Science and Roman Catholicism are essentially antagonistic. The former faces the untried future with experiment as its only tool and honesty to truth its only guide. Roman Catholicism fears the future, and is opposed to experiment and change as revolutionary and destructive of its fixed dogmas and religious practices.

Science vs. Evolution

When I was a kid I dreamed of being a scientist someday. It turns out I wasn't good enough in mathematics to become one. I respect true scientific researchers, people like Dr. James Tour for example. He's an American chemist and nanotechnologist, a Professor of Chemistry, Professor of Materials Science and Nanoengineering at Rice University in Houston, Texas. And he'll tell you in his podcasts he loves Jesus more than anything! He was raised Jewish and came to know Jesus as his Messiah through the witness of a fellow student when he was a teenager. And I have a personal friend who's a scientist and a Bible-believing Christian, Dr. John Gideon Hartnett of [Bible Science Forum](#).

Contrary to what some Christians are saying, there is such a thing as true science. And what is true science? It's the study of the laws and principles of God's creation! And there are pseudosciences, science falsely so called as it says in 1 Timothy 6:20:

O Timothy, keep that which is committed to thy trust, avoiding profane and vain babblings, and oppositions of science falsely so called:

The teaching of Darwinian evolution is one of them. And who teaches it? Secular scientists who are mostly atheists.

Another pseudoscience is flat-earth. Who teaches that? Sad to say, many Bible-believing Christians do. They fell for a [CIA psyop](#) that is set to discredit their testimonial for Christ. I already wrote a lot about [why I don't believe the earth is flat](#) on this website, and so I won't get into it now.

Darwin's evolution has *hindered* true science and tainted many branches of it. Just off the top of my head, the branches of science it has tainted are number one, biology, and also geology, anthropology, ecology, psychology, medicine, and any other study that has to do with mankind and life. Evolution has surely tainted cosmology and astronomy as well.

Science is knowledge and knowledge can be used for both good and evil. As Christians, we want to use what we know for God's kingdom. Science has brought us technology, and technology has made our lives easier. If you don't think so, wait till the power goes out and you lose your phone and Internet connection. This is what I experience for a whole day from time to time in the Philippines. And technology from science has brought us the Internet which makes it far easier and far less expensive to share the Gospel and the truth of the Word of God to the world.

Below is an article one of my former pastors wrote about Darwin's evolution.

It's so ridiculous for man to not believe in God!—Because man can't help but believe in God if he just looks at Creation! If you're not an absolute fool, if you have a reasoning mind at all, all you have to do is look at the Creation to know Somebody had to design it, pattern it, and put it together and make it work like it does!

Why, the simplest country boy out in the country can just look around out in the country at the Creation God made and SEE that there's a God!—It's obvious that all that didn't just happen by accident! It's as plain as day that Somebody had to plan it and figure it out, because God's beautiful Creation works so beautifully, so systematically, so perfectly—Creation, so-called Nature, is not just natural—God made it! It's created! It's all supernatural! It's all miraculous!

If you haven't got enough sense to know there's a God, then just look at His Creation! Just look at the sea, the sky, the clouds, the mountains, the valleys, the trees, the flowers, everything! They're all virtually shouting, "There is a God! Look what He made! Look what a beautiful World He made for you to live in!"

I can prove from the Bible that these scientists and teachers and evolutionists and all who claim not to believe in God are LIARS!—They do believe in God. Only an absolute fool, an imbecile, an insane idiot, somebody who's not quite straight in the head would actually in his heart believe there's not God!—Maybe these "smart" people are that demented! God's Word says the smart ones, if they don't glorify God, become fools. The Bible says, "The fool hath said in his heart, 'There is no God'!" (Ps.14:1) Now a lot of people will say with their mouth, "There is no God," but all the time in their heart they know there's a God!

In fact, most people who CLAIM they don't believe really DO believe, but they're in rebellion against God! They don't want to know Him and they don't want to confess that He exists, because if they do, then they have to recognize Him!—And if they recognise Him, then they have to admit that they owe Him some kind of acknowledgement and obeisance and obedience.

The greatest proof of the existence of God is His Creation! That's why Evolution is so evil, and Devil-inspired, because it tries to explain away Creation by saying that it just happened by accident and it threw itself together! Isn't that ridiculous?

