Philosophies \ Agenda**

– (1) Because their belief and understanding of what 'Biblical CHRISTianity' truly is – it is practically non-existent

– (2) They are unwilling to be called names and branded as lost hereticks by the 'Flat-Earth' believers who have been thoroughly deceived by Satan – and his age olde very successful LIE:

"Yea, hath God said,"

See one of the Primary 'Flat-Earth' websites – **The Flat Earth Guide**

@ <http://www.theflatearthguide.com/>

It is also my Biblical understanding that "the only wise God" is causing a "lying spirit" ((1 Kings 22:19-23 & 2 Chronicles 18:18-22 ~ AV)) to come yet again

– SO that "the wheat" will be separated from "the chaff" ((Matthew 3:12 & Luke 3:17 ~ AV))

– So the Biblical Prophecy of Luke 21:34-36 [AV] has become very important to me:

"And take heed to yourselves,
lest at any time your hearts be overcharged with surfeiting,
AND drunkenness,
AND cares of this life,
AND so that day come upon you unawares.

For as a snare shall it come on all them that dwell on the face of the whole earth.

–
**Watch ye therefore,
AND PRAY ALWAYS,
that ye may be ACCOUNTED WORTHY to escape all these things that shall come to pass,**

AND to stand before the Son of man."

How very-very thankful I am unto **"the Lord God Almighty"** for "the certainty of the words of truth" written in the Biblical Promises of Isaiah 26:3-4 [AV]

:
"Thou wilt keep him in perfect peace, whose mind is stayed on thee:
because he trusteth in thee.

Trust ye in the LORD for ever:

for in the LORD JEHOVAH is everlasting strength:"

~ AND in Nahum 1:7 [AV] :

"The LORD is good,
a strong hold in the day of trouble;
and he knoweth them that trust in him."

~ AND my PRAYER is always that which is written in Psalm 115:1 [AV] :

"Not unto us, O LORD, not unto us,
but unto thy name give glory,
for thy mercy,
and for thy truth's sake."

[Flat Earthers Systematically Being Used To Disrupt And Undermine Truth Movements Everywhere](#)

Introduction

I am saddened to hear that more of my friends and fellow brothers and sisters in Christ fell for what I believe to be a psychological operation, AKA pysop,

designed to marginalize them as “science deniers”, “conspiracy theorists” and wackos in general. The name of the pypop is Flat Earth.

If you are a Christian and proclaim the earth is flat, what will unsaved people think about your witness for Jesus Christ? What will they think of your testimony as a Christian? You say you cannot believe everything the World, the government, scientists and NASA is telling you, and I certainly agree! There is much falsehood being proclaimed today in the name of science. At the time of this post, scientists and medical professions calling COVID-19 vaccinations “safe” is one of the most dangerous falsehoods today in my opinion. Why do I believe COVID-19 vaccines are dangerous? Because rather than trust what the government and corporate-owned pharmaceutical companies making billions of \$ from selling the vaccines are telling me, I think listening to what many *other* scientists and medical professions who have endangered their very careers and reputations by telling me [COVID-19 vaccinations will kill me](#) is far more safer, logical and reasonable than listening to profit-seeking cooperations and government agencies which already have a reputation for being dishonest. And why are they dishonest? Because of the love of money and power!

If you believe the earth is flat, I think you will probably agree with me that COVID-19 vaccines are harmful. If you do, I hope you might consider the existence of government-fueled hoaxes which are known as “[cognitive infiltration](#)” that seek to undermine your message that COVID-19 vaccines are harmful, and your testimonial of salvation in Jesus Christ. I am convinced Flat Earth is one of those government-fueled hoaxes. Don’t let government spooks lead you astray!

Not *all* science is false! If you claim it to be false, how are you reading this article right now? You’re reading it from either your Desktop PC, laptop, smartphone, iPhone, iPad, tablet, or some other device that technology has created. All technology is based on science!

