

The End of My Adventures Hitchhiking in Japan

My days of hitchhiking in Japan are over. On May 5th, 2018 I will start a brand new life in Guam with my bride! The chart shows the distances I traveled by hitchhiking since I kept records, a total of 258,500 kilometers. I estimate the total distance hitchhiked over 20 years from March 1998 to be 350,000 kilometers.

You can see a [detailed breakdown](#) of the people who picked me up.