“For the INVISIBLE things of Him from the creation of the World are clearly SEEN, being understood by the things that are made, even His eternal power and Godhead; so that they are without excuse!” (Ro.1:20) His invisible existence is manifest or proven by the things you can see, His Creation.—The existence of our invisible God is proven by His visible Creation!

And THAT'S why the World wants to reject Creation and say it's all just a meaningless chaotic evolution!—Because if the World and its inhabitants are God's Creation, then they're His property—and if they're His property, then He's got the right to be Boss—and they don't want God to be Boss! Therefore “they did not like to retain God in their knowledge”, in their education. (Rom.1:28)

“Because that, when they knew God, they glorified Him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened. Professing themselves to be wise, they became fools!” (Rom.1:21,22) They got so smart that they could do without God and the Bible, and so they became what?—Fools!—Absolute fools, who “changed the glory of the incorruptible God into an image made like to corruptible man, and to birds, and fourfooted beasts, and creeping things. Who changed the truth of God into a lie, and worshipped and served the creature more than the Creator!” (Rom.1:23,25)

So why did the Devil and man cook up this ridiculous, idiotic scheme of evolution?—To try to get rid of God and the knowledge of God, “as they did not like to retain God in their education.” And since they threw God out and they threw Creation out and they threw the Bible out, they had to cook up something new! They didn't want the truth anymore, so they had to figure out some big lie!

Evolution is the craziest, hardest thing in the World to believe!—That it all just happened by accident, that it all just kind of fell together. Dr. Robert A. Millikan, the great physicist who developed the splitting of the atom, said,

“If you'd say that this watch just put itself together, invented itself, you'd be crazy! And just as there had to be a watchmaker behind the synchronized perfection and order of every watch, so there had to be a Creator behind the perfect synchronized perfection of the Universe!”

Yet this evolutionary doctrine of delusion has become the general theme of modern so-called science! Evolution is now referred to as the "great principle" of biology. But a principle, according to the dictionary, is a foundation, truth or fact—the basis of other truths. And if you know anything about evolution at all, you know that it has never been proven to be either a truth or a fact, much less the foundation or basis of other truths!

There is no absolute proof for evolution! It has to be believed, therefore it's a faith, *therefore it's a religion!* Even the high priest and founding father of this false faith, Charles Darwin himself, confessed that "the belief (note the emphasis on belief) in natural selection (evolution) must at present be grounded entirely on general considerations...When we descend to details, we can prove that no one species has changed ... nor can we prove that the supposed changes are beneficial, which is the groundwork of the theory."—Ha!

So **evolution is really a RELIGION of UNBELIEF in God!** And that's its whole purpose: To eliminate faith in God and to foster the false doctrine of devils that the Creation created itself and God had nothing to do with it, so there doesn't need to be a God—it could have happened without Him!—What an idiotic and ridiculous lie!

And even if you don't believe the Bible, honest scientists have figured out that if evolution actually took that many millions of years, we would be ten miles deep in evolutionary fossils, missing links, instead of having to search the World over trying to find one! And nearly every one of those crazy fossils that were supposed to be the missing links have now been debunked!—Some of them were even confessed fakes, like Piltdown Man, Java Man, etc.

"In the beginning, God," not chaos, not some nebulous cloud of gases, but "in the beginning, God created the heavens and the earth!"—The first verse of the first chapter of the first book of the right Book, praise God! Now either you believe that, either you believe what God's Book says, or you're going to take what some liar says!

"And GOD created man in His Own image, in the image of God created He him; male and female created He them." (Gen.1:27) He didn't look like some ape-man or monkey, or some fish or bird.—He created man like Himself, God! And God formed man out of what?—Previous forms?—Apes?—Beasts?—Birds? "And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul." (Gen.2:7)

Creation is the premise and preface and basic foundation of the entire Bible! If you don't believe this, you won't believe anything! Because when you doubt one word in the Bible, you'll soon doubt the whole Bible! Why?—What happens in a court of law with the testimony of a witness when one thing he's said is proven to be a lie?—They throw his entire testimony out, including the true things he said, because they can't believe it and every word will be in doubt. If he lied about one thing, maybe he lied about another! And that's the way it is with the Bible!

Jesus said, "Had ye believed Moses (who compiled the Book of Genesis, ye would have believed ME. But if ye believe not his writings, how shall ye believe My Words?" (Jn.5:46,47) Now, what's the first of Moses' writings, upon which all five books are based?—GENESIS!—"In the beginning ... ," all about Creation and the beginning of God's dealings with man.

