## Chart of 10 years of Hitchhiking

The chart shows how many kilometers I hitchhiked every year for the last 10 years. Only the first year of 2005 doesn't show accurately how far I hitchhiked that year for I started keeping records from August 2, 2005. The total distance to date is 223,042 kilometers. over a period of exactly 925 days in 3587 vehicles. The latter two figures should be exact but the distance traveled may have a small percentage of error. I'm trying to be as accurate as possible. I used to use Google Maps to measure distances but now I use an on-line application on http://www.mapfan.com/routemap/routeset.cgi which should be more accurate. This is a great app if you live in Japan and can read Japanese well enough to use it.

## x

Last year of 2015 was 12,749 kilometers (7968 miles) less than 2014 which was my record to date of 28,352 kilometers or 17,720 miles. The reason for this is I made far fewer trips to Aomori Prefecture. Will 2016 be a better year for me? I hope so. The number of trips has something to do with not only how much money I save, but how much income I can earn. You can see my income fell last year from the year before.