Update! Proof that Flat-earth promoter Eric Dubay is a CIA asset!

The below article is a repost of [The Millennium Report](#) by Revisionist Historians for World Peace.

There is an insidious conspiracy at work throughout the entire Internet which seeks to destroy Truth Movements everywhere. One of its organs of mischief is known as the **Flat Earth Society** (FES) and its explicit purpose is to take down every single truth-oriented website, blog and/or organization which permits an open comment section at the bottom of their posts and articles.

Here's how they work:

Agents of the FES often begin by posting rather benign yet factual comments about NASA, which everyone now knows is a rogue agency which can rarely be trusted to tell the truth about particular scientific endeavors and galactic missions. That's a no-brainer that everyone agrees with—NASA holds onto most of the truth and parcels out only the absolute minimum to the taxpayers who fund their space missions and other assorted projects.

The *Flat Earthers* then take advantage of this universal hatred of NASA for their spewing so much deception over so many years, and they use it to subtly garner support for their nonsensical **Flat Earth Theory** (FET). When the time is right, the *Flat Earthers* will then start introducing utterly absurd notions about the Solar System and patently false concepts about the Earth's relationship to the Sun.

They justify their preposterous sophistry and wacky ideas by routinely outing NASA as a serially prevaricating government agency, which they are – and then using their well-known deception as a justification to overturn the entire paradigm of modern astrophysics. **Talk about throwing the baby out with the bath water.** There is no astronomical scientific truth that the *Flat Earthers* have left unassailed. You name it – gravity, a spherical Earth and other planetary orbs, rotational movement of the planets. planetary revolutions around the Sun – they throw it all out and label it as “NASA lies”.

Once they do that in a very public Internet forum or chat room, website or blog comment section, they begin to stir up a LOT of trouble. They pre-position sock-puppets in the same forums, blogs, etc, who will, with apparent spontaneity, support their silly and stupid comments about the *Flat Earth Theory* (FET). The longer the comment thread, the more opportunity to draw in the unsuspecting into their outlandish web of deceit and deception.

They do this by presenting some entirely new and quite valid hypotheses which do introduce such concepts that are related to the Electric Universe; or that propose that the Solar System is also moving through space in a manner which defies the conventional scientific wisdom. There are many instances where the current scientific paradigm does completely fall down, by the way, and the FEs use these obvious flaws to take down the whole system of modern thought.

By so aggressively assaulting the conventional wisdom which is accepted by the vast majority of people on the planet, they then tar the reputation of

the truth movement groups whose websites they have deliberately polluted with their obvious foolishness concerning their *FLAT EARTH* fantasies.

A Massive CIA Black Operation

Many are now suspicious that these relentless FE initiatives are so organized because they have the backing of those government agencies that do not want the truth (about anything) revealed. The CIA, FBI, DIA, NSA have long employed this signature MO which is determined to kill the messengers of truth anyway they can. Ruining reputations has always been preferred to outright murder, which they also perpetrate when they deem it absolutely necessary. After all, the primary mandate for *The Company* (aka the C.I.A.) is to carry out their covert truth-silencing black operations.

Important Note:

The vast majority of *Flat Earthers* do not even have a clue that they are being used 24/7 to advance a sinister agenda to destroy the various truth movements around the globe. If they did have this awareness, most would leave the whole enterprise in a heartbeat. Like all C.I.A. blackops, they are conducted on a strictly need-to-know basis and in a highly compartmentalized fashion. Just like only the 33 degree Freemason types know anything of the real plots that are afoot in the world, so, too, do those CIA controllers manipulate the *Flat Earthers* from afar. All the CIA ever has to do is effectively control one individual who has been completely programmed to execute their agenda. Others who demonstrate similar vulnerability to the same programming are then chosen to lead the sheep whenever and wherever necessary. The bottom line here is that many *Flat Earthers* are truly seeking the truth. This segue into *Flat Earth* crazyland is but detour they must take in order to get real after they become aware that they have become profoundly deceived. Everyone takes a similar journey in life as they break free from all the deception which has been brought to bear by the ubiquitous and everpresent *Global Control Matrix*.