If they had believed that book of Genesis all about Creation and God, then they would have accepted Jesus Christ as their Savior! What, then, did the Devil know he had to do to prevent people from believing in Christ? He knew he had to destroy their belief in the writings of Moses and in the book of Genesis in particular, in the Creation, the glorious Creation! And how'd the Devil do that?—By what doctrine, what big lie?

EVOLUTION!—That was his greatest lie and greatest manufacture and most clever piece of teaching! Evolution!—As ridiculous and idiotic as anything you could possibly study, because it has NO foundation in fact whatsoever; there's NO evidence for it; no discovery has been made to prove it! As one of its top exponents, Margaret Mead, the famous anthropologist, wrote in her own introduction to her textbook on anthropology:

"We as honest scientists must confess that science has yet to discover one single iota (tiny speck) of concrete evidence to prove the evolutionary theory!"

Darwin's evolution is science falsely so-called, pseudo-science, of which St. Paul warned dear Timothy, "Beware of the lies of science falsely so-called!" (1Tim.6:20) Because once you reject the truth about Creation, about God, about Jesus, and about happiness and the proper rules of life and love, there's nothing else to believe but lies and the Devil!

If the Devil always came around with hooves and horns and a long tail and a pitchfork in his hand, he wouldn't be half as dangerous as the way he really comes around: In the form of some smooth-tongued professor in today's modern universities, teaching courses that are nearly all lies, phoney lies, very little truth to them!—Pure vain imaginations, somebody's dreams—nightmares! They, as Jesus said, are blind leaders of the blind, and He said they're both going to fall into the ditch! "The wise men are ashamed, they are dismayed and taken, lo, they have rejected the Word of the Lord, what wisdom is in them?" What wisdom is in them?—Without God's Word there is no wisdom, no knowledge that amounts to anything or is worth anything! (Mt.15:14; Jer.8:9)

The Bible prophesies that in the Last Days, "the time will come when they will not endure sound doctrine (the truth); but after their own lusts shall they heap to themselves teachers, having itching ears (ears that want to be tickled with lies!); And they shall turn away their ears from the truth, and shall be turned unto fables!" (2Ti.4:3,4) This time has come, and these days are here, and their ears have turned from the truth and are turned unto fables!—Like evolution!

"Because they received NOT the LOVE of the TRUTH, that they might be saved,

for this cause God shall send them strong delusion, that they should believe a lie: That they all might be damned who believed not the truth!" (2Th.2:10-12) And if you don't like the truth, you've only got one alternative—a lie!—And damnation!

DO YOU BELIEVE IN GOD? Look at the World, look at the beautiful trees, look at the flowers, look at the sea, look at the sky!—Does God love you?—You can see it and you can feel it in the beautiful World He's given you to live in!

GOD is the only One Who can give MEANING to the Universe and purpose to the planets and love to our hearts and peace to our minds and health to our bodies and rest to our spirits and happiness to our lives and joy to our souls and the wisdom to know that "the fear of God is the beginning of wisdom" and "the wisdom of this World is foolishness with God"! (Pr.9:10; 1Cor.3:19) Take Jesus and His Truth today!

Science and faith in God do not conflict, they complement each other.

[What Can the Bible Teach Us About Science?](#)

The Bible is not a science text. It is a history book; it tells us HIS STORY OF THE UNIVERSE.

Is Snopes a credible and authoritative source of information?

A frequent visitor of this website sent me an article from Snopes in response to the article on this site, [Coriolis Effect at the Equator: Evidence Against a Stationary Flat Earth](#). It says:

“The notion that the Coriolis force determines which direction water spirals down drains is one of the most prominent scientific myths.”

And it calls the following statement false:

“The Coriolis force determines which direction water spirals down drains and toilets in different hemispheres.”

I consider the above statement false about toilets, but true about drains! This is what I would call a false dichotomy, grouping two things together that are different in operation. A toilet flushing is totally different than

water going down a spout.

However, the Coriolis effect is so small that it plays no role in determining the direction in which water rotates as it exits from a draining sink or toilet.

That statement may be true for toilets but it's demonstrably false for sinks! I've lived in the Northern Hemisphere my entire life. I've seen water drain down a spout in a clockwise direction, and *only* in a clockwise direction innumerable times during my 73 years on Earth. I happen to be now the furthest south I've ever lived, 12 degrees north latitude in the Philippines. The closer I am to the equator, the stronger the Coriolis force is.

