## <u>Year 2014 – A record year for</u> <u>hitchhiking</u>

With another man also hitchhiking! His partner with him took the photo

×

The graph shows distances hitchhiked from 2005 to the present.

In 2014 I hitchhiked 28,352 kilometers (17,720 miles). That's 4304 kilometers or 2690 miles more than year 2013– a record to date! The older I get, the easier it is to catch a ride!  $\Box$