Conclusion

How easy is it for a pack of *Flat Earth* jackals to take down an honest truth-seeking website or forum that only looks to uncover the truth. These folks have scripts crafted for every rejection and every response that they face. They have been thoroughly brainwashed to understand the *Flat Earth Theory* as truth, and are mind-controlled to see themselves as modern-day Galileos.

In light of their cohesive organization they have learned how to work in a concerted effort to quickly victimize the unsuspecting. Their primary weapons are little (and big) lies that NASA has told, as well as some glaring gaps in the current astrophysics paradigm. It's true that each successive paradigm has rendered the previous one partially obsolete as the world has evolved from the Newtonian to the Einsteinian to the Quantum to the Electric Universe.

However, that does NOT mean that fire is not hot and does not burn. These *Flat Earthers* would have us all believe even that – that fire is not hot and does not burn – if they could, and much more crazy stuff. Nevertheless, it's

critical to understand such crazymaking by certified crazymakers is quite purposeful. For CIA-certified crazymakers such as these always have a covert agenda to execute and specific goals to accomplish. Hence, the challenge for many has been to avoid being caught up in their utterly crazy agenda. Otherwise, if we get caught off guard, we risk missing the gun-grabbing that can occur in the wake of an Orlando false flag mass shooting or the like.

I am posting this YouTube because I have recently received two angry comments from viewers of this website who accused me of spreading lies and heresy about the globe-shaped earth the LORD God created for us to live on.

The Source of Flat Earth Foolishness: Cognitive Infiltration

Flat-Earth is a black-op disinfo campaign designed to make conspiracy researchers and Bible believers who promote it look foolish.

Flat Earth Theory Totally Trashed

Flat earth is cognitive infiltration to marginalize Bible-believing Christians!

The Ultimate Argument Why the Earth is NOT Flat!

If the sun cannot be seen at night, something must be blocking it from our view! What could be big enough to block it? Only the earth itself!

Flat-Earthers Cannot Explain Timezones Or Why the Length of Daylight Varies According to Latitude and Season of Year

I posted this meme on Facebook. To my surprise, it was immediately shared by a friend who believes the earth is flat! I say surprise, because I posted this meme to prove to Flat-earthers that the world cannot possibly be flat seeing the two islands are only 100 miles apart and yet 25 hours different in

time. This is because the International Date Line runs between them.

Here's our conversation:

James Arendt Christina, does this mean you have changed your position on Flat Earth?

Christina No, it proves it even more. How can they be 25 hours ahead, but 100 miles away. California is over 2000 miles away and only 3 hours earlier in time. It proves we live a lie.

James Arendt Christina, the International Date Line separates Samoa and American Samoa. Only if the Earth is a sphere could this possibly make sense! These facts are indisputable:

The two islands are only 100 miles apart but 25 hours different in time due to the International Date Line. Prove this wrong and my hat is off to you. This can be possible only if the earth is a ball shape.

Christina Or, they've developed a complicated lie that can't work without this imaginary date line. In fact they aren't off by nearly a day. How do you explain seeing the moon in America during the day while it's visible in Australia which is not possible on a sphere?

James Arendt It IS possible to see the moon on a global earth from both Australia and USA at the same time!

The bottom left circle is around the east coast of Australia and the top right circle is around the west coast of the USA.

Christina

James Arendt Flat-earthers are always telling me, "Do your own research! Do your own research!" Well, I HAVE done my own research, and I have presented every one of my findings, and not one of them have been properly answered with facts. All my research tells me the earth is a sphere. It also tells me Flat Earth is a CIA / Illuminati psyop to marginalize Bible believing Christians and ruin their personal testimonial of salvation in Jesus Christ!