Toilets and sinks drain in the directions they do because of the way water is directed into them or pulled from them. If water enters in a swirling motion (as it does when a toilet is flushed, for example), the water will exit in that same swirling pattern.

I took up the challenge to try to make water spin down my bathroom sink in a counterclockwise (anticlockwise) direction by purposely pouring a bucket of water down the sink when moving my arms toward the left. In spite of my efforts, I couldn't do it! I could not cause the water to spin down the drain counterclockwise. It spun down the drain in a clockwise direction as it always has. Conclusion: Snopes is LYING!

I shared the Snopes article with my scientist friend, [John Gideon Hartnett](#) who has a PhD in physics. His response: "Usual lies."

But the question is, why would Snopes lie about *this*? I understand why it would lie about the effectiveness of Covid vaccines, or that vaccines, in general, are not harmful, or about Climate Change, or about anything considered controversial that the Left likes to call, "Right-wing conspiracy theory". But why would Snopes call something false that anybody who lives in a house with a sink and a thinking mind can easily show to be true? Perhaps the following excerpt from <https://foodbabe.com/do-you-trust-snopes-you-wont-after-reading-how-they-work-with-monsanto-operatives/> will throw some light on the subject:

- Snopes is now [50% owned by an ad agency \(Proper Media\)](#) and they make money by generating [millions of views on the 3rd-party advertisements](#) on their website. It simply makes sense for them to seek out articles that are viral to "debunk", so that they can piggy-back on that traffic and generate more advertising revenue.
- Snopes was founded by a husband and wife team who are now in the middle of a contentious divorce in which founder David Mikkelsen has been accused of [embezzling \\$98,000 of company money to spend on "himself and prostitutes"](#).

- Snopes now has a hired team of suspect [fact checkers](#) who collaborate to debunk falsehoods that are trending on the internet.
- These fact checkers reportedly have [no editorial oversight and do not follow standard journalistic procedures](#) such as interviewing the authors of articles they are trying to debunk to get all sides of the story.
- Snopes doesn't have a formal screening process for hiring fact checkers and for [evaluating applicants for any potential conflicts of interest](#). Without such standards, it is very easy for them to be infiltrated by those who work with the industry and who have a hidden agenda.

The recent series of events below demonstrates how Snopes has been influenced by Monsanto into manipulating the public opinion about [the dangers](#) of their bestselling product, Roundup weedkiller (aka glyphosate).

Conclusion

It's all about making money.

Watch this neat experiment in Uganda, one of the countries in Africa that are intersected by the equator. Water in a bowl just a few meters north of the equator drains down a spout in a clockwise direction, and just south of the equator, water in a bowl drains down a spout in a counterclockwise (anticlockwise) direction. Right on the equator, water in a bowl doesn't drain down in either direction, the water just goes straight down through the spout. Please watch the short video clip for a clearer understanding.

This is called the Coriolis effect and it's due to the Coriolis force, an apparent force that as a result of the earth's rotation deflects moving objects (such as projectiles or air currents) to the right in the northern hemisphere and to the left in the southern hemisphere. Typhoons in the Pacific and hurricanes in the Atlantic are both in the northern hemisphere and spin (as seen from above) in a counterclockwise direction due to Coriolis force. Cyclones are in the southern hemisphere and spin in a clockwise direction due to the Coriolis force. And this force is caused by the rotation of the earth which is fastest at the equator and gets slower and slower the further north or south you go from the equator.

A hurricane in the Northern Atlantic.

A cyclone in the Southern Hemisphere

When I lived in Japan, I met a young man from Australia who told me one of the first things he did after arriving at the Tokyo International Airport, was to go to a restroom to see if the water in a sink would flow down the drain in a clockwise direction. It did of course. He was used to seeing water drain down the sink in a counterclockwise direction in Australia. Both Australia and Japan are thousands of kilometers from the equator. The cool thing about this experiment in Uganda is it was done only a few meters, only 10 meters or so, north and south of the equator.

