

Science Confirms the Truth of the Bible

Science Confirms the Bible (Bear in mind that the Bible was written 2,000-3,000 years ago)		
THE BIBLE	SCIENCE NOW	SCIENCE THEN
The earth is a sphere (Isaiah 40:22).	The earth is a sphere	The earth was a flat disk.
Incalculable number of stars (Genesis 22:17).	Incalculable number of stars	Only 1,200 stars.
Free flow of earth in space (Job 26:7).	Free flow of earth in space.	Earth sat on a large animal.
Creation made of invisible elements (Hebrews 11:3).	Creation made of invisible elements (atoms).	Science was ignorant on the subject.
Each star is different (1 Corinthians 15:41).	Each star is different.	All stars were the same.
Light moves (Job 38:19,20).	Light moves.	Light was fixed in place.
Air has weight (Job 28:25).	Air has weight.	Air was weightless.
Winds blow in cyclones (Ezekiel 1:1).	Winds blow in cyclones.	Winds blow straight.
Blood is the source of life and health (Leviticus 17:11).	Blood is the source of life and health.	Sick people must be bled.
Ocean floor contains deep valleys and mountains (2 Samuel 22:16; Jonah 2:6).	Ocean floor contains deep valleys and mountains.	The ocean floor was flat.
Ocean contains springs (Job 38:18).	Ocean contains springs.	Oceans fed only by rivers and rains.
When dealing with storms, hands should be washed under running water (Leviticus 15:13).	When dealing with diseases, hands should be washed under running water.	Hands washed in still water.

True scientific discoveries confirm the truth of the Bible. The very first verse in the Bible, Genesis chapter one verse one, has a profound meaning in physics.

Genesis 1:1 ¶In the beginning God created the heaven and the earth.

Einstein's *space-time continuum* verifies Genesis 1:1. Before "the beginning" there was no time, there was no heaven – space – and there was no earth – matter. Time, space, and matter all must exist simultaneously or none of them can exist.

Physicist Dr. John Gideon Hartnett adds to the preceding paragraph:

At first glance, this seems to give credibility to the Big Bang theory that the universe had a beginning in time and was 'created' out of 'nothing'. Those are in scare quotes because there is no creator in the big bang universe, and prior to it existing there was nothing. But nothing does not spontaneously create a universe unless you are a believer in Steven Hawking's wishful thinking. See

<https://biblescienceforum.com/2014/07/15/the-singularity-a-dark-beginning/>

Without space and time, matter cannot exist, but neither can a universe exist without a creator and the Bible tells us who He is. The Creator is a God whom we can know personally. He is the great I AM, who was always there, the uncreated First Cause, and we can trust what He says, because He never lies (Numbers 23:19, Titus 1:2). His name YHWH from Hebrew means the 'self-existent One'. He is not created but He created all things."

Dr. Henry M. Morris, Ph.D., says,

"In the beginning God created the heaven and the earth." Time itself, according to this most profound (yet simple) of all declarations, had a beginning. Space (i.e., "the heaven") and matter ("the earth") began simultaneously with time. Before that beginning, there was nothing—that is, nothing except God! (Quoted from <https://www.icr.org/article/eternal-future-time-space-matter/>)

The Bible confirms the existence of harmful bacteria

The laws of sanitation in the Bible were written some 3000 years before Louis Pasteur in the 19th century linked germs with infectious disease!

There are numerous rules for sanitation and quarantine found in the Old Testament, and especially in the Book of Leviticus that God gave for the benefit of His children to keep them free from contagious diseases. The scientific community only much later in time discovered the importance of these health rules which includes washing one's body in *running water*!

*Leviticus 15:13 And when he that hath an issue is cleansed of his issue; then he shall number to himself seven days for his cleansing, and **wash his clothes, and bathe his flesh in running water**, and shall be clean.*

"Soap and water don't kill germs; they work by mechanically removing them from your hands. **Running water by itself does a pretty good job of germ removal...**" (Quoted from https://www.health.harvard.edu/newsletter_article/The_handiwork_of_good_health)

You have probably heard the proverb, "Cleanliness is next to godliness." The phrase "running water" is found exactly seven times in the King James translation of the Bible! The number seven is God's special number, for it signifies spiritual perfection and completion. The Bible mentions it more than any other number.

*Leviticus 14:5 And the priest shall command that one of the birds be killed in an earthen vessel over **running water**:*

*Leviticus 14:6 As for the living bird, he shall take it, and the cedar wood, and the scarlet, and the hyssop, and shall dip them and the living bird in the blood of the bird that was killed over the **running water**:*

*Leviticus 14:50 And he shall kill the one of the birds in an earthen vessel over **running water**:*

*Leviticus 14:51 And he shall take the cedar wood, and the hyssop, and the scarlet, and the living bird, and dip them in the blood of the slain bird, and in the **running water**, and sprinkle the house seven times:*

*Leviticus 14:52 And he shall cleanse the house with the blood of the bird, and with the **running water**, and with the living bird, and with the cedar wood, and with the hyssop, and with the scarlet:*

Leviticus 15:13 And when he that hath an issue is cleansed of his issue;

then he shall number to himself seven days for his cleansing, and wash his clothes, and bathe his flesh in **running water**, and shall be clean.
Numbers 19:17 And for an unclean person they shall take of the ashes of the burnt heifer of purification for sin, and **running water** shall be put thereto in a vessel:

More Scriptures about sanitation

Leviticus 11:31 These are unclean to you among all that creep: whosoever doth touch them, when they be dead, shall be unclean until the even.
32 And upon whatsoever any of them, **when they are dead**, doth fall, it shall be **unclean**; whether it be any vessel of wood, or raiment, or skin, or sack, whatsoever vessel it be, wherein any work is done, **it must be put into water**, and it shall be unclean until the even; **so it shall be cleansed**.
33 And every earthen vessel, whereinto any of them falleth, whatsoever is in it shall be unclean; and ye shall break it.
34 Of all meat which may be eaten, that on which such water cometh shall be unclean: and all drink that may be drunk in every such vessel shall be unclean.
35 And every thing whereupon any part of their carcase falleth shall be unclean; whether it be oven, or ranges for pots, they shall be broken down: for they are unclean, and shall be unclean unto you.
36 Nevertheless a fountain or pit, **wherein there is plenty of water**, shall be clean: but **that which toucheth their carcase shall be unclean**.

The words "unclean" and "clean" indicate to me either the presence of germs and harmful bacteria or the absence of them. The microscope had not yet been invented in the time Moses led the children of Israel out of Egypt. The people of course could not see microbes. They didn't have the "germ theory" in their education. They just obeyed God's commands to Moses not knowing the scientific reasons why they should.

Medieval Europe was plagued with diphtheria, measles, tuberculosis, leprosy, typhus, anthrax, smallpox, salmonella and other maladies. The worst of such diseases was of course the Black Death.

Leviticus 15:1 ¶And the LORD spake unto Moses and to Aaron, saying,
2 Speak unto the children of Israel, and say unto them, When any man hath a running issue (a discharge such as puss) out of his flesh, **because of his issue he is unclean**.
3 And this shall be his uncleanness in his issue: whether his flesh run with his issue, or his flesh be stopped from his issue, it is his uncleanness.
4 Every bed, whereon he lieth that hath the issue, is unclean: and every thing, whereon he sitteth, shall be unclean.
5 And whosoever toucheth his bed shall **wash his clothes, and bathe himself in water**, and be unclean until the even.
6 And he that sitteth on any thing whereon he sat that hath the issue shall **wash his clothes, and bathe himself in water**, and be unclean until the even.
7 And he that toucheth the flesh of him that hath the issue **shall wash his clothes, and bathe himself in water**, and be unclean until the even.
8 And if he that hath the issue spit upon him that is clean; then he shall **wash his clothes, and bathe himself in water**, and be unclean until the even.

9 And what saddle soever he rideth upon that hath the issue shall be unclean.

10 And whosoever toucheth any thing that was under him shall be unclean until the even: and he that beareth any of those things **shall wash his clothes, and bathe himself in water**, and be unclean until the even.

11 And whomsoever he toucheth that hath the issue, and hath not rinsed his hands in water, he shall **wash his clothes, and bathe himself in water**, and be unclean until the even.

12 And the vessel of earth, that he toucheth which hath the issue, shall be broken: and every vessel of wood **shall be rinsed in water**.

13 And when he that hath an issue is cleansed of his issue; then he shall number to himself seven days for his cleansing, and **wash his clothes, and bathe his flesh in running water**, and shall be clean.

Does modern science tell us it's important for good health to keep our bodies and hands clean? You know it does. And why? To remove the presence of harmful bacteria, that's why.

Did you know that in the early part of the 19th century, ['Wash your hands' was once controversial medical advice](#)?

Regarding the hygiene principle and germs, Ignaz Philipp Semmelweis (1818 –1865), who was a Hungarian physician, discovered that 10%–35% Of the mothers that came to the medical institutions suffered fatalities. Puerperal fever was common in mid-19th-century hospitals and was fatal. Doctors in those clinics had three times the mortality of midwives' wards. Sadly, nobody knew why. But after close observation, Semmelweis discovered that the incidence of puerperal fever or "childbed fever" could be **greatly reduced by the use of hand disinfection** in obstetrical clinics.

Semmelweis proposed the practice of washing hands with chlorinated lime solutions in 1847 while working in Vienna General Hospital's First Obstetrical Clinic. He ordered physicians to wash their hands thoroughly after every examination. In three months, **the death rate fell from 18% to 1%**. These were astounding results. And he was called the "savior of mothers." He published a book of his findings in Etiology, Concept and Prophylaxis of Childbed Fever. Despite various publications of his successful results, Semmelweis's suggestions were **not accepted by the medical community** of his time.

Why was Semmelweis research rejected? Because germs were virtually a foreign concept for the Europeans in the middle-19th-century. Later, Semmelweis's publications earned widespread acceptance only years after his death, when Louis Pasteur confirmed the "germ theory" and Joseph Lister, acting on the French microbiologist's research, practiced and operated on patients while using hygienic methods with great results.

Had the medical community paid attention to God's instructions that were given 3000 years before, many lives would have been saved. The

Lord gave the Israelites hygienic principles against the contamination of germs and taught the necessity to quarantine the sick (Numbers 19:11-12). And the book of Leviticus lists a host of diseases and ways where a person would come in contact with germs (Leviticus 13:46).

Germs were no new discovery in 1847. And for this fact, Roderick McGrew testified in the Encyclopedia of Medical History: "The idea of contagion was foreign to the classic medical tradition and found no place in the voluminous Hippocratic writings. The Old Testament, however, is a rich source for contagionist sentiment, especially in regard to leprosy and venereal disease" (1985, pp. 77-78). – (from <https://bibleask.org/did-the-bible-teach-the-germs-theory/>)

The practice of the quarantine of people with infectious diseases is in the Bible

Numbers 12:10 ¶And the cloud departed from off the tabernacle; and, behold, **Miriam became leprous**, white as snow: and Aaron looked upon Miriam, and, behold, she was leprous.

11 And Aaron said unto Moses, Alas, my lord, I beseech thee, lay not the sin upon us, wherein we have done foolishly, and wherein we have sinned.

12 Let her not be as one dead, of whom the flesh is half consumed when he cometh out of his mother's womb.

13 And Moses cried unto the LORD, saying, Heal her now, O God, I beseech thee.

14 And the LORD said unto Moses, If her father had but spit in her face, should she not be ashamed seven days? **let her be shut out from the camp seven days**, and after that let her be received in again.

15 And Miriam was shut out from the camp seven days: and the people journeyed not till Miriam was brought in again.

Other than the "germ theory" we also have the "terrain theory"

Diseases are results of our internal environment and its ability to maintain homeostasis against outside threats. Terrain theory believes if an individual maintains a healthy terrain, it can handle outside invaders or threats which cause diseases. When terrain is weak, it favors the microorganisms. Hence, health depends on the quality of an individuals' terrain. (Quoted from <https://drkarenwolfe.org/germ-theory-or-terrain-theory-of-disease/>)

Are these two theories of the cause of disease at odds with each other? I personally do not think so. In my opinion, both are true. We are supposed to wash our hands before we eat so we do not transfer harmful bacteria into our mouths, and we try as much as possible to live in an environment free of toxic chemicals. We also are supposed to maintain a strong immune system by eating a nutritious diet, daily exercise, taking a good night's sleep and rest when our bodies tell us it's tired, and having a good mental attitude

toward life in general.

People who have a relationship with God through the Lord Jesus Christ are the most likely people to have such a good positive attitude. They are less likely to worry about the future or experience stress which is harmful to health. If you are searching for such a relationship with your Creator God, please see [The Lover of all Lovers.](#)

Messenger RNA Vaccines May Cause Damage to the Cardiovascular System

Transcript of Dr. Bridle interview on *On Point* with Alex Pierson

Alex Pierson: Talking about a lot of science these days! It's coming out as fast and furious. And a lot of people asking a lot of good questions, you know, the vaccines, are they safe for kids? Certainly, there's a big push to get kids as young as 12 the shot as soon as possible, but, but everyone's confident about it, even if you're not an anti-vaxxer, there are a lot of parents who are kind of nervous about putting something into their kids.