Christina Well, once I realized all pictures of Earth are digital art renderings and a slew of other issues, I believe we've been lied to, but I'll still be your friend

James Arendt I'm glad to be your friend too, Christina. Yes, we have been lied to about many things, about history, reasons for wars, about evolution, about 911, about the Apollo moon missions, etc., but to say we have been lied to about photos from space is not enough to convince me the earth is flat when my experience traveling the globe tells me otherwise. One half of the planet is dark right now. Samoa is one full day ahead in time than American Samoa. I saw satellites move across the sky. Only a spherical earth explains

me why that is so and many other things such as why I experienced 24 hours of sunlight in the Arctic in the summer, 24 hours of darkness in the winter, and why there is less than one hour variation of daylight in Guam throughout the year. Only a spherical earth explains to me why.

Christina There's a lot more than photos as the issue. I investigated for a long time after the photo issue came up. It's just one piece to the puzzle. They fake the footage from space using green screens and pools is another issue. Why fake photos and ISS if they are there? Just show one real thing. They can fool most of us, but not all of us. I don't think it's easy to accept flat Earth. Why would anyone invite the ridicule? The Bible tells us the truth, and it says the Earth is flat. I'll accept that now.

Conclusion:

As Mark Twain once wrote, "It is easier to fool people than to convince them they have been fooled." That's what I feel about those who have swallowed the deception that the earth is flat. This article was written not to convince a flat-earther that he or she is wrong, but to convince those who have dabbled with flat-earth doctrines, people who are still on the fence who have not entirely been swayed by it. You can see that Christina cannot explain away my statements to her. She doesn't even try to. She can only dismiss them and parrot what she picked up on YouTubes that teach flat earth.

[A Conversation with a Flat-Earther](#)

Brother J, do you believe the earth is flat? Some of my friends do. What is your view on it?

Yes I think it's flat

May I ask why you think so?

Mathematically, scientifically, conspiratorially, and biblically. You can pick any one lol

I was raised in the Midwest USA. Please explain why I cannot see the Rocky Mountains with a telescope from a harvested cornfield in the fall.

Because there is still height and depth to the earth.

Yes, there is indeed height and depth. The Rocky Mountains are higher than northern Illinois where I was raised. Why do I not see anything higher than a mole hill from a harvested cornfield? I saw mountains to both east and west from Sacramento California when I was stationed there while serving in the USAF.

YouTube the Bedford level experiment

Giving me a YouTube is not a valid answer IMO. Unless you can explain to me in your own words the answer to my question, it means to me you are not really sure. We are not talking rocket science. We are talking about science an amateur with an elementary school education can validate.

Actually it's best explained by a demonstration but fair enough. It's the fact that you can't look beyond your vantage point. You can't keep scrolling through a telescope to nothing.

Vantage point means the horizon, correct?

Yep

If the earth is flat, the distance to the horizon would be infinity, correct?

Where do u get that idea

Logic

So your saying because your not high enough to see the other side your vantage point is infinite? Dude it's like that on a ball also lol

Yep, that's correct.

Okay. So when you go up in space, you can see distant galaxies from your vantage point

You don't need to go up in space to see distant galaxies. You can see them from earth.

Oh? Your positive that's what you see

Have you read the book of Enoch

Actually Deuteronomy

Your looking at the host of heaven

Right about Deuteronomy.

Do you know how many Jesuits proposed the earth was a ball?

I reject the book of Enoch as God's Word. And just because Jesuits said the earth is a ball doesn't make it false. Is EVERYTHING Satan says a lie? Read the first couple chapters of the book of Job. He does say truth from time to time.

Where's the curvature of the earth

Even yet, where is the scripture that points to the earth being a ball or spinning

So why does the Bible say 3 times the earth doest move? Why did Joshua command the sun to stop spinning and not the earth?

Genesis 1:1-5 In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters. And God said, Let there be light: and there was light. And God saw the light, that it was good: and God divided the light from the darkness.

And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day.