The results of the demonstration is clear evidence for a rotating spherical earth. Flat earthers call a spherical rotating earth a NASA lie, and I call Flat earthers sadly [deceived by a CIA psyop](#). Folks, the academic world believed the earth was a sphere at least from 2200 years ago when Eratosthenes of Cyrene calculated the circumference of the earth to be around 39,060 to 40,320 kilometers. That's pretty close to what it actually is. Don't be deceived by the CIA's covert Flat Earth propaganda! Its aim is to marginalize Bible believers and make Christians look like fools in the eyes of the unbelieving world! Yes, you can say there are lies in the scientific and academic world, Darwin's evolution being the principal one, but if all science was false you wouldn't be reading this on your phone or computer screen right now because it was science that created the technology that brought about your device.

Some folks who believe the earth is flat and stationary say if the earth is spinning at 1670 kilometers an hour at the equator, the oceans would fly off into space! My friends, the perception of speed is relative to the viewer. The higher a jet airplane appears in the sky, the slower it appears to fly. The earth is revolving only *one revolution per 24 hours*. If you took a tennis ball, dipped in it water, and spun it like a top several revolutions per second, yes, water would fly off it. How about if you could revolve it only a

single revolution over a 24-hour period? I bet you couldn't even turn it that slow without some kind of mechanical device similar to what mechanical clocks use. Water would not fly off the tennis ball at that slow speed and gravity is not even a factor like it is with a revolving earth.

I don't mean to offend Flat Earthers. I love people. It hurts me to see Christians and Bible believers destroy their credibility and testimony for Christ by repeating falsehoods they heard on YouTube. I submit to you there would be no Flat Earth movement today if it wasn't for YouTube. Why does YouTube censor certain videos that tell you the truth and permit videos that tell you lies? Because the Devil is the prince of the power of the air (Ep 2:2) and he's trying to lead you astray.

It was a total shock for me to see Texe Marrs, a Christian pastor, and conspiracy researcher who I liked, to interview Edward Hendrie and promote Hendrie's book, "The Greatest Lie on Earth: Proof That Our World Is Not a Moving Globe." Texe called Hendrie a "fine Christian man." But not only did Hendrie go to Notre Dame, a *Jesuit* high school in South Bend Indiana, he also went to a **Jesuit law school**! It's not outside the realm of possibility that Hendrie is in fact an undercover Jesuit infiltrator in Christian society. Yearly tuition for Notre Dame is \$63,000! You have to be part of the Roman Catholic elite to attend such schools. And maybe Texe Marrs himself wasn't what he appeared. He was a close friend of Alex Jones.

[A Conversation with "Professor" Dave Farina About His Debate with Dr. James Tour at Rice University](#)

My wife and I saw on YouTube the debate with Dr. James Tour and Dave Farina that was held at Rice University on May 19th. The subject of the debate: **Are We Clueless about the Origin of Life?** Dr. Tour says we are clueless and Dave Farina claims science is making great progress in this area.

Dr. Tour was gracious toward Mr. Farina and gave him a gift of a picture of his face made with laser-induced graphene, something absolutely unique! Farina was an invited guest at Dr. Tour's university, and in spite of Dr.

Tour's kindness, Farina insulted and mocked him throughout the entire debate, used childish name calling, and even accused him of lying! Dave Farina made my wife so upset she didn't want to hear him anymore. You can watch the entire debate on YouTube posted at the end of this article if you like. Dr. Tour of course got emotional and raised his voice at him. I probably would have too. I think Dr. Tour should have stood more on his credentials and accomplishments.

James Mitchell Tour (born 1959) is an American chemist and nanotechnologist. He is a Professor of Chemistry, Professor of Materials Science and Nanoengineering, and Professor of Computer Science at Rice University in Houston, Texas. Tour is a top researcher in his field, having an h-index of 165 with total citations index over 125,000 and was listed as an ISI highly cited researcher. (Source: Wikipedia)

Dave Farina is not even listed in Wikipedia. His claim to fame is only his following on YouTube.

Sunday morning, May 21st, I found Dave Farina on Instagram and wrote him. To my surprise and his credit, he responded immediately! You can see from this conversation the difference in our worldviews and his reactive response to me telling him the facts.

My Conversation with Dave Farina

Dr. James Tour was so kind to you and gave you something unique. You don't have anywhere near the academic record he has, and you don't do any scientific research, and yet you presume to know better than him and take it upon yourself to insult him throughout the debate about the origin of life.

He's a fraud who lied and shouted the whole time. You can't tell because you're brainwashed and stupid. Did this little tantrum make baby feel better? Stay in your lane, moron.