And then I read that there have been several dozen cases of heart problems in teens and young adults, which Israel is now looking into. And what they're looking into which they'll release the results of are why mostly males, not all, but around 22 years of age and younger, are getting heart inflammation. So one to four days after getting a shot, they get shortness of breath, fatigue, and some very specific chest pain. It's mild, so no one's gotten really sick or died. But you want to know what you don't know if you're going to put something into your kids.

Let us bring in Dr. Byram Bridle. He's an associate professor of viral immunology at the University of Guelph (Ontario, Canada). Doctor, you've been very, you know, very open on this whole issue. And you know, you're not an anti-vaxxer by any stretch, but what do you think about this inflammation in the heart, and is it an actual threat?

Dr. Bridle: Yeah, thanks for having me on, Alex. Yeah, as you said, I'm very much pro-vaccine, but always making sure that the science is done properly, and that we follow the science carefully before going into public rollout of vaccines. I hope you'll let me run with this a little bit, Alex. I'll forewarn you and your listeners that the story I'm about to tell is a bit of a scary one. This is cutting-edge science.

There's a couple of key pieces of scientific information that I have become privy to just within the past few days that has made the final link. So we understand now, myself and some key international collaborators, we understand exactly why these problems are happening. And many others associate these vaccines. And the story is a bit of a scary one. So just to brace you for this, but I'm going to walk you through this. The science that I'm gonna be talking about. I don't have the time here to describe exactly the scientific data. But let me assure you that everything that I'm stating here that I'm gonna state right now is completely backed up by peer-reviewed scientific publications, and well-known and well-respected scientific journals.

I have all of this information in hand, I'm in the process of mildly trying to put it all into a document that I can hopefully circulate widely. So your listeners are going to be the first to hear the public release of this conclusion, and I can vouch for the science. So this is what it is.

The SARS-coronavirus 2 has a spike protein on its surface. That spike protein is what it allows it to infect our bodies. That is why we have been using the spike protein in our vaccines. The vaccines we're using get our cells in our bodies to manufacture that protein. If we can mount an immune response against that protein, in theory, we can prevent this virus from infecting the body. That's the theory behind the vaccine. However, when studying the disease, severe COVID-19, everything that you've just described heart problems, lots of problems with the cardiovascular system, bleeding and clotting is all associated with severe COVID-19.

And looking and doing that research, what has been discovered by the scientific community is the spike protein on its own is almost entirely responsible for the damage to the cardiovascular system if it gets into circulation. Indeed, if you inject the purified spike protein into the blood of research animals, they get all kinds of damage to the cardiovascular system, and it can cross the blood-brain barrier and cause damage to the brain.

Now at first glance, that doesn't seem too concerning because we're injecting these vaccines into the shoulder muscle. The assumption all up until now has been that these vaccines behave like all of our traditional vaccines that they don't go anywhere other than the injection site, so they stay in our shoulder. Some of the protein will go to the local draining lymph node in order to activate the immune system. However, this is where the cutting edge science has come in this and this is where it gets scary.

Through a request for information from the Japanese regulatory agency, myself and several international collaborators have been able to get access to

what's called a bio-distribution study. It's the first time ever that scientists have been privy to seeing where these messenger RNA vaccines go after vaccination. In other words, is it a safe assumption that it stays in the shoulder muscle?

The short answer is absolutely not. It's very disconcerting.

The spike protein gets into the blood, circulates through the blood in individuals, over several days post-vaccination. It accumulates once it gets to the blood and accumulates in a number of tissues such as the spleen, the bone marrow, the liver, the adrenal glands. One particular concern for me is it accumulates at quite high concentrations in the ovaries. And, and then also a publication that was just accepted for a scientific paper just accepted for publication that backs this up, looked at 13 young healthcare workers that had received the Moderna vaccine which is the other messenger-RNA-based vaccine we have in Canada. And they confirm this. They found the spike protein in circulation in the blood of 11 of those 13 health care workers that had received the vaccine.

What this means is, so we have known for a long time that the spike protein is a pathogenic protein, it is a toxin, it can cause damage in our body if it gets into circulation. Now, we have clear cut evidence that the vaccines that make our bodies, our muscles or the cells in our in our deltoid muscles, manufacture this protein, that the vaccine itself, plus the protein gets into blood circulation. When in circulation, the spike protein can bind to the receptors that are on our platelets and the cells that line our blood vessels.

When that happens, it can do one of two things. It can either cause platelets to clump, and that can lead to clotting. That's exactly why we've been seeing clotting disorders associated with these vaccines, it can also lead to bleeding. And of course, the heart involved. It's part of a key part of the cardiovascular system. That's why we're seeing heart problems.

The protein can also cross the blood-brain barrier and cause neurological damage. That's why also in the fatal cases of blood clots many times is seen in the brain. And also of concern is there's also evidence of a study – this has not yet been accepted for publication yet, this one – they were trying to show that the antibodies from the vaccine get transferred through breast milk. And the idea was this may be a good thing because it would prefer some passive protection to babies. However, what they found inadvertently was that the vaccines, the messenger RNA vaccines, actually get transferred through the breast milk. So the delivering the vaccine vector itself into infants that are breastfeeding. Also what this note we know spike protein gets into circulation, any proteins in the blood will get concentrated in breast milk. Looking into the adverse event database in the United States, we have found evidence of suckling infants experiencing bleeding disorders in the gastrointestinal tract.

Alex Pierson: So okay, let me pause you there. There are only about 45 seconds left.

Dr. Bridle: Sure, I'll wrap it up this message.

So this has implications for blood donation. Right now Canadian Blood Services are saying that people who have been vaccinated can donate. We don't want the transfer of these pathogenic spike proteins to fragile patients who were being transfused with that blood. This has implications for infants that are suckling. And this has serious implications for people for whom SARS Coronavirus 2 is not a high-risk pathogen, and that includes all of our children.

In short, the conclusion is, we made a big mistake, we didn't realize it until now, we thought the spike protein was a great target antigen, we never knew the spike protein itself was a toxin and was a pathogenic protein. So by vaccinating people, we are inadvertently inoculating them with a toxin. And some people this gets into circulation. And when that happens in some people, they can cause damage, especially in the cardiovascular system. And I have many other, I don't have time, but many other legitimate questions about the long term safety, therefore, of this vaccine, for example, with it accumulating in the ovaries, one of my questions is, will we be rendering young people infertile, some of them infertile? So I'll stop there. I know it's heavy heading...

Alex Pierson: I'm up against the clock. I need like an hour when I talk to you because you have so much information and of course your one opinion of many, but you know, it's interesting because you have a different look at it. And certainly, the time will tell on this but we'll have you on again because I always get an interesting and different perspective from you. Doctor, thank you.

Dr. Bridle: It was my pleasure. Take care.

COVID-19 mRNA Injections are Legally Not Vaccines! – By Dr. David E. Martin

This is a talk by David E. Martin Ph.D. He is the developer of several innovation-based quantitative indices of public equities and the founder of the Purple Bridge Funds and M-CAM International. He has worked closely with the United States Congress and numerous trade and financial regulatory agencies in the United States. Dr. Martin is also a Batten Fellow at the University of Virginia's Darden Graduate School of Business Administration. (Quoted from <https://z3news.com/w/david-martin-presents-evidence-corona-virus-manmade/>)

Transcript of David Martin's talk

(Dr. Martin:) January 11, 2021, at least got the date, right? We're not in December anymore.

Today, hey, by the way, thanks, everybody, for the last six weeks that that series has been shared a lot, we've gotten a lot of great feedback. So thank you, everybody, who has been a huge part of our six-week series on the integral accounting view of what's next. That's been a really wonderful experience. Today, we're diving back into some really important stuff. And there are a number of you who have been asking questions about the status of legal proceedings, and so forth. And, and today, I'm going to give give you a little window into a couple of the approaches that are going on in various lawsuits. We're not commenting specifically on lawsuits right now that are active and pending simply because that's just not an appropriate thing to do. Other than to say, there are active and pending cases.

But today is a really weird one, people. And I have to say, you know, back in the early 1990s, I was doing clinical trials at the University of Virginia medical school. And I happened to be working in a very controversial medical technology area called electromagnetic field therapy or EMF. And historically, I mean, if you go back for decades, there's been all kinds of disputes around whether or not that technology works or not.

And so we were doing a multi-center clinical trial for a Japanese company. And I became very aware of 15 US Code Section 41, which is part of the Federal Trade Commission Act, that specifically has to do with advertising that a product or service can prevent, treat or cure human disease unless you possess competent, reliable scientific evidence, including when appropriate, well-controlled human clinical studies substantiating that the claims are true at the time they're made. So there's a rule under the Federal Trade Commission Act, and it has been used to shut down alternative medicine for years like you know, people who have been naturopaths, people who have been chiropractors, people who have been in any of the what are considered to be kind of alternative medical spaces have become very familiar with this, because it's the way the Federal Trade Commission shuts people down. confiscates materials, confiscates businesses, does some really egregious acts. And it occurred to me that no one seems to be talking about this when it comes to what is being promoted in the current regime!

And so, I thought, we're going to take a look into 15 US Code Section 41 today. And the reason for this is twofold. Number one is because it's

important. Number two, is because I think that we need to call out a very important thing. So there's a part of the Federal Trade Commission Act, which also has to do with what's called deceptive labeling practices. It's when you use terms or phrases or words where you know that you are using them with an intent to deceive, deceptive medical practices. And so today, we're going to take apart a couple of the deceptive medical practices, and suggest that if any of you, and this is now a specific challenge, people, listen, we've been doing 39 of these videos.

Somebody who's watching this video knows an elected official, somebody watching this video knows a prosecutor, whether that's a US Attorney, whether that's an Attorney General in a state, somebody in the viewing of this video knows somebody who needs to listen to this video. And I'm going to really encourage you to share this, because it's actually super important. Listen, if this law can be applied to shut down people of goodwill, who are trying to help other people, it certainly should be equally applied when we know deceptive medical practices are being done in the name of public health. And we're going to get to that.

But Kim, let's start off with both of us worked in hospitals. Both of us worked in medical centers. As a condition of employment, you had to have shots, right?

(Kim:) Yeah, definitely had to have shots that have hep B and a few others. That was a bit way back in the day. But yeah, we had to have, all of us had to have as to be a nurse. You had to have shots done.

(Dr. Martin:) Yeah, I mean, at the Medical Center at the University of Virginia, you know, hep B was a standard. If you didn't have hep B, you know, you had no patient interaction. How about when you were in your own business?

(Kim:) No, not when I was running my own business, because I wasn't employed by a hospital. I did my own assessments of my own group of nurses. And we didn't have to because I was the boss.

(Dr. Martin:) Yeah. But there are people. I mean, let's be really clear. There are people for whom vaccines and various medical measures are a requirement for employment. And that's a really interesting problem where you get forced into doing something, and that made me think. Somethings troubled me. And the thing that's troubled me is that both Pfizer and Moderna have been promoting what they call a "vaccine".

Now, for those of you who don't really think about it, you have thought about it, because the public thinks that when you say vaccine, one of at least two things is happening. First is, whatever you're getting is going to keep you from being infected by some sort of pathogen. So that's assumption number one. Assumption number two, is that somehow or another, if you get that vaccine, somehow you're doing your public health bit to make sure that you don't transmit it to other people, right? Am I going out on a limb here? The word "vaccine" kind of means that.

And let's let's go back in history a little bit, shall we? Let's go back to

1905, to the very, very, very, very, very famous Jacobson case in Massachusetts (Jacobson v. Massachusetts Ref: https://en.wikipedia.org/wiki/Jacobson_v._Massachusetts), the Supreme Court 1905. And I'm going to read the quote, because I think it's important,

"This Court has more than once recognized as a fundamental principle, that persons and property are subjected to all kinds of restraints and burdens in order to secure the general comfort, health, and prosperity of a state."

So what the Supreme Court and Jacobson said was that the police powers the public health powers were legitimate if they secured the general comfort, health and prosperity of the state. That implies that the individual benefit is superseded by a collective benefit, that somehow or another, the individual is not the point when it comes to public health laws, it's about the community, which would then suggest that to meet a vaccine public health standard, and quite frankly, a vaccine public health definition, something about either you are immune from getting a pathogen or and potentially and, you are not going to transmit the pathogen, must be part of what lives inside that definition. That couldn't be more straightforward than the Supreme Court of the United States in 1905, which, by the way, happens to be a decision that I have yet to even meet many attorneys who have bothered reading it. They talk about vaccine litigation. But I haven't heard many that can actually quote the majority opinion out of Jacobson, which is a very dangerous problem that we have.