The way I see it is God, "in the beginning" not only created matter and light on the first day, He created time as well. Is 24 hours dependent on the existence of the sun to be 24 hours? Or is 24 hours dependent on one rotation of the earth? According to my understanding of time and physics, the latter is true. Therefore even without a sun there were 24 hour days because of the rotation of the earth!

Genesis 1:4 And God saw the light, that it was good: and God divided the light from the darkness.

Suddenly verse 4 makes more sense to me than ever! If the sun didn't exist till day 4, how could God divide the light from the darkness? Answer: God Himself was the light source over a rotating earth!

God can override His Laws of physics when He wants to.

That makes no sense. He created light. It says nothing about rotating. Your adding to what it says.

What is one day?

God was the light source. Not a rotating earth.

24 hours

Day is light dude. Jesus says it's 12 hours

Night is night.

Answer why did Joshua command the sun to stop moving?

Twenty four hours is one rotation of the earth, PERIOD!!!

Lol what was it rotating around then?

God?

Movement is relative

Lol!

The earth is set on pillars! It doesn't move!

All scripture is for doctrine

Man cannot move it for sure

And it doesn't move!

Show me the pillars

Fear before him, all the earth: the world also shall be stable, that it be not moved.

1 Chronicles 16:30

Say among the heathen that the Lord reigneth: the world also shall be established that it shall not be moved: he shall judge the people righteously.

Psalm 96:10

He raiseth up the poor out of the dust, and lifteth up the beggar from the dunghill, to set them among princes, and to make them inherit the throne of glory: for the pillars of the earth are the Lord's, and he hath set the world upon them.

1 Samuel 2:8

Better check the Hebrew on that one. Cause it's the same word for the pillars samsom tore down which shaketh the earth out of her place, and the pillars thereof tremble;

Job 9:6

The earth and all the inhabitants thereof are dissolved: I bear up the pillars of it. Selah.

Psalm 75:3

Scripture says clearly the earth doesnt move, is set on pillars, has foundations, has ends (28 times) and you get a ball out of that? Take heed that no man decieve you. You don't think it's strange every "astronaut" was a free Mason? NASA is the fruit of operation paperclip? Heliocentricity is a Jesuit doctrine? Come on man wake up. You can't see any curvature of the earth anywhere! People claim they can from a plane then you show weather balloons that read 127,000 ft and they say well the earth is too big?

Do use use GPS navigation? Better not or that would make you hypocritical. GPS cannot work without satellites. A satellite has to keep moving to stay in space. If you say there is no space, no satellites and no gravity, I would say there is no sanity in your mind. It's extreme denial to say I am not giving you physics that an elementary school kid can understand and it's extreme hypocrisy to deny science and yet use technology which science produced to preach lies about flat earth!!!! It's a lie probably from NASA to divide the Truth Movement. Yes, I do believe NASA lied about the moon walk. No, I do not believe they lie about satellites. The moon is a satellite!

GPS cannot work? Right. Have you ever considered how your position can be

triangulated by cell towers? Radio towers? I'm not going any further until you address the scriptures presented.

Does GPS work over the ocean far from those towers? It does.
Does the Bible use figurative language? Plenty. Sun moon and stars falling is a collapse of governments. **There is NO Bible teacher I respect that teaches flat earth.** That is *your* private interpretation. My Bible tells me private interpretations are a no no.

My scientist friend who is a born again Christian who believes a literal 6 days of Creation and exposes Big Bang and Evolution as pseudo science says that GPS works anywhere. He says
Yes. It works over oceans anywhere.

What about satellite phones where there are no Cell towers? They work in deserts.

Besides Cell tower information only can determine which Cell you are in. It can't work for navigation on roads as it is too unprecise.

actually the bible classifies the stars as angels. Just because the bible uses SOME figurative language doesnt mean you can pick and choose what dictates as a figurative language. So what is the figurative language of "ends of the earth" 28 times? Pillars? not moving? encased in a firmament that means VAULT. I hope you realize in doing so, your giving me your interpretation of what the bible means."scientist" really? do you pay any attention to what scrince is trying to tell us? LOL they claim they are "tackling god" dude, your awake to the jesuits. look it up. its not a conspiracy, its right there. i never said GPS doesnt work, i said prove their are satellites. I really don't care who says what. I care what is found under solid research and questioning.