Your lane is insulting others. That's the only thing you're good at. Dr. Tour's record shows you up to be everything you accuse him of being. He's shining brightly in the scientific and academic world for his achievements. What have you achieved? Your fame is limited solely to YouTube.

He's an unhinged lunatic who denies science he doesn't like because Jesus. Again, you fell for it because you're brainwashed and stupid. I'll prove it. Where am I wrong? Anywhere. Be specific. Or just reply whining more about how mean I am like I know you will because you're a pathetic waste of human life.

What's your academic degree? You call yourself a professor while others call you Mr. Farina. There's a disconnect there . Dr. Tour has scientists with doctorate degrees who support his views! I know who they are and what they have accomplished. And yet you expect me to listen to YOU whose only accomplishments I know of are making YouTubes? Dr. Werner Gitt's research on information science tells me the vast amount of code in a human DNA molecule could not have happened without a mind to write all that code! Code is information and information can always be traced back to an intelligent source. You can disagree with that but nevertheless it's provable science. Darwinistic evolution is not science according to the scientific method. Believing in darwinism is no different than belief in a religion, and a false one at that.
Please check out [The Origin of Life from the Viewpoint of Information – Dr. Werner Gitt](#)

Oh look at that can't do it and won't even try. That's what I thought. Stay in your lane you brainwashed loser.

Yes indeed, I will stay in my lane, one of the victors over the lies and deceits of this evil world. I got the victory by accepting and believing what the King of the Universe Jesus Christ did for me. I hope and pray you too will wake up to the truth. It's all written down in the Bible. I hope you read it. Start at the Book of Genesis.

Yes your lane of brainwashed reality denying adult toddlers. Stay there and don't bother normal adults with functioning brains. We hate being reminded that people as dumb as you exist.

He accused me of not trying to answer his question but he made no attempt to answer my question about his accomplishments in science.

Let's count how many times Dave Farina resorted to name calling in this short conversation. He called me a

1. moron
2. pathetic waste of human life
3. loser
4. dumb

and said I am

5. brainwashed
6. stupid

The study of psychology teaches us that when someone resorts to

name calling, it usually speaks to feelings of inferiority and a feeling of inadequacy of the person doing the name calling. People stoop to the process of name calling when they feel lesser and need to make themselves feel more powerful. (Quoted from [Name Calling and What It Implies](#))

We can tell a whole lot about a person just from their words, attitudes and reactions. Jesus said in Matthew 12:34 “...out of the abundance of the heart the mouth speaketh.” Dave Farina is a poor lost sinner who doesn't know it. May the Lord Jesus have mercy on him and open his eyes to the truth.

Dr. James Tour vs Dave Farina | Are we clueless about the origin of life?

I found several excellent commentaries about the James Tour – Dave Farina debate on [evolutionnews.org](#) which is apparently a Christian website exposing Darwin's evolution as pseudoscience. Here are some quotes from the author, Casey Luskin.

As I noted in a [previous post](#), over the course of the [origin of life \(OOL\) debate](#) between James Tour and Dave Farina, things got technical and things got ugly. If you want to judge who had the better argument, the best place to start is to examine the opening statements. These statements reflect what the two participants carefully planned to say to the world when they were in the comfort of their offices, thinking about the best arguments they could make. These statements reflect what the participants wanted to say *before* the heat of emotion started to enter into the evening. Their opening statements thus speak volumes about their core arguments, and what evidence they had to back their positions.

It's simple: James Tour focused on science, Dave Farina focused on character assassination. It's the first of three noteworthy rhetorical indicators I'm covering which help reveal who won the debate:

1. Tour focused on science, Farina focused on character assassination.
2. Tour posed reasonable scientific challenges which Farina refused to answer
3. Farina relied heavily upon playground tactics, appeals to authority, and citation bluffing.

We're talking about the first indicator here – so let's dig into the specifics.

Tour's Opening Statement

Tour commenced the debate by giving Farina a gift – a laser-induced graphene-based printout of Professor Dave that looked flattering and was seemingly given as a genuine gesture of kindness. That's a nice present! Tour's opening statement then proceeded to focus 100 percent on science and laid out five areas where origin-of-life models fail to work under realistic prebiotic

conditions:

1. The origin of polypeptides (i.e., proteins and enzymes)
2. The origin of polynucleotides (i.e., RNA)
3. The origin of polysaccharides (i.e., carbohydrates)
4. The origin of specified information in the above polymers
5. The assembly of the above components into an integrated functional living system – a cell.