But here's where it gets more interesting. So when Moderna was started, and if you go back and look at their SEC filings, and we've gone through all their SEC filings, they make a point of saying that their technology is a gene therapy technology, gene therapy technology, you'll notice that they don't say vaccination, they actually say gene therapy technology. And it was set up to be a cancer treatment. So this is gene therapy, chemotherapy.

Now, let's just stop for a minute. Let's just ask the question. If Anthony Fauci got up and said to everybody, "Hey, we want you to take chemotherapy for the disease that you may or may not ever have." There wouldn't be a single person raising their hand, the prophylactic chemotherapy, you wouldn't be doing it. You know why you wouldn't be doing it? Because it's a dumb idea, that's why you wouldn't be doing it. And, States wouldn't be able to mandate it and employers wouldn't be able to mandate it, no employer would be able to mandate a chemotherapy for a disease that you don't have. That would not be a legal thing to do. But they called their technology, gene therapy technology. They made a big point of saying that this was not investigational new drugs, this was gene therapy technology. This belonged in the Center for Biologics, potentially even the CDRH, the Center for Device and Radiological Health, because let's think about what they actually do. And by the way, this is super important. All the references are going to be in this video on the YouTube channel. And I'm going to put a bunch of the references actually, in the comments section on Facebook Live so that you can go see this yourself.

But what they're doing is they're putting together a synthetic fragment of nucleic acid, it's not mRNA. It's not natural. It's not even a natural component of a fragment. It's a synthetic fragment, it's a technology

embedded within a fat carrier, a peg carrier, and that is being introduced into the cell not to induce an immunity from infection with a SARS COVID virus, and it's not to block transmission of it. It's actually to lessen symptoms associated with the S1 spike protein, not even the virus itself. So it gets better and or worse, depending on your point of view. The fact of the matter is this thing is actually not a vaccination.

Now, why would I say it's not a vaccination? People go, "Dave? Why would you say it's not a vaccination?" Well, let's look at the legal standard for what a vaccination is. And let's start with the Center for Disease Control's own definitions, why not start with the people who run the racket?

Two important operative definitions: Immunity is protection from an infectious disease, protection from an infectious disease. If you are immune to a disease, you can be exposed to it without becoming infected. Now, by definition, neither Pfizer nor Moderna even claims that to be the case. That's straight-up, not their definition. So immunity, you can be exposed to a pathogen infectious disease without becoming infected. Not only is that not the case, we're going to get to this in a minute, but in their clinical trials, they specifically say they're not going to test that. So stay with me on that.

And then the CDC says a vaccine is a product that stimulates a person's immune system to produce immunity, see the definition above, to a specific disease protecting the person from that disease. And then it says vaccines are usually administered through needle injections, but also can be administered by mouth and sprayed in the nose. Now, that's the CDC.

So let's just stipulate for the sake of this conversation, that the CDC has its own definition, and what Pfizer and Moderna are doing, do not match.

And by the way, you should be thinking somewhere in this video, hold on a second. If this isn't a vaccine, why are they calling it a vaccine? That's a question. You should be thinking in your head because we're going to come to that in a second.

But I thought, okay, CDC, CDC is not the law. CDC is an expression of an agency, empowered by the law, but it's actually not the law. So why don't we actually look at the laws where vaccine has been defined? And it turns out, that's a much harder exercise than you would think. Because vaccine The term is actually not a legally defined term in an enormous number of statutes that govern vaccines, which is actually a really interesting thing. But let's look at some examples. And I just pulled a couple examples from the Iowa code. Vaccine, and I'm quoting means a specially prepared antigen administered to a person for the purpose of providing immunity.

Immunity once again, the operative definition, which is to say that when exposed to a pathogen, you are not susceptible. That's the Iowa code. How about Washington State? You know, the State that has been absolutely tyrannical and all of its interventions around Coronavirus, allegedly the birthplace of the US experience with Coronavirus, State of Washington. Vaccine legally defined term now, this is in the statute, means a preparation

of a killed or attenuated living microorganism or fraction thereof, just stop right there, vaccine means a preparation of a killed or attenuated living microorganism. Stop right there. And mRNA synthetically developed by Moderna and Pfizer do not meet this definition. Or a fraction thereof, it's not a fraction of a living thing or a killed thing, because it's neither living nor killed. They are explicitly synthetic gene therapies. **They are not vaccines as defined by the statute that upon administration stimulates immunity.** There we have it, again, that stimulates immunity, meaning that you do not get a thing when exposed to that pathogen, right? That protects us against disease and is approved by the Federal Food and Drug Administration and safe and effective. Now, that's the State of Washington statute. And by the way across the board, that's the definition of vaccine, which means immunity is a defined term vaccine is a defined term.

But here comes a really big problem. The big problem is that if we look at the clinical trials that were approved for what was called the SARS-CoV2 COVID-19 vaccine program under the operation warp speed, listen very carefully to what the primary endpoint is.

The primary endpoint is the prevention of symptomatic COVID-19 disease. Now, let's pause and unpack that starting with COVID 19 disease.

As you all know, if you've been watching this show at all, you know that in February, the World Health Organization, and the CDC and the Department of Health and Human Services made a very clear distinction. They wanted to make sure that COVID-19, which was a series of clinical symptoms, which included things like fever, muscle pain, aches, loss of smell, certain radiologic findings in the lungs, a whole host of things, there's a laundry list of things that all got subsumed within this thing called COVID-19, which by the way, has been now redefined as to pick which is pneumonia, influenza COVID, as a combined set of things so that we can catch more people allegedly dying of this thing. But **COVID-19 disease is actually not a disease, it is a set of symptoms.**

And they were very clear on this, by the way. They tried to make a causal statement, they tried to say sorry, COV2 causes COVID-19. But then there was a tiny problem. Most of the people who tested positive using the RT PCR method had no clinical presentation, which means you can't make a causal statement. You can't say the virus causes a disease, because unfortunately, most people with a positive PCR test for a fragment of what was called SARS-CoV-2, didn't have any problem. In fact, well over 80% had no problem. Which then leads us to the question of, okay, so we can't say it's causal, but it's more problematic than this, the primary endpoint for the vaccine trial was actually not a vaccine endpoint.

A vaccine endpoint has to do with immunity. And a vaccine endpoint has to do with transmissibility. And neither of those were measured, and it gets worse.

And I'm quoting right now straight out of Moderna's own statement. "Key secondary endpoints include prevention of severe COVID-19 disease, and prevention of infection by SARS-CoV-2." But here comes a tiny little problem. By their own admission in their clinical study, it was and I'm quoting,

"impractical to measure infection." That's right, you heard me correctly. It's impractical to measure infection. So there is no evidence inside the phase three clinical trials, that any of the gene therapy had anything to do with the infection or not of SARS-CoV-2.

You cannot have a vaccination. It's not under the legal definition of vaccination, you cannot have a vaccination. That is in fact, not meeting either an immune or a transmission standard. And their clinical trial was set up specifically so that it could not measure either of those things.

And then, let's quote, shall we, from *The New England Journal of Medicine*, and from [The Lancet](#) . And this is October, and this is December respectively. And I'm just going to go ahead and read this quote:

"At the time of this writing, no correlate of protection from SARS-CoV-2 has been established." (Ref: <https://www.nejm.org/doi/full/10.1056/NEJMoa2028436>)

Maybe you misheard what I just said. **As of this writing, no correlative protection for SARS-CoV-2 has been established.** In other words, not a shred of evidence from the clinical trials said anything about protection from infection with SARS-CoV-2, which means every single person who has value signaled their vaccination because they're doing their part not to be infected with SARS-CoV-2, and not to get COVID-19, newsflash, you have been violating the Federal Trade Commission Act by deceptive practices. You've been telling people that there is a protection that the data itself does not afford. But maybe that was just one report. So why don't I read from the second report? And I quote, and this is the *Lancet* and *New England Journal of Medicine*, quote,

"No existing vaccines have been shown to be effective against infection with any betacoronavirus, the family that includes SARS-CoV-2, which causes Covid-19." (Ref: <https://www.nejm.org/doi/full/10.1056/NEJMe2034717>)

People, this isn't my opinion, this is not me selectively choosing to take a spin on facts. This is in fact, fact. Which then begs the question, Kim. What would motivate Pfizer and Moderna and more importantly felonious Fauci, the unsavory, what would motivate them and CDC and others to lie to the American people about this being a vaccine, because vaccines in the ordinary course of the use of that term, invokes within the listener, a presumption of protection against infection, and protection against transmission, neither of which have been established at all? Why would they use the term vaccine?

And here's where we have to depart from the facts. And we have to go into conjecture because that's the only thing we have available to us. As recently as 2018, Moderna was insisting that they were not making vaccinations, they were insisting that this is gene therapy technology, and it was cutting edge and it was all this kind of nonsense. And suddenly, courtesy of SARS-CoV-2, it suddenly became a vaccine company. It wasn't a vaccine company before. It's not a vaccine company now, **it's a gene therapy technology company with an unproven gene therapy.** That's what it is.

So when asked to ask the question, okay, so why, why do we keep hearing about

vaccines? Ah, well, here's the reason I think we keep hearing about vaccines. And once again, my opinion here, people, this is not based on information that I have readily available, but it is my opinion. I think that if Anthony Fauci if Moderna and Pfizer, and others, public health authorities around the country and around the world, actually called this gene therapy chemotherapy, number one, people wouldn't want to take it. And they wouldn't want to take it for a good reason. Because experimental gene therapy is a bad idea, no matter who it is, no matter what it is, no matter where it is. Experimental gene therapy should not be relentlessly and recklessly distributed to a population, that shouldn't happen. So that's number one.

But number two is the 1986 liability exclusion. And this is what I think it really is. See, as long as Mr. Alex M. Azhar, the director or the Secretary of Department of Health and Human Services, as long as Alex Azhar keeps the state of emergency going, as long as every governor and every mayor and every unelected official keeps the state of emergency going under emergency use authorization rules, liability is a shield that's afforded to people like Pfizer and Moderna and others. So they're making billions of dollars on the back of something for which they have no liability. But, if this was not a vaccine, then all a sudden the liability shield would vanish, because there is not a liability shield under the 1986 Act for a medical countermeasure that is gene therapy.

Which means we're probably having governors, and the Health and Human Services and CDC and others, maintaining the illusion of a state of emergency not because there's a state of emergency. They're maintaining it, because it maintains the illusion of the liability shield. Remember that if you suspended the state of emergency today, like, I don't know, if you're the governor of South Dakota, and you ever have anybody who remotely cares about this matter, listening to this video, lift the state of emergency because on the day you do it, RT PCR can't be used. Because RT PCR is not a diagnostic, it has never been approved, and it does not and cannot diagnose and treat a disease, which means every time Bloomberg, Gates Foundation and Zuckerberg foundation COVID-19 dashboard reports that there is a another case of COVID-19 because of a positive RT PCR test, they are violating the 15 US code Federal Trade Commission Act. You cannot diagnose a thing that cannot diagnose the thing. That's a misrepresentation. That is a deceptive practice under the Federal Trade Commission Act. And they're liable for deceptive practices. Because it turns out, you do not have a waiver of liability under deceptive practices, even in a state of emergency.

So maybe the reason why they're calling it a vaccine is because they can count on the fact that neither you nor I will ever have this video, you and I will never do this independent inquiry you and I will never ask the question, is it possible that the entirety of what operation warp speed was, was nothing but propaganda? Which leads me to my conclusion.

Some of you know this, some of you don't. But operation warp speed has a middleman. And the middleman is a company called ATI, a defense contractor out of North Carolina. And it turns out that that defense contractor is the one that clears the billions of dollars of orders for vaccines. And that defense contractor is the one that then is supposed to be controlling the

rollout of the vaccines, which has been a total train wreck, even setting aside all of the ethical, legal moral obligations of the things that we just talked about. But ATI also has another contract, also with the Department of Defense, and other government agencies, and that contract is for propaganda and misinformation.

"Hold on a minute! You mean that the company that actually got the contract to officially manipulate public media to officially convey the propaganda of the United States government, you mean that company is also the company in charge of operation warp speed, Dave? Is that what you're saying?" And the answer is, you got it! That's exactly what I'm saying. This thing does not stink like rotten fish because I'm making up some sort of stench. It stinks like rotten fish because it is rotten fish. That's why it smells of rotten fish.

So listen, this is a pretty straightforward situation. You're being lied to. Your own government is violating its own laws. 15 US code is not my interpretation. They have thrown this book at more people than I can count. They have shut down practitioners around the country, time and time again for violating what are called deceptive practices and medical claims. Guess what? They're doing exactly that thing. Right now.

You need to send this video to your US Attorney in your state. You need to send this to your attorney general in your state. You need to actually do something with this video. Don't just share it among your friends don't preach to the converted. This is a violation of federal statutes perpetrated by defense contractors by gene therapy companies, not vaccine manufacturers, by gene therapy companies who are doing experimental trials and doing them under deceptive medical practices. That's what this is.

