

California Fires – What We Know – By Ralph Epperson

Ralph Epperson is an historian, author, and lecturer who has been researching the CONSPIRATORIAL VIEW OF HISTORY (the view that the major events of the past have been planned years in advance by a central conspiracy) for 50 years. He has written or produced four “best selling” books entitled THE UNSEEN HAND, THE NEW WORLD ORDER, MASONRY: CONSPIRACY AGAINST CHRISTIANITY, JESSE JAMES, UNITED STATES SENATOR, six booklets, and 15 DVDs. – Source: https://www.goodreads.com/author/show/273463.Ralph_Epperson

Ralph Epperson is my Facebook friend. These are his views about the California fires. I cannot verify that the fires were indeed deliberately started using direct energy weapons. You can call it opinion based on circumstantial evidence if you want to, but I think the similarities between the Lahaina fire on Maui in August 2023, and the fires now in southern California are too great to ignore. And I believe Ralph Epperson is an honest credible historian and researcher. He’s now 87 years old and his mind is still sharp as a razor!

From Ralph Epperson’s Facebook post:

- All three fires started at exactly the same time
- Nothing blue is burning.
- Some trees not burning despite houses being reduced to ash.
- Metal rims of cars melting, when they are designed to withstand up to 2500 degrees, and “forest fires” do not get hotter than 2000 degrees.
- No water in dams to feed fire hydrants.
- Strange light anomalies spotted in the sky above L.A.
- Insurance companies cancel fire cover only a few months ago
- We see all the same hallmarks as the fires in Lahaina, Maui
- Like Lahaina, plans for LA to become a Smart City.

CONCLUSION:

Direct Energy Weapons (DEWs) have been used to deliberately destroy parts of Los Angeles in order to facilitate Orwellian / New World Order style Smart Cities.