After laying out these five challenges, Tour provided citations from leading researchers acknowledging severe deficiencies in origin-of-life models. For example, he quoted James Shapiro at the University of Chicago saying that “certain questions like the origins of the first living cells currently have no credible scientific answers.” He quoted Richard Dawkins who [admitted](#), “We know little more than Darwin did about how it [life and its evolution] got started in the first place.” Finally Tour quoted Lee Cronin who [said](#), “Origin of life research is a scam” because “no one is really trying to actually answer the question or think it can be done.”

(Cronin later attempted [damage control](#), saying these comments were made “tongue in cheek” but his words supported the original interpretation: Cronin admitted that origin-of-life researchers should not believe that making various types of molecules, e.g., RNA, in the lab will “unlock the origin of life.” He charged that researchers should be trying to “make a cell from scratch” and show that they can make “contingent information embodied outside the genome in the cell” – which Cronin admitted they have not yet done.)

Tour closed his opening comments by saying to Farina: “I’m looking forward to seeing the data with chemical specificity. That’s what I’m asking of you, so I’m telling you up front.”

Thus, before even getting into the heart of the debate, Tour said what he wanted to say in his opening statement and it was 100 percent focused on the data and substance.

Farina’s Opening Statement

Next, Dave Farina gave his opening statement. It was highly focused on attacking Jim Tour’s character – and dealt very little with science. Here are Farina’s opening words, which framed his argument for the whole debate:

We’re here because of James Tour. James, a chemist and also an apologist who lies about origin-of-life research on the Internet.

Farina went on to attack Tour for his “fragile, archaic faith,” because he has (supposedly) “admitted that he is a creationist” and “believes in biblical creationism” and believes that “blind faith will always beat scientific research.” (None of this is true of Tour as far as I know.) From there he just piled venomous attack upon venom attack and insult upon insult – so many that I could barely keep up trying to write them down. To recount a

few:

- Tour is “totally dogmatic.”
- Tour “regularly lies”
- Tour is “approaching the field not as a scientist but as a preacher.”
- Tour “pretends he’s a scientist”
- Farina attacked religious people who find Tour’s arguments persuasive, saying Tour provides “embarrassing commentary” for “science-illiterate Christians who share his bias and delusions.”

Dave Farina is a total narcissist! He doesn’t have anywhere near the academic credentials of the people he criticizes. James Tour does real science and Farina only talks about it.

[The Flat Earth Psyop](#)

Proof that Eric Dubay, the originator of the Flat Earth craze among Christians, is himself not a Christian but a Hindu and a CIA asset who seeks to confuse and marginalize Bible believers and the Truth Movement.

[The Evil Agenda Behind the Transgender Movement](#)

Two billionaires Pritzker and Rothblatt are behind the promotion of transgenderism. If they can confuse a child about gender before he or she hits puberty, it means greater financial gains for them. Because both men have a stake in the trans-medical industrial complex, if they can confuse children when they are very young (elementary school age), they can profit off puberty blockers in addition to life-long hormone treatments and countless surgeries at the gender clinics they're invested in.

Information is not a property of matter. Matter is merely a carrier. When the progress of transmission events of information is traced backwards, it leads to a mental source, the mind of the sender

Debate with AI about Intelligent Design of Life

The AI chatbot concedes it's not likely that a natural process can create a detailed picture of a person in sand but also says, "the genetic code encoded in DNA can arise through natural processes such as mutation, recombination, and selection" in spite of the fact a living cell is indescribably far more complex than a detailed picture of a person in sand.

The Ultimate Argument Why the Earth is NOT Flat!

If the sun cannot be seen at night, something must be blocking it from our view! What could be big enough to block it? Only the earth itself!

The Plan to Escape Medical Tyranny – By Andrew Torba

Andrew Torba is the CEO of gab.com, a social media platform that many have turned to after being censored by Facebook or Twitter for posting information the megarich corporate elite do not want you to know. I find this message encouraging. We do not have to sit back and let the Devil's people walk over us! We should not fear them for they fear us! Jesus told us in Revelation 17:14

These (the Devil's people) shall make war with the Lamb, and the Lamb shall

overcome them: for he is Lord of lords, and King of kings: and they that are with him are called, and chosen, and faithful.