And by the way, every statement that I have made before I went to my opinion, and my opinion is pretty grounded, because if you really examine why I think that the liability shield is the point, look at how many times the Department of Defense wanted to confirm that they were shielded under the immunity act of the emergency use authorization. They would not play this game if they didn't get the liability shield. And that liability shield came from the emergency use authorization.

So we're very, very, very desperately in need right now as a civilization to make sure we interrupt this. And the reason is because real people are being harmed. Real people are actually having significant side effects. Some people may in fact be dying. The doctor in Florida, who two weeks after receiving the vaccine, dropped over dead, very healthy guy, a couple days after he got the vaccine started having splotches and blotches and everything else, and then at the end of two weeks died, his death is being investigated, are you ready for this? By the CDC and by Pfizer! That's like asking a bank robber to investigate their own bank heist. It is beyond insane people. And it's time for each one of you not to just like this, not to just share this, but send it to law enforcement in your state, because somebody somewhere out there in these 50 states is going to actually care about following the law. Somebody is, or this is not America. It's on you. Do something with this. I'm doing the work. You can help me carry the burden. So make sure you share this and

we'll see you again next week. Thanks very much.

CDC Says Only 6% of Covid Patients Died from CV19 Alone

That means 94% of so-called Covid 19 deaths is a mainstream media lie!

I got the following text from a video on Twitter. It's very similar in content to the Bitchute video.

The Centers for Disease Control have updated their death counts for Coronavirus and reveal yet again that **COVID-19 is rarely the actual cause of death** among Coronavirus patients.

According to the CDC themselves, of the 220 thousand deaths attributed to the Coronavirus, 87,000 of them died from pneumonia and influenza. Another 17,000 died from chronic respiratory diseases, and 26,000 died from respiratory distress syndrome, 44,000 patients died from hypertensive diseases, 23,000 died from heart disease, and a whopping 28,000 died from cardiac arrest and heart failure. Yet all of these, even patients who died from heart attacks, were marked down as dying from the Coronavirus. Doctors who spoke with one American News explained that 131,000 patients who are being considered COVID-19 deaths already had life-ending diseases, including cancer, dementia, and even end-stage renal failure. And, according to the CDC again, if you look at the place of death, you'll see that some 10,000 patients who died from Covid were on hospice care, meaning they were terminally ill to begin with and we're already expected to die.

Doctors tell one American news that all of these patients were critically ill and likely died from their pre-existing conditions without any help from the Coronavirus. However, they explained that the Cares Act passed by Congress in March gives hospitals a 20% bonus on their Diagnosis Related Group paid for by Medicare. Essentially that means doctors are being paid to list deaths as Coronavirus without any indication the patient's death was actually Covid

related.

The CDC backs these numbers up by explaining that Coronavirus itself is responsible for just 6 percent of all deaths listed as Coronavirus related. The other 94% of deaths are due to pre-existing comorbidities, including serious illnesses and advanced age. However, despite this report being officially published by the CDC, so far the mainstream media have completely ignored it and instead continue to hype a pandemic that seems less dangerous every day.

[Dr. James Lyons-Weiler | Coronavirus Vaccine Safety Warning PA Medical Freedom Press Conference in Text Format](#)

The National Vaccine Injury Compensation Program itself is corrupt. The HHS determines which vaccine injuries are real.

[Dr. Simone Gold – The Truth about the CV19 vaccine](#)

Dr. Simone Gold is the Los Angeles-based doctor who is leading a group called "America's Frontline Doctors" that held a press conference on COVID-19 on July 27, sparking a controversial viral video that was removed from multiple social media platforms except for Bitchute which does not censor views just because they oppose the mainstream narrative. That video is at the very end of the text of this article.

The video directly below is Dr. Simone Gold's talk to a group of doctors who all agree with her. It's still hosted on YouTube but will probably be deleted any second which is why I am showing the same video which is hosted on Bitchute. It may take time to load. While it does, you can read the text I transcribed from it.

Thank you so much for inviting me. I come to you tonight with a lot of information about the experimental vaccines, what's called the experimental vaccines, regarding Covid-19. I think all of this information will be brand new to you. I know that this was all brand new to me over the last few months, even as a board-certified emergency physician I did not know a lot of what I'm about to share with you.

And I come before you on behalf of America's Frontline Doctors which is a volunteer physician organization that we started specifically **to combat the serious and life-threatening disinformation campaign that has really taken over America and really the entire globe.** It's very very scary stuff.

I've been a doctor for a long time. Before me my father is a doctor. I've never seen anything like this where we have **groups of physicians or scientists and government bureaucrat agencies essentially lying to the American people** and people across the world. I have many many examples. One brief example I'll give you is that the national institute of health right now has as its policy recommendation for patients with Covid-19 stating that unless you're in the hospital requiring oxygen there's no actual treatment available for you. **That is a complete falsehood,** completely false. In most of the world non-first world countries there's plenty of treatment easily available, Hydroxychloroquine, Ivermectin here in America. if you can find a doctor to prescribe it you get those medicines, or Budestinide. There's many options. And you know, this disinformation is why we came public.

When we started to speak out around July a little bit sooner but we got a lot

of attention starting in July. we were promptly as the pastor said de-platformed. And it doesn't bother me so much, I know the information, it bothers me tremendously on behalf of all of humanity, right? This is a crime against humanity. There's a physician in the Netherlands who's bringing a lawsuit in the Hague calling it that, calling it a crime against humanity. There is a lot of information you haven't heard. There was a Senate testimony about a month ago. A bunch of doctors went and testified. It was I believe, senator Johnson is the chairman you, can find it on our website America's frontlinedoctors.com. But the doctors testified that the vast majority of deaths in America would have not ever happened, not ever happened. I start with that because you must understand the magnitude of the lie to understand what they're trying to tell you about these experimental vaccines. So we need to just kind of go through that for a little bit.

I know some of you heard this first sentence which I said this morning, but the disinformation was apparent since the beginning, right? We call this illness Covid-19, but its real name should be after the location from where it arose which is Wuhan China. And if you remember it was called the Wuhan virus for a while, a month or so before we discovered the Chinese Communist Party didn't like that name. They set about putting a lot of pressure on media and other politicians let's say to change it. And they started calling it the coronavirus. They called it the coronavirus because it is actually a coronavirus. But that became very confusing to doctors and scientists because there are seven coronaviruses, this is just number seven. So we used to use the word coronavirus sometimes on our charts when we meant a common cold. A person would come into the ER in my case and they just had a common cold and I would sometimes write coronavirus on the chart as the diagnosis. So it was pretty confusing for doctors and scientists to call it the coronavirus, so they had to change the name again and it became known by its acronym coronavirus disease 2019 Covid-19.

I have to start there because it was never a racist or or weird thing to call it the Wuhan virus, right? There's so many diseases that are named after the location from which they rise. There's Zika and Ebola, there's Middle East respiratory syndrome, Rocky Mounted spotted fever, Lyme disease, I mean the list is endless, German measles, Spanish flu, this list is endless. So you need to understand that deception was there from the very beginning. So that was the first big lie.

The next big popular well-known lie was **the maligning of this common ordinary cheap safe medication called hydroxychloroquine**. Those of you who have traveled abroad who have taken mission trips for example or anybody in the military are quite familiar with this drug. Doctors would just give it out like candy. I know that I was going to take a holiday to Africa about 20 years ago and I was a medical student at the time and they just handed me the pills, here you go, I never asked any questions. It was a big fat nothing burger taking hydroxychloroquine. All of a sudden we started hearing doctors, even as doctors, that hydroxychloroquine is unsafe. You can't understand what's going on with the lies until you understand what an enormous lie this is! Hydroxychloroquine is over the counter in much of the world. It's taken in many African nations. They call it Sunday Sunday medicine because you take

it every Sunday. That's like its name Sunday Sunday. People keep it in their pocket the way Americans might keep Tylenol in their purses. It's absolutely ordinary stuff. It was over the counter really in any country which had malaria or any country that had citizens that would visit malaria countries on holiday it was over the counter. For example, it's over the counter in France. The only reason it wasn't over the counter in America is there just wasn't a consumer demand.

In America, we use hydroxychloroquine for two main reasons, lupus, and rheumatoid arthritis, and also for malaria for people going on holiday but generally, it's lupus and rheumatoid arthritis. And for those illnesses patients regularly see physicians so they can get a prescription for it. That's why it was never over the counter here, not because it was unsafe. It's been FDA approved for 65 years. We give it to babies, we give it to children, we give it to pregnant women, we give it to nursing mothers, we give it to the elderly, and we give it to the immune-compromised. Those last two categories take this medication for decades. There's never a pretense that it's not safe. That's the drug that you've been hearing about for nine months now ten months telling you it's unsafe! It's **an incredible lie of incredible proportions!** Once you understand that you will be suspicious of everything that follows.

So that's where I found myself. There I was in the emergency department treating patients as they came in with Covid-19, and once we had the rapid test so I can confirm the diagnosis, my first patient who I needed to give hydroxychloroquine and zinc, I did it and even knowing the kind of the controversy I really didn't think twice about it. It was fine. I gave it to her, I actually called her the next day. She was so much better. She herself got better within about 12 hours. In about 48 hours she was essentially completely well. This completely matched what I had read in the scientific literature. I knew many doctors have done this. I've read many journals. It was completely consistent. What was really shocking and completely inconsistent was my medical director who calls me the next day and threatens to fire me for doing this, this treatment! I can't even tell you even as I describe this moment to you, it's shocking to me. I remember the case, the situation, the conversation, and he's saying he's going to fire me. And I said, "why would you fire me over this?" "Well, I don't think it works." I said, "well then. Don't prescribe it! You haven't read the science the way I have. I know it works you'll change your mind in a couple of months when you get a little wiser, but why would you get involved with me treating a patient? You do your thing I do my thing that's how medicine is practiced." we are licensed as individuals.

It's actually against the law to have what's called a corporate practice of medicine. It has to be the individual doctor's position. That's why patients go to multiple doctors, right? (Applause) and really the almost the worst part of the conversation was not even that he was ignorant that the drug worked but his reasons for saying that he was going to fire me if I did this and the reason which he put in writing because he wasn't so smart he said it was because the biggest payer at that hospital which is a large insurance company that everyone here has heard of that's back on the West Coast mainly,

didn't want us to prescribe it, they were blocking it. So that payer insurance company was pressuring the hospital that their doctor shouldn't do it. It had nothing to do with even if he thought it was good or bad for the patient, **it all had to do with money and payment**. Honestly, I still can't believe I'm relating this story! It was really unbelievable. So he said I could never do that again. I said well good luck with that. So it kept happening. It happened about four or five times. And I kind of knew that my days at that particular hospital were really we're going to be numbered, right? I mean, how long is this going to last?

So I started looking online for other physicians like myself. I knew I couldn't be the only one. And I found the most amazing group of doctors really just brilliant intelligent compassionate kind, and we got together and we called ourselves the America's Frontline Doctors. And what I felt needed to happen was we needed to break this disinformation cycle to which the Americans were all being subjected to, and people across the world as well. So I set up to do something called the White Coat Summit which was an entire day of education. We brought doctors and we brought social media influencers, young people know them as YouTubers. So we brought a whole bunch of YouTubers and a whole bunch of doctors we brought to Washington. We did seven hours of education and we laid out all the facts, very dispassionate, here are the facts on hydroxychloroquine, here are the facts on lockdowns, here are the facts on masks, here's the facts on schools and kids transmission, here's the facts for the elderly, here's the facts on other treatments other than hydroxychloroquine. And we did that. In the middle of that day, we took a break and we walked over to the supreme court and that was the video that got 20 million views. It gets 20 million views not because I can sing like Beyonce but because human beings recognize truth, we have something inside of us. (Applause) I really emphasize that point because you can't get to 20 million views nobody plans such a thing it's only if people say "oh my gosh you got to listen to this you got to listen to this." you recognize the truth, you recognize the truth. So I guess after a while big tech caught up with the fact that this was like breaking the internet. And so within an hour all of the platforms censored us simultaneously. So it's essentially a monopoly. We're talking about Youtube, Instagram, LinkedIn, Facebook, Twitter, all went down immediately. (Webmaster: It's on Bitchute!) The President had retweeted us, the President's son had retweeted us.

And from that moment on everything really kind of changed. **I did get fired from both of my hospitals**. It is a scary experience to get fired especially when you've worked as long as I have to be a board-certified emergency physician, and that's what I do. I'm a mom, I have kids it's not a comfortable feeling to be fired. You don't know what the future holds. On the other side of this which is now several months, it's really been a blessing, because we doctors have been able to come forward and speak freely and help other doctors who've been put in this situation. There are several of my peers, several doctors in the Americas Frontline Doctors group that have faced tremendous personal pushback. There's a fellow right now in Oregon who refused to force the mask. He won't wear it and he won't force his staff to wear it. If you want to wear it. He was public about it. So the state of Oregon actually yanked his medical license. And when I when he first told me

this, I thought this can't be possible because you may not know but I'm also an attorney and it was impossible to conceive of an event like that happening without due process. I mean the whole thing about law if anybody's been involved in the law at all it's all about process. You've got to go through the process. You can't just pull someone's license. You have to have hearings and phone calls and papers filed and all that. I really just thought oh he missed his deadlines, but it was true. They actually just summarily pulled his license. It's unbelievable.

