Fake “Flat Earth” Conspiracy Finally Outed As C.I.A. Psyop

Flat Earth Kingpin Eric Dubay Exposed as a CIA Asset

By A Freeman

There is a tremendous amount of **unnecessary** confusion today about the shape of the world we live in. Through the use of neuro-linguistics coupled with **fraudulent** and **misleading** imagery (and music) in the form of videos and endless memes, a sustained **disinformation** campaign exploded onto the scene in 2014. These are trademark mind-control tactics that are well-documented and used throughout the “intelligence” communities in programs that have now been exposed like [MK-Ultra](#) and [MK-Naomi](#).

We **KNOW** that the Criminals In Action (CIA) not only have access to weapons of mass distraction and mass deception, but that they control the mainstream media in the U.S., just as their counterparts in the U.K. do. So it really should come as no surprise that this completely **fabricated** (astroturf) FE “movement” is their concoction, and that the main players in FE are government assets or agents.

“Google analytics shows that since November 2014, the search term “Flat Earth” has enjoyed an incredible and never before seen 600% rise in activity! The reason behind the sudden and sharp increase for this key-word is undeniably the publishing of my “Flat Earth Conspiracy” book and documentary pair which were both released in November 2014. The Flat Earth Conspiracy was the first pro-flat Earth book written in almost 50 years...”

–Eric Dubay

The irony is FE thinks it’s blowing the lid off of one government agency

(NASA) while completely ignoring the **fact** that another government agency (the CIA) set up their astronaut **strawman**.

A strawman argument is a **logical fallacy**. People who use logical fallacies do so **because their position is inherently weak and indefensible**. FE proponents who have been duped by this obvious PSYOP regurgitate "NASA lies" ad nauseam, purportedly as proof the Earth is flat, without ever realizing:

- 1) it is a logical fallacy (i.e. **ILLOGICAL**) in both the form of being a non-sequitur statement as well as a strawman they can easily knock down; and
- 2) that they are merely parroting what government-led opposition agents and assets have implanted into their minds using the well-documented tricks of the mind-control trade.

These **extremely** devious people working in the deep-state apparatus of the shadow government have done their homework and are well-aware that it only takes roughly 3-5% of the population awakening to their **evil** plans for society to achieve "critical mass". And when that happens, all hope of their "new world order" and one-world government goes right out the window.

After spending countless sums of **our** money on studies looking into this phenomenon, they needed to ensure their plans for total global domination wouldn't ever reach a level of public awareness that could threaten not only their satanic, narcissistic goals but their very lives.

Their target audience: the "truth" movement. Those who are at least partially awake to the deceptions going on everyday in every government, courtroom, hospital and church/synagogue/mosque/temple, etc. around the world. That's who the parasitic criminal class desperately need to derail to keep an all-out revolution from taking place. A revolution that would inevitably lead to the public lynching of all of these sycophant glove-puppets in public office as well as their pedophile puppet master banksters and the so-called "royalty" including the pope.

☒ Obviously this last resort "ace-in-the-hole" insurance policy would need to be carefully planned years in advance and appear to be "the mother of all conspiracies" while at the same time pose no real threat to their "new" world order. Something innocuous enough to preclude any hope of a mass awakening, while at the same time hamstringing truth seekers with endless debates about something no one can change and that ultimately will help no one avoid the planned chaos and mass extermination that's coming.

Enter the flat Earth "movement". A controlled opposition COINTELPRO psychological operation from day 1, complete with its own books and videos full of **fake** and misleading disinformation, its **fake** internet bloggers, its **fake** followers and **fake** "grass-roots" (i.e. astroturf) movement and **fake** spiritual awakening. A resurrected notion that was so ridiculous it was easily put to rest thousands of years before NASA, Google Earth or computers, by people who were a whole lot more in touch with their true spiritual nature than most are today.

You don't have to believe NASA is telling the truth to recognize that FE is a fraud, specifically designed to infiltrate and take over the CT communities to distract and ultimately **attempt** to destroy the credibility of all conspiracy theories **AND THE BIBLE** (which does **NOT** teach FE).

That's the **REAL** goal of FE, and why it needs to be exposed for what it is: a clever, satanic form of psychological warfare designed to **divide and conquer** by confusing, distracting and controlling the opposition who are slowly but surely learning that **NO government agency is "for" the people.**

Government, like organized religion, is a **CORPORATE BUSINESS**, designed to lie to, steal from, and control the masses, who would otherwise rise up against them and their **evil** leaders and aims.

And government agents and assets, just like their counterparts in organized religion, will continue to deceive the public until their tactics and methods are exposed.

If it looks like a duck, walks like a duck, swims like a duck and quacks like a duck...**it's probably a duck.**

If it looks like a **COINTELPRO PSYOP**, employs a myriad of well-documented signature mind-control tactics, rolls out **fake** and intentionally misleading **DISINFORMATION** in a sustained campaign of books, videos and interviews **FILLED** with outright lies and logical fallacies, and comes out of relative obscurity to do all of this at a critical juncture in human history where the world stands on the precipice of the third and **FINAL** world war...it's a government controlled-opposition job managed by the so-called "intelligence" services.

And **anyone** towing the government line, using the mind-control tricks of the CIA trade, is **obviously** a **trained** agent or asset.