Thank you for sharing your opinions, brother, but I need some facts before I can believe the earth is flat. I want to know why I can't see land of the State of Michigan from Chicago from Lake Shore Drive looking at Lake Michigan. I can see only a water horizon. I want to know why I can see both the East and West Shore of Lake Michigan from an airplane. I want to know why I cannot see the Chicago skyline from where I was raised in the Chicago city limits 20 miles away. I want to know why I cannot see the tallest mountain, Mt. Fuji from my home or anywhere else in Japan unless I get to a location not much further than 60 miles of it. I want to know how GPS works though you say it doesn't use satellites and satellites don't exist even though they can be seen in a night sky. I want to know why water going down a drain in the Southern Hemisphere spins counter clockwise. I want to know why flying over Alaska is the shortest way from Chicago to Tokyo. I want to know why the higher I go in an airplane the further away the horizon is. Give me facts brother, not theories, opinions or specious arguments.

(Chat Conversation End)

I knew the answer to all my questions above. Only a spherical model of the earth can possibly be the correct answer. So far not a single person who

believes the earth is flat has changed his mind. I used the masculine pronoun *his* because so far I only know of one lady who has swallowed the flat-earth fallacy. Why is it that mostly men have fallen for flat-earth nonsense?

Is the Earth a “Spinning” Ball?

What's wrong with this meme? Is the earth revolving at such a rate as to spin off the oceans into space?

Flat-Earthers back up their claims that the earth is flat by saying that accepted science calls the earth a “spinning” ball. To say the earth is *spinning* is misleading in my opinion. I think it's a mind manipulation technique to use that word, because it implies the earth is revolving quickly on its axis. It's not.

Dictionary result for spin

verb: spin; 3rd person present: spins; past tense: spun; past participle: spun; past tense: span; past participle: span; gerund or present participle: spinning

1. turn or cause to turn or whirl around **quickly**.
“the girl spun around in alarm”

If you spin a top and it will turn several revolutions per second. If you turn it one revolution per second, would you say you caused it to spin?

How about one revolution per minute?

How about one revolution per hour?

How about one revolution per 24 hours?

Would you call an object that moves *half the speed of the hour hand* of an analog clock, “spinning”? Our planet earth is revolving at only one revolution every 24 hours. At that rate, I wouldn't call it spinning, would you?

Do you see my point? Speed is *relative* to the observer. Flat-earththers say that the earth is spinning 1000 miles an hour at the Equator. They say if the

earth is turning so fast, the water of the oceans should fly off the planet! But it doesn't fly off. Is gravity – something that Flat Earthers also doubt – the only reason why? Water doesn't fly off the revolving earth for the same reason it wouldn't fly off a wet tennis ball that is turned on its axis **once every 24 hours**.

Just try it, Flat-Earthers. Take a tennis ball, soak it in water, and turn it slowly enough so it makes only a single revolution over a period of 24 hours, and see how much water flies off it.

Is 1000 miles per hour “fast”? Yes, if you happen to be flying in an airplane. Interestingly, the closer a plane comes to the ground, the faster it appears to be flying even though its speed is considerably slower when descending than when flying at 30,000 feet or 10,000 meters.

I once observed a plane landing while standing in Barrigada Heights, Guam. I had a clear view of the airport which was at least two miles away. Though the plane approached the runway at approximately 170 miles an hour, from my viewpoint two miles away, the plane approached the runway ever so slowly, and landed ever so gently. Speed is relative to the observer!

Just look at this silly meme! It's downright foolish for all of the reasons above. And yet Flat Earthers believe it! Talk about mind manipulation! It's the *meme* that doesn't hold water!