This is 12 minutes and 26 seconds of the 56-minute video. I hope this text inspires you to want to listen to the rest.

Also, see the famous video of the doctors before the Supreme Court!

Doctors Around the World Issue Dire WARNING: DO NOT GET THE COVID VACCINE!! – With Text

I'm a medical doctor and board-certified forensic psychiatrist. This pandemic is not a real medical pandemic. The COVID-19 vaccine is not proven safe or effective because there has not been enough time. In addition, there is not a clear definition of any new disease for which it can be tested against. There has not been a virus that has been purified or shown to be the cause of an illness.

Misapplication of the Precautionary Principle has Misplaced the Burden of Proof of Vaccine Safety

The abstract statement below is from a PDF file you can [download](#) It was written by Roslyn Judith (Judy) Wilyman, an Australian anti-vaccination activist who came to prominence following the award of a humanities PhD titled “A critical analysis of the Australian government’s rationale for its vaccination policy”.

Macfarlane Burnet, (3 September 1899 – 31 August 1985), was an Australian virologist best known for his contributions to immunology.

The “precautionary principle” is a broad epistemological, philosophical and legal approach to innovations with potential for causing harm when extensive scientific knowledge on the matter is lacking. It emphasizes caution, pausing and review before leaping into new innovations that may prove disastrous. (Definition from Wikipedia.)

I added emphasis in **bold** and *italics*.

Judy Wilyman

Abstract

Vaccination is a medical intervention that comes with a **risk** for some people. In the expression of infectious diseases, it is known that **the pathogen alone does not cause disease**: it is a *combination* of the pathogen, environment, and genetic factors that determines expression and severity of the disease in individuals. In 1960 Macfarlane Burnet, Nobel Prize laureate for immunology, stated that genetics, nutrition, psychological and environmental factors may play a more important role in resistance to disease than the assumed benefits of artificial immunity induced by vaccination. He considered that genetic deterioration of the population may be a consequence of universal mass vaccination and he postulated that in **the long-term vaccination may be against the best interests of the state**. The current belief that much of the burden of infectious diseases can be alleviated if every child, in every geographical location, has access to multiple vaccines, does not consider the influence of genetics and environment on the health of populations. The historical record shows that deaths and illnesses to infectious diseases fell due to public health reforms – and prior to the introduction of most vaccines. Since 1990 there has been a 5-fold increase in chronic illness in children in developed countries and an exponential increase in autism that correlates directly with the expansion of government vaccination programs. Many individuals are genetically predisposed to the chronic illnesses that are increasing in the population and since 1995 governments have not used mortality or morbidity to assess outcomes of vaccination programs. Human health can be protected in government policies if the precautionary principle is used in the correct format that puts the onus of proof of harmlessness on the government and pharmaceutical industry, and not the general public. This has not been done in current vaccination programs and **we cannot rule out the possibility that the increased use of vaccines is destroying the genetic fabric of society** as MacFarlane Burnet postulated.

The COVID-19 Genocide of 2020 – By Robert F. Kennedy Jr.

This is perhaps the most shocking and clearest warning about the New World Order – AKA the Shadow Global Government’s plan to take over the world at our expense through actual GENOCIDE! I urge you to either listen to the video or read the text. This time I didn’t have to transcribe the text. I got it from a PDF file you can download: [The-COVID-19-Genocide-2020](#) It was written by the son of RFK who is very much alive and well!

I found the video on Bitchute.

Each time a person stands up for an idea, or acts to improve the lot of others, or strikes out against injustice, s/he sends forth a tiny ripple of hope, and crossing each other from a million different centers of energy and daring, those ripples build a current that can sweep down the mightiest walls of oppression and resistance. – Robert F. Kennedy Sr.

“COVID-19” was long pre-planned in documents and simulation exercises emanating from the eugenicist Bill Gates and the Rockefeller Foundation. A platform with 200 detailed levels is provided by the World Economic Forum led by Klaus Schwab, a technocrat and promoter of transhumanism, in order to provide detailed instructions on how the “COVID-19” pandemic is to be used to implement a global monetary reset and digital currency, technocracy and totalitarian government worldwide under the guise of socialism and environmentalism, with China as the model, and enslave humanity through a sinister vaccine conspiracy.

Earlier attempts were made to engineer pandemics but none succeeded. This time, the World Health Organization changed its pandemic criteria in advance so that it could declare a pandemic on spurious grounds.² Tedros Adhanom Ghebreyesus, a terrorist and accused genocidist was appointed head of the

World Health Organization in order to orchestrate the pandemic and facilitate the totalitarian takeover.^{3,4}

Wireless technology suppresses the immune system. 5G is implicated in COVID-19 through correlations between the locations of the 5G rollout and morbidity/mortality,^{5,6} as well as the prior administration of flu vaccinations in Wuhan ⁷ and Milan. ⁸ The symptoms of “COVID” are virtually identical to the symptoms of exposure to electromagnetic radiation (EMR).⁹ Extensive military research over many decades was kept secret and regulatory agencies were co-opted in order to prevent the public learning about the extreme dangers of electromagnetic radiation.¹⁰ Doctors receive no training on the risks to health of exposure to EMR and therefore misdiagnose EMR symptoms. Hospitals are extensively equipped with 5G, putting patients lives at risk.

5G serves many purposes. It is a depopulation and military weapon and facilitates the introduction of technocracy and totalitarian control by enabling surveillance, facial recognition, 24/7 monitoring of individuals, mind and body control, and – in combination with vaccines and chemtrails containing nanoparticles – the torture or murder of targeted individuals.¹¹ EMR can be used to simulate pathogens and overwhelm the immune system¹² and cell phones may be being used to simulate “COVID-19 contagion” among co-workers or family members. 5G has been widely installed terrestrially and in space to target and control populations.

The illegal coronavirus measures were used by governments to accelerate the 5G rollout and install 60 GHz public access points in schools in order to target children.¹³ Illegal legislation has been put in place in numerous countries:¹⁴

- * To remove civil liberties
- * To destroy economies
- * To close down small and medium-sized businesses¹⁵
- * To separate, isolate and terrorize family members
- * To impoverish people, including by destroying jobs
- * To remove children from their families
- * To intern dissenters in concentration camps
- * To grant immunity to government operatives to commit murder, rape and torture (UK)¹⁶
- * To use the police, army and mercenaries to control populations
- * To force-vaccinate populations with a non-medical vaccine containing population control mechanisms without their informed consent.¹⁷

There is and was no pandemic since “the curve” was flattening before the lockdown measures were put in place. Mortality is at a lower level than in previous years. ¹⁸ The PCR test, which was never designed as a diagnostic test and gives up to 94% false positive results, is used by the oligarch- and government-controlled mainstream and social media platforms to terrorize populations for the purpose of obtaining obedience. The illusion of a pandemic is stoked by doctors being forced to attribute virtually every death to “COVID”. Medical staff and doctors are intimidated to prevent them speaking the truth about the fake pandemic. In the UK, the death certificate

is being changed to prevent relatives being able to question the cause of death.¹⁹

Tens of thousands of doctors have now come out to confirm that “COVID-19” is a hoax. ²⁰ , ²¹ There were no “COVID” deaths in Ireland until 20 April and since then, the lockdowns have been based on 98 deaths out of 5 million people, while 30 thousand die annually from other diseases. Only people with a “hot” infection, with symptoms such as headaches or a sore throat, are contagious – 86% of “COVID” “cases” are asymptomatic carriers and therefore harmless.²²

A Stanford University antibody study concluded the death rate to be between 0.1 to 0.2%, right in line with the seasonal flu. Initial projected death rates from the World Health Organization “were 20 to 30 times higher.”²³ In June, the US Centers for Disease Control confirmed the overall infection fatality rate (IFR) to be just 0.26%, way lower than the 3.4% estimate of WHO, which helped drive the panic and the lockdowns.²⁴ But even that is an overestimate: the infection fatality rate for non-nursing home residents is likely only 0.1% or 1 in 1,000.

The UK and German governments stated in documents that they were deliberately ramping up the fear level, including traumatizing children by making them believe that they would torture and kill their relatives if they failed to wash their hands and obey the corona measures. Children were made to believe that they could show their love for their grandparents by not coming near them. Social distancing is a torture technique devised to traumatize²⁵ and its purpose is to condition people to distance themselves from others so that they can be seen and targeted by the 5G weapon.

Government and WHO policies are deliberately aimed at killing people. In many countries, doctors were ordered not to admit the elderly to intensive care units and to withdraw all health care, and national health systems stopped providing health care other than that for “COVID”, abandoning the sick to die. In France, the government issued a decree ordering doctors to administer to the elderly a drug restricted since 2012 as it was contra-indicated for respiratory problems.²⁶ In the US, hospitals were heavily bribed to diagnose “COVID” and put patients on ventilators that killed them. WHO and governments suppressed successful treatments, one in particular in use for 70 years, and harassed doctors successfully saving patients. Autopsies that would reveal true cause of death were mostly prevented. Forensic Pathologist Professor Klaus Püschel declared having not seen a single case of “COVID-19” in autopsy that did not include other serious pre-existing diseases.²⁷

Governments and WHO promoted and enforced mask-wearing by the public in full knowledge that they provide no protection from any virus, ²⁸ but cause serious neurological and respiratory damage, putting people’s lives and health at risk.²⁹

In the UK, the death rate rose only after the general lockdown was implemented. ³⁰ Top economists are warning that the UK government is “killing more people than it could possibly save” through lockdowns.³¹ The UK Daily Mail carried out an audit of 130 studies from journals, academics and

charities, documenting the social and health devastation and deaths caused by lockdowns.³² In one county in the US, suicides among young people rose 100%.³³ A million New Yorkers can no longer afford food.³⁴ Britain's WHO envoy has said that world poverty will double by 2021 as a result of lockdowns.³⁵

The "COVID" vaccine

Bill Gates wants to reduce the world population.³⁶ He introduced his vaccine containing the electronic nanochip "marker" intended to "mark" and control 7 billion humans at the ID2020 Conference in 2019. ID2020 is intended to provide a unique digital identity for all humans by 2030 that closely interlocks this digital identity with access to commerce and secure access systems.³⁷ This is the electronic enslavement of humanity.

The subcutaneous chip will be able to:

- * Influence the behaviour of the chip-bearer (manipulate and control crowds)
- * Eliminate categories of people (reduce the world population)
- * Ensure vaccine compliance³⁸
- * Permanently locate the bearer (exit civil liberties)
- * Integrate 7 billion people into the cloud and operate with an all-digital system that is the equivalent of a credit on a company store.³⁹

Nanochips and liquid crystals in vaccines can influence human behaviour, without concern for political ethics.⁴⁰ And the upcoming vaccine is intended to genetically modify humanity for all future generations,⁴¹ in effect deleting humanity altogether as humans become transhumans or robots.⁴²

South Korea has just had 9 flu shot deaths and 432 adverse reactions, while 5 million doses of vaccine were not refrigerated.⁴³ One volunteer in AstraZeneca's new "COVID" vaccine has just died⁴⁴ and two of the trials have been halted because participants became sick.⁴⁵ These "COVID" vaccines are not following normal trial procedures and are being rushed out in case the pandemic hoax peters out too soon to convince people to take the vaccine. Governments are giving the pharmaceutical companies full immunity from injury lawsuits.

Increasing numbers of people are saying that they will refuse the COVID-19 vaccine, with about half the US and UK populations saying so.⁴⁶ And yet certain governments are planning to force vaccinations on populations using the army⁴⁷ while others are planning to ban vaccine refuseniks from work, school or travel.⁴⁸

Humanity is in extreme and imminent danger

Some good people are launching legal cases to stop this war on humanity, among them the Italian Catholic Association,⁴⁹ Simon Dolan and the Bernician in the UK. Children's Health Defense and the Environmental Health Trust are bringing cases against the Federal Communications Commission for its refusal to review its outdated thermal exposure guidelines on electromagnetic radiation.⁵⁰ Common law movements are under way in several countries.