Much if not all of the Book of Revelation is symbolic. I think it's possible Christians may be fighting the final battle of Armageddon right NOW against the forces of Antichrist! Joe Biden may not be *the* Antichrist, but he is an antichrist because he is promoting ungodly practices such as abortion.

Many of the people who received either one or two shots are beginning to wake up. They were told by the "experts" that they just needed to get the shot and things would get back to normal. Things are far from normal and now they are being told that they will likely need to get multiple booster shots and [even a pill to treat Covid-19](#).

Thankfully, many of them are taking a stand and fighting back.

On September 10th it was reported that a [New York hospital is going to pause baby deliveries after a "spate of resignations"](#) by maternity unit workers who refused to inject an experimental substance into their bodies.

Over the weekend I received a direct message from a NASA engineer who informed me that "almost all the engineers here have all banded together and are forcing NASA admin to fire them (both vaccinated and unvaccinated alike). NASA is on a hiring freeze, so firing all these folks would essentially kill the Artemis mission."

Many people believed they were "fully vaccinated" after two shots. They trusted the system. They believed things would get "back to normal." They took the shots, often reluctantly, with these things in mind and they are quickly finding out that they've been lied to.

Now they are preparing to be labeled "unvaccinated" again if they refuse to get yet another shot. Look on the bright side: Moderna's shares [jumped 5% on news](#) that they revealed a new single shot booster.

Meanwhile tens of millions of Americans face being fired, kicked out of school, removed from our Military, refused medical care, and more for having faith in the immune system God gave them to overcome a virus with a 99%+ survival rate for the overwhelming majority of the population.

This all comes after Pseudo-President Joe Biden [declared war on 80 million](#) (or likely way more) Americans who refused to participate in the biggest lab rat experiment in human history.

I've been writing about concepts like [the need for a parallel economy](#), a parallel internet, and a parallel society throughout all of 2021. But what does that actually look like?

We are about to find out.

If you've already been vaccinated you can join those of us who have not been by refusing to get any of these booster shots. At some point enough of us need to say enough is enough. The way this is going to work is even if you've

received two shots already they are going to group you in with us “unvaccinated” people because without the booster you will no longer be “fully vaccinated.” So you might as well unite with the rest of us and start building something new.

All of the best, most talented, and smartest people are critical thinkers. They are builders. Doers. They are quickly leaving the existing system. What will be left is low quality talent. The “yes” men people who will shut up, do what they are told, and get their 15th booster shot to keep their job. My heart goes out to these people, but you all know exactly the type I’m talking about.

The existing system will begin to collapse under a sea of “vaccinated” talent shortages, incompetence, and woke political nonsense.

Hospitals won’t ([and already can’t](#)) find much needed nursing talent. NASA missions will be aborted. Schools won’t be able to find teachers. Businesses who are already having trouble filling open positions will be forced to compete with businesses who don’t pry into your healthcare privacy. You can’t just cut off 80 million people and not expect your business and country to suffer.

The society of obedient regime sheep will chug along for a while, but inevitably it will succumb under the weight of market forces from a growing new parallel society.

Companies without mandates will perform better and get all of the best talent. Doctors will start private practices. Families will begin to homeschool their children. Blue states and major cities will see a mass exodus unlike anything in American history.

All we have to do is say no and start building a new society for ourselves. We need to take control of our own destiny here and do what needs to be done to protect our families and preserve our values and indeed our own humanity.

I believe that God has a plan, as He always does, for what is unfolding on a global scale today. Now more than ever we must keep the faith and do as Christians have always done: survive and thrive. Do you think it was “easy” for the Pilgrims to set out for a new land and start building from scratch? Of course not, but they did it and ended up building the greatest country in the history of the world. Do you think it was “easy” for first century Christians to spread the Gospel? Of course not, but today billions of Christians know that Christ is on the throne because of their work and sacrifice.

In a lot of ways we are the modern Pilgrims of our time, seeking religious freedom and sovereignty to escape the rule of a tyrannical elite who hate us. Their blood runs in our veins, the spirit of their plight is in our hearts, and most importantly their God is our God.

We can and must do this. Force their hand. Band together with other like minded people at your school and work to say: no, we will not comply. Then

start your pilgrimage to a new parallel society where Jesus is King, family values matter, and freedom rings.

To God Be The Glory,

Andrew Torba