I believe that Flat Earth is a covert psyop promoted by a group of organized disinformation agents, who are possibly working for the CIA, possibly working even for NASA, with the intent to mislead Bible believing Christians to believe something that is not so to make them look foolish in the eyes of the world and hurt their testimony of salvation in the Lord Jesus Christ.

[Genesis Chapter One Indicates a Spherical Rotating Earth](#)

Stationary GPS satellite over the rotating earth

On March 15th I hitchhiked to the Tokyo area from my home in Niigata City in 4 cars. When sitting in the back seat of one of the cars, the front seat passenger was having a long conversation with the driver. This meant I didn't have to engage in conversation with them and gave me an opportunity to redeem the time and type a message on my Tablet PC. I wanted to reply to a man named Sam who was debating with my friend [Dr. John Gideon Hartnett](#) about when God created the sun. Though the Bible in Genesis 1 clearly says God made the sun on the 4th day of creation, Sam says it must have been on the first day for how can there be 24 hours without the sun? Before we go further, you must know I am writing this for Bible believers who believe in a literal six days of creation of the universe and everything in it, with one day being 24 hours. This is what most Creationists and fundamental Christians and Bible believers hold to be true.

Holding my Tablet PC in my left hand and typing with one finger of my right hand, I suddenly saw things from the first few verses of Genesis one that I never saw before! I wrote Sam things I didn't intend to write him. Have you ever experienced getting revelations from the written Word of God of things you haven't ever heard anybody else teach? I have, and it's thrilling! I think Bible teachers experience this more than those who just read the Bible but don't share with others what they learn. Maybe God showed me something new because He knew I was just about to share it with somebody else! You can read about another revelation I had on [New Viewpoint of the Clay and Iron of Daniel Chapter 2](#)

This is what I wrote Sam:

Your question, "How does one explain Day & Night and "first day" if this is not the creation of the sun?????" is valid in my opinion and something I wondered about too. The way I see it is God, "in the beginning" not only created matter and light on the first day, He created *time* as well. Is 24 hours dependent on the existence of the sun to be 24 hours? Or is 24 hours dependent on one rotation of the earth? According to my understanding of time and physics, the latter is true. Therefore even without a sun there were 24 hour days because of the rotation of the earth!

Genesis 1:4 And God saw the light, that it was good: and God divided the light from the darkness.

Suddenly verse 4 makes more sense to me than ever! If the sun didn't exist till day 4, how could God divide the light from the darkness? Answer: God Himself was the light source over a rotating earth!

And even if you say all of the above is mere speculation, the Scriptures say clearly in verse 1:16, And God MADE two great lights; the greater light to rule the day, and the lesser light to rule the night: he made the stars also.

1:19 And the evening and the morning were the fourth day.

Sam didn't argue against my answer. ☐

Refuting the Flat Earthers

During year 2015, an unusual and crazy phenomenon of people who believe the earth is flat spread around the Internet. Flat Earthers are bound not to like this article. And who bought flat earth foolishness? Every one of them I have encountered so far is an English speaking US American or Canadian. Every one of them is a Bible believing Christian and a conspiracy researcher. I even had to deal with one face to face on March 16th! I visited him without knowing that he had become a flat earther. Do you see a pattern here? I believe Flat Earth is a psyops designed to trip off mostly white North American Christians who are also conspiracy researchers. Not a single Japanese I have ever met believes the earth is flat. They all laugh when I tell them I know people who do.

If the child turned constantly around holding a rope attached to a swinging bucket of water while facing it, this would be akin to how a geostationary satellite orbits the rotating earth while staying over the same area of the earth. The rope between the bucket and the person swinging it is akin to the gravitational force that keeps the satellite in motion from flying away into space. Flat earthers deny the existence of gravitational force, outer space, Newtonian laws of motion, and the existence of communication satellites that make the Internet fast so they can spread their flat earth propaganda easier?! Incredible!