But all of this is too slow. The perpetrators of the COVID scam are still

imposing lockdowns and destroying lives, businesses and families. The entity behind all of this, the World Economic Forum, told us in 2017 about the world they want to see by 2030:51

- * You'll own nothing—you'll be renting everything
- * The U.S. won't be the world's leading superpower—because everything will be under totalitarian, technocratic control and there will be no nation states
- * You'll eat much less meat—you won't be allowed to
- * A billion people will be displaced by [fake] climate change— countries will have to welcome more refugees
- * Polluters will have to pay to emit carbon dioxide—"polluters" will include farmers trying to grow food crops52
- * Western values will have been tested to the breaking point— your culture will be eliminated and replaced with Maoist technocratic slogans.53

They are engineering food shortages in numerous different ways.54 They are building concentration camps for dissenters.55 They want to impose a forced vaccine full of nanochips for immunity passports and cryptocurrency, and nanoparticles so they can track, surveil and control us, including our minds. This vaccine is intended to genetically modify humanity for all future generations. In the US, Soros and 269 major corporations are funding Black Lives Matter and destroying America with the complicity of corrupt Democrat politicians.56 They want civil war everywhere. In Austria, France, Switzerland, the US and other countries, many people are armed and trained to fight. We cannot give them what they want. We must stop this agenda in its tracks, take power ourselves and arrest the perpetrators.

Conclusion

Governments are corporations obeying orders from the World Economic Forum and are no longer serving their peoples. They are acting in contravention of international and national laws and no longer have any legitimacy. We are witnessing the collapse of the rule of law. Governments, elected representatives and international institutions, including the UN, and private clubs such as the International Commission on Non-Ionising Radiation Protection, and the World Economic Forum are complicit in this "greatest crime against humanity ever committed". 57 Only the sovereign peoples of this world have legitimacy under these circumstances.

The perpetrators, including Klaus Schwab, Prince Charles, Bill and Melinda Gates, George Soros, UN Secretary-General Antonio Guterres, and WHO's Tedros Adhanom Ghebreyesus and Michael Ryan, the New Zealand Prime Minister Jacinda Ardern, UK Prime Minister Boris Johnson and UK Health Minister Matt Hancock, French President Emmanuel Macron and Prime Minister Edouard Philippe, German Chancellor Angela Merkel, Austrian Chancellor Sebastian Kurz, Elon Musk, Mark Zuckerberg, mainstream journalists and others must be seized and brought to justice in new Nuremberg trials.

Politicians, journalists peddling fake news for the mainstream media, and others may be granted immunity if they change sides now, join the people before it is too late, and become whistleblowers.

We call upon the human population to shun these genocidal monsters in hotels, in restaurants, in taxis, wherever you come across them. Turn your back on them and show them the contempt they deserve for their psychopathic behaviour and genocidal intent.

We call upon the armies and the national police^{58,59} to stand with the people against the conspirators, who aim to expropriate you, too, and take your children, too, and genocide as many of us as they find convenient. Police and armies will be replaced by machines in the New World Order. You, too, belong with the people and we ask you to stand with us in defending our humanity, our health, our families, our children, indigenous peoples and all of the natural life on Earth that sustains and protects us.

55 Mandatory "quarantine camps" were just rolled out in New Zealand, a globalist testing ground for the mass extermination of humanity. 17 August 2020. Available at <https://www.clearnewswire.com/449677.html>. Ardern explains that if you refuse to be tested, you will be indefinitely imprisoned and never allowed to leave the quarantine camp: We are quarantining everyone. Now we are also mandating testing. That makes us the most stringent in the world. There are countries that are requiring self-isolation; we're taking it a bit further. If anyone moves into a common area or is getting some fresh air, which is all monitored no one can do that on their own. They can only leave or be in a space to get a little bit of fresh air if they are supervised, because of course it's a quarantine facility.

Will the Covid-19 Moderna Vaccine Create Transhumanism?

Dr. Carrie Madej, DO is an Internal Medicine Specialist in McDonough, GA and has over 19 years of experience in the medical field. She graduated from Kansas City Univ Of Medicine Bioscience College Of Osteopathic Medicine medical school in 2001. She is affiliated with Southern Regional Medical Center. (Reference:

<https://www.healthgrades.com/physician/dr-carrie-madej-y7thx>)

This article is all about the dangers of a new experimental vaccine for COVID-19 from a company called Moderna. Even if Youtube bans this video, the text will remain! And if the video is banned, if you tell me about it, I'll post it directly on my own server.

So what do you think about going from Human 1.0 to Human 2.0? And what does that mean? Well, going from humans as we now know ourselves to human 2.0 has something to do with transhumanism. If you're not familiar with that term, it's about taking humans as we know ourselves and melding with artificial intelligence. It's kind of like being in the matrix if you've ever seen that movie. And that may seem kind of cool to you. We might have some superhuman abilities, maybe be able to think of something and it happens, maybe have some physical abilities that would be almost super human-like. That's the idea, that's what you see in sci-fi movies.

And for myself, thinking about this topic I'm like, well I have some time I

think that's many years in the future. However, this question, this idea is now right at this moment. We need to make a decision. And I found out that we need to make a decision about this because I investigated the proposed COVID-19 vaccine. And this is my alarm call to the world.

I looked at the pros and cons and it frightens me. And I want you to know about this. You need to be very well informed because this new vaccine is not like your normal flu vaccine. This is something very different. This is something brand new. This is something completely experimental on the human race. And it's not just about being a different vaccine there are technologies that are being introduced with this vaccine that can change the way we live, who we are, and what we are, and very quickly.

I think that you know some people that you might know these names Elon Musk who is the founder of SpaceX and Tesla automotive, as well as Ray Kurzweil who is one of the bigwigs of Google. These are self-proclaimed transhumanists. They believe that we should go to Human 2.0 and they are very big proponents of this. There's a lot of other people that you might know their names, they're also involved with this so you should look that up.

I think the easiest way to explain this to you is to go with one of the front runners for the vaccine and go into a little bit of the history and tell you how they want to make the vaccine, and I think that will speak volumes. So for instance Moderna is one of the front runners for the COVID-19 vaccine. You should know that Moderna was founded by a person from Harvard, Derrek Rossi, and this researcher actually was successful in taking some modified RNA and being able to reprogram a stem cell in the body and change the function of the stem cell. He actually made it genetically modified, okay? So you can – he proved – that you can genetically modify something by using modified RNA. So they founded the company Moderna on this concept. It's kind of a new kid on the block, okay, it's not been around that long. In fact, it hasn't even made any vaccine for a human before. It's made no medicine for a human before. This will be their first run.

You must know that Moderna was in the news recently because it really fast-tracked, it's like the other companies, it's fast-tracking the vaccine. It's going from phase one to phase two very very quickly. In fact, it's gone from phase one to phase three and its experiments from March of this year until currently. I mean that is unbelievable! It usually takes five or six years! How are they able to do this with the safety and efficacy data that we need?

And I want you to know that in phase 2 we only use between, they're only using between 30 and 45 humans. In Moderna's test study they only used 45 humans. And with the high dose vaccine group, they got 100 percent of those people got systemic side effects, 100! That's only in the short side effect profile. In the low dose vaccine, 80 percent got systemic side effects. Now we don't even know the long-term side effects from that. We would need a lot longer time, right? Maybe years. But we do know based on previous animal studies of using this technology that you can expect possibly increased cancer rates, increase mutant genes, mutagenesis, also increased autoimmune reactions. For instance, in some of the ferret studies they saw that when the ferret was introduced to the virus that they were trying to protect the

ferret from after the ferret got the vaccine they actually had an exaggerated immune response, it actually hurt the ferret. They had more lung inflammation, more lung fluid, even some problems with their liver. It actually hurt them. They had a poorer response.

Okay, so this those are longer-term reactions and that could be seen with this vaccine, but we don't know the data yet. So it's not without risk. And how are they doing this? Well, they're actually suggesting to use a platform, let me just explain how they would administer the vaccine. So the vaccine there's an idea called micro-needle platform, okay, this was developed by MIT, and they said it could be very easily produced, okay, and mass-produced. This is why they're proposing this technology, and many millions of vaccines could be made quickly. They could also be administered by yourself. So the idea is to get a band-aid, it looks like a band-aid that you buy in the drugstore, it's shipped to you through Amazon or UPS or some other shipping service. You take it out of the package, you put it on your hand like this, and then you take the sticker off, and voila you've been vaccinated.

So how is that possible? Well in this band-aid, it has little tiny spicules little tiny needles. And this was designed after a snake viper fang bite, okay, or snake viper bangs, little snake bites. Anyway, in these tiny little spicules, they claim you won't really feel it that much, there's their little Hydrogel, it's a material called Hydrogel. Inside the Hydrogel would be a Luciferase enzyme as well as the vaccine itself.

So what is all that? So first of all, you're getting the vaccine. It's modified RNA or modified DNA. Let's take Moderna, modified RNA. So in that modified RNA, the idea is that the micro-needles would puncture into your cell membrane, and this synthetic piece of an RNA, it's a code for the part of the virus, where they could use a synthetic DNA to code for the part of the virus would go into your nucleus. Your body would start transcribing it, would start reading it, and making more of that part of the virus. Well, why would we want to make more of the virus or part of the virus? The idea is your body would get used to seeing it, would know how to make antibodies, and would have an improved T-cell response. And the idea is then when you saw it in the future your body would already know how to fight it and it would be a better response, that's the idea.

The problem with that is they're using a process called transfection. And transfection is a way that we make genetically modified organisms. I think you know about those fruits and vegetables. They're not as healthy as the normal wild type fruit and vegetables. So possibly you could extrapolate that to a human. If we become genetically modified, we would not be as healthy. We don't have long-term studies on this anyway, this is unbelievable. And you know, the vaccine manufacturers have made the statement this will not alter our DNA, our genome. I say that is not true, because if we use this process to make a genetically modified organism, why would it not do the same thing to a human? I don't know why they're saying that.

Now if you look at the definition of transfection, it'll tell you that it can be a temporary change in the cell, and I think that's what the vaccine manufacturers are banking on, it's temporary. Or, it's a possibility for it

to become stable, to be taken up into the genome, and so stable that it will start replicating when the genome replicates meaning, it is now a permanent part of your genome. That's a chance that we're taking. So it could be temporary, or it could be permanent. And we would never know that for years down the road, honestly.

So, here we go, we've got something that can alter our genome. It's a possibility. And another thing on that, if they're altering the genome, what would be the effects? I told you previously some of the side effects, but also we need to know that this is a synthetic piece of DNA or RNA, and if it becomes taken up into the genome of a human, it's synthetic, it's not from nature. And if you look at the Supreme Court justice ruling on synthetic DNA or genes, it can be patented. And patents have owners.

So what does that mean for us? What if this gets into our genome? Does that mean Moderna or the Bill and Melinda Gates Foundation, or the Department of Defence, all of these people who are involved in the patents, are they somehow going to own part of our genome? It's a possibility. You need to know that.

So that's one part of this delivery system, just one. Now let me go to the next. The next part of the delivery system is a Luciferase enzyme. They named it, they patented it Luciferase. I don't like that name Luciferase, because it has bioluminescent qualities which means it can produce a light or has a light source. And all of this would be under your skin and you cannot see it. Now the Luciferase is an idea because they want to make sure that you're vaccinated. They don't trust medical records, they don't trust you saying that you got vaccinated, they want to make sure, they want to make sure it was successful, a successful transfection, a successful gene modification. So when you get the Luciferase enzyme if you have an iPhone or special app on the iPhone, you can scan over that area and it will give a digital code, a digital imprint, a digital pattern, something that will identify that you were vaccinated. It holds your vaccination record. It also gives you an ID, a number, a bar code, a branding, whatever you want to call it, a tattoo, it's all the same thing. You now become like a product.

So we have that. Now the third thing I mentioned was Hydrogel. So Hydrogel is actually an invention from DARPA, the Department of Advanced Research Projects Agency. This is kind of a sci-fi kind of a group from the Department of Defense, Pentagon, of the US government. They make these fantastic inventions. So one of them is Hydrogel.

Hydrogel, you can look on Youtube, look at PROFUSA, it is one of the companies, DARPA, as well as Hydrogel, and you'll find some little two-minute clips that they describe. So Hydrogel's nanotechnology: microscopic little robots, and these little robots, actually I know it sounds crazy, it's still crazy to me, but it's possible, they can disassemble, reassemble, assemble, into and make different things. So with this Hydrogel, it's really nano technology, so that's something you know robotic or something that's artificial intelligence, it has the ability to connect with artificial intelligence.

So this means that a human can now connect to directly and gather information from our bodies, and gather it and connect with your Smartphone, with the cloud, with some other smart device. And once this is done, this is 24 hours a day, seven days a week, 365 days a year. Think about that. think about how immediately that could change our privacy, immediately can change our autonomy, immediately change our freedoms. That can gather data like your blood sugar, your oxygen, your blood pressure, those sound great, but it also can gather many other things. It can gather they say your emotions, or your menstrual cycle, your activity, if you've fallen, your nutrients in your body, if you took medicines. It's a potential to see if you took illicit drugs, it's got a potential to see almost anything that goes on in your body. And all of this information is going where? That has not been addressed. Who's protecting this information? What are they using it for? This is really serious stuff, guys! This is all being proposed to being unveiled in the next vaccine.

The other thing to know is with this nanotechnology, Hydrogel, artificial intelligence, you know, hook up just like your cell phone. You can send a text message you can send an email but also you can receive them back. So that means we could receive information. What information would be coming back into us? Would it affect our mood? Our behavior? Would it affect how we think or our memories? If you haven't watched the movie Matrix, I think you should. I think there's some truth in that movie. I see so many wrong things with this vaccine. And I see that we are not talking about it in the major media. And I see that I feel that these companies are outright lying to us when they say they cannot affect our DNA, because by all definitions that they are using, this can affect our DNA.

So guys I wanted to make this video short because I wanted to get the point across. I wanted you to really do your own research. So know that there are many risks that we're seeing here and there is some we really need to know if we really want to go from human 1.0 to human 2.0.

And let me also tell you that there are some major names behind these vaccines. You're always going to see like the Department of Defense from the US government, sometimes DARPA like I told you. Why is the military involved with our vaccines? You see the Bill and Melinda Gates foundation everywhere with this. If you look you'll find that name almost always.

And let's go back to the Bill and Melinda Gates Foundation. I want you to look up, what, let's look at the track record, let's look at what that man stands for. His family comes from a family of eugenics. What does eugenics mean? Population control, meaning there are too many people on the planet. It's important to know. He's been on video stating that he thinks with a very good new vaccine we could get the earth's population to be decreased by 10 to 15 percent. Well, who's going to stay and who's going to go? And who is he to decide? He doesn't have a medical background, no epidemiology background, no science background. He's not a doctor. A software tech that's what he is.

I'd also like you to realize I always look at who has a vested interest. What are their motivations? What is his motivation? Right? We already know his family background. Well, what's great concerning to me is that DARPA, this

military agency, as well as the Bill and Melinda Gates Foundation, is very interested in something called gene drive research or technology, or gene extinction technology. And it's exactly what it sounds like. By using genetic mutations, by use of transfection, for instance, you can exterminate an entire species from the planet. They are proposing to use this for mosquitoes, for instance, in Africa. But guys, our world is a delicate ecosystem. Who is saying one species goes? You destroy one species, you could affect an entire ecosystem. So when you exterminate an entire species you will affect an entire ecosystem. It's a very delicate balance. And who is to say who's going to stay and who's going to go? Who's got that knowledge? Why aren't we talking about this? And guys, if we can do it to an insect, we can do it to an animal, we can do it to a human. I bring this up because if these agencies that are behind the vaccine also stand for that, do you trust them with your health? Do you trust them with your family? Do you trust them with our children?

The other thing is we're rushing this to production. What is the motivation behind that? We need to really think about this.

I've also stated in the past that we need to know that there are at least in the United States there are mandates passed that make the vaccine manufacturers have no liability, zero liability for any harm done to any human. If people are killed, if they're hurt, if they're paralyzed, if they're maimed for life, it doesn't matter. You have no recourse. And they still make all their profit. So there's no incentive for them to make it safe anyway.

I also want you to know that one of the mandates the emergency preparedness act that's that says they can force a vaccine on us. They cannot force a vaccine if there is a viable treatment for the COVID-19. And I want you to know that doctors around the world are being censored about treatment options for COVID-19 or prevention for COVID-19. Because if there's a true treatment or prevention then they can't force this vaccine on us. I want to bring that up because what in the world is the motivation of doing this? Is it really in the health of all of us? As a doctor, I can't see how this is in the true health of the entire world. I think there's another motive, another agenda going on. The more I look at this the more that comes up.

So I'll leave you with this. I want to make this short and sweet, sweet so that you can digest this and think about it. Do you really want to go to Human 2.0? I don't think it's the fantasy you see in the movies. We need to come together, and we need to unify our voices because people in positions of power taking care of our health are not in our best interests. But together we have power. Together united our voice is strong. So I encourage you to do critical thinking. Do your own research. Join groups in your State. Go to your state legislature and you tell them no, no to these experiments on humans, no to an invasion of privacy, no to censorship. We are sovereign human souls and we need to take our rights back.

Thank you for listening. And you know, I always say my videos with the greatest of love and the greatest of peace. Thank you.

[PLANdemic InDOCTORnation](#)

Plandemic video segment from Mikki Willis featuring Dr. Judy Mikovits that expose the truth about the fake Covid-19 pandemic.

[Bill Gates' Plan to Vaccinate the World](#)

Bill Gates is pushing everyone to get vaccinated for Covid so he can make more money. He owns much stock in pharmaceutical companies.

[Plandemic – Dr. Judy Mikovits Interview Exposing Corruption in the Academic Community](#)

This article is the text from a YouTube that is now banned. It was entitled,

Plandemic The Movie – What you're not being told about Dr. Fauci – Dr. Judy Mikovits, PhD Interview

I extracted the text with an on-line Youtube text extractor, downloaded the Youtube, and then proofread the text adding punctuation, formatting, paragraph breaks, capitalization, and correcting words and spelling. I'm sure it's not perfect but it's certainly more than good enough for you to understand clearly Dr. Mikovits' message. If you find any errors, I will be more than happy to correct them if you tell me about them. You can write in the comment section below the article.

The interviewer, Mikki Willis, is a former model and actor and filmmaker. Willis, a married father of two, has been a filmmaker for two decades and started his own production company in 2001. He has also been a parent-advocate and supporter of many charitable causes.

I found that Bitchute dot com is still hosting the Plandemic video. I figured out how to embed it in this web article. At the time of this post, it's still live. But even if the video is one day removed from Bitchute, as long I am not removed from this life, the text below the video will stay.

(Mikki Willis:) Dr. Judy Mikovits has been called one of the most accomplished scientists of her generation. Her 1991 doctoral thesis revolutionized the treatment of HIV/Aids. At the height of her career, Dr. Mikovits published a blockbuster article in the journal, Science. The controversial article sent shockwaves to the scientific community, as it revealed that the common use of animal and human fetal tissues were unleashing devastating plagues of chronic diseases.

For exposing their deadly secrets, the minions of Big Pharma waged war on Dr. Mikovits, destroying her good name, career, and personal life. Now as the fate of nations hangs in the balance, Dr. Mikovits is naming names of those behind the plague of corruption that places all human life in danger.

(Mikki Willis:) So you made a discovery that conflicted with the agreed-upon narrative.

(Dr. Mikovits:) (Laughs) Correct!

(Mikki Willis:) And for that, they did everything in their powers to destroy your life.

(Dr. Mikovits:) Correct.

(Mikki Willis:) You were arrested.

(Dr. Mikovits:) Correct.

(Mikki Willis:) And then you were put under a gag order.

(Dr. Mikovits:) For five years. if I went on social media, if I said anything at all, they would find new evidence, and put me back in jail. And it was that one of the few times I cried, and it was because I knew there was no evidence the first time. And they when you can unleash that kind of force to force someone into bankruptcy with a perfect credit score, and so that I couldn't bring my 97 witnesses which included the heads, Tony Fauci, you know, Ian Lipkin, the heads of the public health in HHS who would have had to testify that we did absolutely nothing wrong.

(Mikki Willis:) And so what did they charge you with?

(Dr. Mikovits:) Nothing.

(Mikki Willis:) But you were in jail.

(Dr. Mikovits:) I was held in jail with no charges. I was called a fugitive from justice, no warrant, literally drug me out of the house. Our neighbors are looking at what's going on here. You know, they search my house without a warrant to literally terrorize my husband for five days. They said if you don't find the notebooks if you don't find the material which was not in my possession but planted in my house.

(Mikki Willis:) As if you took intellectual property from the laboratory, is that correct?

(Dr. Mikovits:) Yes. It was intended to appear as if I took confidential material, names, and intellectual property from the laboratory. And I could prove beyond a shadow of a doubt that I didn't. Heads of our entire HHS colluded and destroyed my reputation. And the Department of Justice and the FBI sat on it, and kept that case under seal, which means you can't say there's a case or your lawyers are held in contempt of court, so you can't even get a lawyer to defend you. So every single due process right was taken away from me, and to this day remains the same. I have no constitutional freedoms or rights.

(Mikki Willis:) Yet you sit here. I think a lot of people would probably have just taken the retirement out early, laid low, but you have decided to come forth when your gag order has been released to write a book called, Plague of Corruption – Restoring Faith in the Promise of Science, and you are naming names.

(Dr. Mikovits:) Absolutely.

(Mikki Willis:) Apparently their attempt to silence you has failed. And I have to ask how do you sit here with confidence to call out these great forces and not fear for your life as you leave this building?

(Dr. Mikovits:) Because if we don't stop this now we can not only forget our Republic and our freedom but we can forget humanity because we'll be killed by this agenda.

(Mikki Willis:) So Anthony Fauci, the man who is heading the pandemic task force was involved in a cover-up?

(Dr. Mikovits:) He directed the cover-up. And in fact, everybody else was paid off and paid off big time, millions of dollars in funding from Tony Fauci, Tony Fauci's organization National Institute of Allergy and Infectious Disease. These investigators that committed the fraud continue to this day to be paid big time by the NIAID.

(Mikki Willis:) And the whole world is listening to his advice on how to handle this current pandemic. How do we know that what he's saying is what we need to be learning?

(**Dr. Mikovits:**) What he's saying is **absolute propaganda**. And the same kind of propaganda that he's perpetrated to kill millions since 1984.

(**Dr. Anthony Fauci:**) We know from this study quite clearly that there will be a delay in progression significantly greater than for individuals who do not take the drug.

(**Dr. Mikovits:**) It started really when I was 25 years old, it was part of the team that isolated HIV from the saliva and blood of the patients from France where Luc Montagnier had originally isolated the virus. This was a confirmatory study. But Tony Fauci and Robert Gallo were working together then to spin the story in a different way. At that time Dr. Resetti was out of town, and Tony Fauci says, "you know, we understand that you have a paper in press, and we want a copy of it." And I said, "yes there's a paper in press, and it's confidential, and no, I will not give you a copy of it." He started screaming at me! Then he said, "give us the paper right now or you'll be fired for insubordination. And I just said, "I'm sure when Dr. Resetti gets back you can have the conversation."

And so Frank comes back, you know, several weeks later, and is really bullied into giving Fauci the paper. Fauci holds up the publication of the paper for several months while Robert Gallo writes his own paper and takes all the credit, and of course, patents are involved. This delay of the confirmation, you know, literally led to spreading the virus around, you know, killing millions!

(**Lady news announcer:**) Perhaps no one expressed the anguish of AIDS better than New York writer Larry Kramer. But he was even more angry at the federal government and the pharmaceutical industry. One person who felt Kramer's fury was NIH Dr. Anthony Fauci.

(**Dr. Mikovits:**) It has still been crushing to me to think that I didn't know my work in 1999 was something that had been avoided from 83 and 82 when the virus was isolated. The virus didn't have to wait until 84 to be confirmed. Think of how many people the entire continent of Africa, you know, lost the generation as that virus was spread through because of the arrogance of a group of people, and it includes Robert Redfield who's now the head of the CDC, right along with Tony Fauci. They were working together to take credit and make money, and they had the patents on it and tailored them to I02

therapy which was absolutely the wrong therapy. And had that not happened, millions wouldn't have died from HIV.

(**Mikki Willis:**) How can a man who's giving, any person who's giving global advice for health, own a patent in the solution in the vaccine? Isn't that a conflict of interest, or shouldn't it be?

(**Dr. Mikovits:**) It is a conflict of interest. And in fact, this is one of the things that I've been saying and would like to say to President Trump, repeal the Bayh-Dole Act. (Bayh-Dole Act or Patent and Trademark Law Amendments Act (Pub. L. 96-517, December 12, 1980) is United States legislation dealing with inventions arising from federal government-funded research.

(**From TV excerpt:**) Bayh-Dole fundamentally changed the way universities approach technology transfer, and you can see that best in the statistics. Universities obtained 16 times as many patents today as they did in 1980. Now everybody's getting more patents but still, universities' share of all patents in the United States is more than five times greater than it was before Bayh-Dole. The situation has gotten so bad that one information technology industry official has publicly referred to universities as "crack addicts" driven by "small-minded tech transfer offices addicted to patents royalties".

(**Dr. Mikovits:**) That Act gave government workers the right to patent their discoveries, so to claim intellectual property for discoveries that the taxpayer paid for. Ever since that happened in the early eighties **it destroyed science**. And **this allowed the development of those conflicts of interests**. And this is the crime behind letting somebody like Bill Gates with billions of dollars – nobody elected him – he has no medical background, he has no expertise, but we let people like that have a voice in this country while we destroy the lives of millions of people.

(**Bill Gates:**) Normalcy only returns when we've largely vaccinated the entire global population.

(**Mikki Willis:**) If we activate mandatory vaccines globally, I imagine these people stand to make hundreds of billions of dollars that own the vaccines.

(**Dr. Mikovits:**) And **they'll kill millions** as they already have with their vaccines. There is no vaccine currently on the schedule for any RNA virus that works.

(**Mikki Willis:**) So I have to ask you, are you anti-vaccine?

(**Dr. Mikovits:**) Oh absolutely not! I'm, in fact, vaccine is immune therapy just like interferon-alpha is immune therapy. So I'm not anti-vaccine. My job is to develop immune therapies, that's what vaccines are.

(**Mikki Willis:**) Do you believe that this virus was created in a laboratory?

(**Dr. Mikovits:**) I wouldn't use the word created, but you can't say naturally-occurring if it was by way of the laboratory. So it's very clear this virus was manipulated, this family of viruses was manipulated and studied in a

laboratory where the animals were taken into the laboratory and this is what was released whether deliberate or not. That cannot be naturally-occurring. Somebody didn't go to a market, get a bat, the virus didn't jump directly to humans. That's not how it works. That's accelerated viral evolution. If it was a natural occurrence, it would take it up to 800 years to occur. This occurred from SARS one within a decade. That's not naturally occurring.

(Mikki Willis:) And you have any ideas of where this occurred?

(Dr. Mikovits:) Oh yeah. I'm sure it occurred between the North Carolina laboratories, Fort Detrick US Army Research Institute of infectious disease and the Wuhan laboratory.

(TV announcer:) 3.7 million dollars flowed from the National Institutes of Health here in the U.S. to the Wuhan lab in China, the same lab where many people have said that this corona virus infection first originated. We also now know that NI-AID, the department associated with the National Institutes of Health, of which Dr. Anthony Fauci is in control, had already been conducting experiments with the Wuhan lab in the past in regard to corona virus. If Dr. Anthony Falci cannot be honest with the public about his connection to this lab, then Fauci has to go.

(Dr. Mikovits:) In 1999 I was working in Fort Detrick, and my job was to teach Ebola how to infect human cells without killing them. Ebola couldn't infect human cells until we took it in the laboratories!

(Mikki Willis:) It's hard to ignore the death tolls. People have been dying and they are dying from this in quite alarming numbers. How do you reconcile that?

(Dr. Mikovits:) It's pretty easy when you see for me when you see what the government has done and that is that they took, quoting Dr. Birx: "We've taken a very liberal approach to mortality." *(Meaning, Dr. Birx's doesn't care how many people will die? May the reader interpret what she said.)*

If my husband were to die who has COPD, his lungs have fibrosis, his lungs would look exactly like somebody with COVID-19 theoretically, but he has no evidence of infection. So if you're not testing, and you don't have evidence of infection, and if you walked in there today, you know, they call it COVID-19. And we hear this from the doctors and nurses who are upset.

(Mikki Willis:) I've seen so many doctors online that have made their own web cam videos just perplexed by the protocol that the CDC had given them.

(Doctor:) Well, last Friday I received a seven-page document that sort of told me that if I had an 86 year old patient that had pneumonia but was never tested for COVID-19, but sometime after she came down with pneumonia, we learned that she had been exposed to her son who had no symptoms, but later on was identified with COVID-19, that it would be appropriate to diagnose on the death certificate COVID-19.

(Doctor:) When I'm writing up my death report I'm being pressured to add COVID. Why is that? Why are we being pressured to add COVID? To maybe

increase the numbers and make it look a little bit worse than it is? I think so.

(TV interviewer to a doctor:) Why would they want to skew the number of deaths due to COVID-19?

(Doctor:) Well, fear is a great way to control people, and sometimes people this ability to think for themselves is paralyzed if they're frightened enough. And that's not what I want people to be. I want people to say we're gonna get through this. I'm gonna use my head. I'm gonna go to different sources. I'm gonna listen to different sources. And I'm gonna think for myself because that's what America is about.

(Dr. Brix:) If someone dies with COVID-19 we are counting that as a COVID-19 death.

(Dr. Mikovits:) You don't die with an infection. You die from an infection.

(Mikki Willis:) I've talked with doctors who have admitted that they are being incentivized to list patients that are sick or have died with COVID-19.

(Dr. Mikovits:) Yeah, \$13,000 for Medicare if you call it COVID-19.

(TV announcer:) Right now Medicare is determined that if you have a COVID-19 admission to the hospital, you'll get paid \$13,000. if that COVID-19 patient goes on a ventilator, you get thirty nine thousand dollars, three times as much.

(Dr. Mikovits:) And you've killed them with the ventilator because you gave them the wrong treatment.

(A doctor on video:) All the things that just don't make sense, the patients I'm seeing in front of me, the lungs I'm trying to improve, have led me to believe that we are operating under a medical paradigm that is untrue. and I fear that this misguided treatment will lead to a tremendous amount of harm to a great number of people in a very short time.

(Mikki Willis:) My next question is about Italy. I want to know why Italy was hit so hard.

(Dr. Mikovits:) Italy has a very old population. They're very sick with inflammatory disorders they got at the beginning of 2019, an untested new form of influenza vaccine that had four different strains of influenza including the highly pathogenic H1N1. That vaccine was grown in a cell line, a dog cell line, dogs have lots of coronaviruses, and that's why they're not testing there. You could just say, "oh it was that!"

(News announcer:) As the country begins emerging from the worst of the corona virus epidemic one question remains. What happened to all the hydroxychloroquine?

(A doctor:) We know that hydroxychloroquine and zinc are working great for patients. And then Fauci comes out and says "there's no double-blind control

placebo study” which, by the way, Dr. Fauci, is there going to be a double-blind control placebo study of *your vaccine*? Is there?

(**News announcer:**) In a survey polling nearly 2,300 doctors in some 30 countries hydroxychloroquine was ranked as the most effective medication to treat the virus.

(**Dr. Mikovits:**) The AMA was saying you know doctors will lose their license if they use hydroxychloroquine, the anti-malarial drug that’s been on the list of essential medicine worldwide for 70 years! Dr. Fauci calls that anecdotal data! It’s not storytelling if we have thousands of pages of data saying it’s effective against these families of viruses! This is essential medicine, and they keep it from the people, not only now, but back in autism with our discovery, there was an old antiviral drug hundred-year-old drug called seromon on the WHO list of essential medicine. You literally gave kids with autism a voice, a life. What did Bayer and Monsanto do? They took it away from everybody! You couldn’t get it to save your life right now. We tried, believe me, every way we could. So when you take away a medicine, and not just the WHO, the FDA, the CDC, Tony Fauci, close everything. **Just end it all and we’ve got a healthy world again**, and we got tons of money because we can take all that money they’re making on their patents and we can give it to the victims of this plague of corruption.

(**Mikki Willis:**) Is it safe to say that anything that cannot be patented has been shut down intentionally because there’s no way to profit from it? – All these natural remedies that we have had forever.

(**Dr. Mikovits:**) Absolutely. That’s fair to say. And that’s exactly what’s going on in COVID-19. **The game is to prevent the therapies until everyone is infected and push the vaccines knowing that the flu vaccines increase the odds by 36 percent of getting COVID-19!**

(**Mikki Willis:**) Where does that data come?

(**Dr. Mikovits:**) From a publication last year where the military who had been vaccinated with influenza were more susceptible to corona viruses. Corona viruses are in every animal. So if you’ve ever had a flu vaccine, you were injected with corona viruses. and then to put on a mask ...

(**Doctor:**) This doesn’t make any sense. We wear masks in an acute setting to protect us. We’re not wearing masks. Why is that? Because we understand microbiology, we understand immunology, and we want strong immune systems. Our immune system is used to touching. We share bacteria staphylococcus, staphylococcal bacteria, viruses. We develop an immune response daily to this stuff. When you take that away from me, my immune system drops. As I shelter in place, my immune system drops. You keep me there for months, it drops more. And now I’m at home hand-washing vigorously, washing the counters, worried about things that are indeed what I need to survive.

(**A doctor next to the first doctor:**) You know you’re not immunodeficient, and you’re not elderly, you should be able to go out without any gloves and without a mask. I think if you are those things you should either set shelter

in place or wear a mask and gloves. I don't think everybody needs to wear masks and gloves because **it reduces your bacterial flora**. It doesn't allow you to interact with society and your bacterial flora and your viruses, your friends that protect you from other diseases end up going away, and now you're more likely to get opportunistic infections, infections that are hoping you don't have your good bugs fighting for you if that makes sense.

(**Another doctor:**) And then as we all come out of shelter-in-place with a lower immune system and start trading viruses, bacteria, what do you think is gonna happen? Disease is gonna spike!

(**Another doctor:**) I guarantee when we reopen there's going to be a huge huge amount of illness that's going to be rampant. The building blocks of your immune system is virus and bacteria, end of story.

(**Dr. Mikovits:**) Wearing the mask literally activates your own virus. You're getting sick from your own reactivated corona virus expressions, and if it happens to be SARS-CoV-2, then you've got a big problem.

(**Mikki Willis:**) You're not the first virologist who has told me that we're doing the exact opposite of what we should be doing to contain and to create immunity from this virus.

(**Dr. Mikovits:**) Why would you close the beach? You've got sequences in the soil, in the sand. You've got healing microbes in the ocean in the saltwater. That's insanity! (Thank God the governor of Guam re-opened the beaches!)

(**Mikki Willis:**) These institutions that are polluting our environment and our bodies, there was a time when they actually had to fight their own battles, but they've done such a great job at manipulating the masses, that it's other people shutting down other citizens, and the big tech platforms follow suit, and they shut everything down. There is no dissenting voices allowed anymore in this free country, which is something I never thought I would live to see.

(**Dr. Mikovits:**) Nor would I except what I've experienced since 2011. It's beyond comprehension how a society can be so fooled that the types of propaganda continue to where they're just driving us to hate each other. Hopefully, this is the wake-up call of all America to realize this makes no sense, and we win because it will take down the whole program with information like this. And for me it's the great news that the doctors are waking up and saying "wait a minute!"

(**Doctor:**) You doctors that are watching this and I see a lot of you right here, why are you not getting loud? I'm here to defend you. I'm here to defend my freedoms. I'm here to defend my family's freedoms, my patients rights to choose what to do with their life. I'm just blown away! And I'm blown away why there are not more doctors like me talking about this all over the place. We should be banding together right now! You need to wake up because your liberties are getting taken away from you all because of fake news is out there. This is wrong! People should be going to jail for this stuff.

(Dr. Mikovits:) So it's not the scientists who are in any way dishonest. They're listening to people who for more than 40 years have controlled who gets funded, what gets published, and I'm sorry to say many many people will simply take the money and the fame and that support, things that absolutely aren't true.

(Mikki Willis:) What do you say to the medical professionals that are just beginning to get a glimpse of the depth to which they have been misled and steered away from their oath to do no harm?

(Dr. Mikovits:) I say forgive yourselves. It's the hardest thing to realize for all of us and is that with all the best intentions we studied we learned what we thought was the truth we had no idea that the data that we were being told was true, was not true. We've been taught now in our schools a very different science, you don't get funded if you don't speak the party line you don't get published. That was probably the hardest thing for me to take, is understanding that scientific journals would twist the discovery that should have healed all.

(Lady doctor:) Will the scientific community have the courage to answer the question of whether these diseases might have been of their own creation? Thank you. (Applause)

(Dr. Mikovits:) So what we did pretty much ever since I got out of jail, we started an education company. We wake up doctors. And it's very difficult, but every doctor who realized they may have been part of the problem has now turned that around to march toward a better society and restore faith in the promise of medicine. That's all we can do.

(Mikki Willis:) Well, Dr. Mikovits, thank you so much for your time it's been a real honor to sit here with you and particularly thank you for your courage.

(Dr. Mikovits:) Thank You Mikki, I appreciate it a lot.

(Dr. Anthony Fauci:) The idea that we are now a few days away from a new administration, given as you heard from the introduction that I have been around for a while and have had the opportunity of serving in five administrations, I thought I would bring that perspective to the topic today as the issue of pandemic preparedness. And if there's one message that I want to leave with you today is that there is no question that there will be a surprise outbreak. ... The thing that we're extraordinarily confident about is that we are going to see this in the next few years. Thank you. (Applause)

(End of part 1 of Plandemic)

EXCLUSIVE Dr Rashid Buttar BLASTS Gates, Fauci, EXPOSES Fake Pandemic Numbers As Economy Collapses

Dr. Rashid Buttar exposes the Covid pandemic as a moneymaking scam.

Patent from Microsoft: Body Activity Data Cryptocurrency System

Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified. [/caption]

This is a patent filed on March 26, 2020 from Microsoft, patent

WO/2020/060606. Note the three sixes in the patent number. If you don't believe it, please check out what it says on the [World Intellectual Property Organization](https://www.wipo.int) (WIPO) website!

Quoted from WIPO:

"What is WIPO? WIPO is the global forum for intellectual property (IP) services, policy, information and cooperation. We are a self-funding agency of the United Nations, with 193 member states. Our mission is to lead the development of a balanced and effective international IP system that enables innovation and creativity for the benefit of all. Our mandate, governing bodies and procedures are set out in the WIPO Convention, which established WIPO in 1967."

So what this all mean? Please tell me what you think in the comments below.
