

Flat Earthers Systematically Being Used To Disrupt And Undermine Truth Movements Everywhere

Introduction

I am saddened to hear that more of my friends and fellow brothers and sisters in Christ fell for what I believe to be a psychological operation, AKA pysop, designed to marginalize them as “science deniers”, “conspiracy theorists” and wackos in general. The name of the pysop is Flat Earth.

If you are a Christian and proclaim the earth is flat, what will unsaved people think about your witness for Jesus Christ? What will they think of your testimony as a Christian? You say you cannot believe everything the World, the government, scientists and NASA is telling you, and I certainly agree! There is much falsehood being proclaimed today in the name of science. At the time of this post, scientists and medical professions calling COVID-19 vaccinations “safe” is one of the most dangerous falsehoods today in my opinion. Why do I believe COVID-19 vaccines are dangerous? Because rather than trust what the government and corporate-owned pharmaceutical companies making billions of \$ from selling the vaccines are telling me, I think listening to what many *other* scientists and medical professions who have endangered their very careers and reputations by telling me [COVID-19 vaccinations will kill me](#) is far more safer, logical and reasonable than listening to profit-seeking cooperations and government agencies which already have a reputation for being dishonest. And why are they dishonest? Because of the love of money and power!

If you believe the earth is flat, I think you will probably agree with me that COVID-19 vaccines are harmful. If you do, I hope you might consider the existence of government-fueled hoaxes which are known as “[cognitive infiltration](#)” that seek to undermine your message that COVID-19 vaccines are harmful, and your testimonial of salvation in Jesus Christ. I am convinced Flat Earth is one of those government-fueled hoaxes. Don’t let government spooks lead you astray!

Cognitive Infiltration

DISCREDITING TRUTH WITH CONSPIRACY HOAXES

BY CASS SUNSTEIN

II. Governmental Responses

What can government do about conspiracy theories? Among the things it can do, what should it do? We can readily imagine a series of possible responses. (1) Government might ban conspiracy theorizing. (2) Government might impose some kind of tax, financial or otherwise, on those who disseminate such theories. (3) Government might itself engage in counterspeech, marshaling arguments to discredit conspiracy theories. (4) Government might formally hire credible private parties to engage in counterspeech. (5) Government might engage in informal communication with such parties, encouraging them to help. Each instrument has a distinctive set of potential effects, or costs and benefits, and each will have a place under imaginable conditions. However, our main policy idea is that government should engage in cognitive infiltration of the groups that produce conspiracy theories, which involves a mix of (3), (4) and (5).

Not *all* science is false! If you claim it to be false, how are you reading this article right now? You're reading it from either your Desktop PC, laptop, smartphone, iPhone, iPad, tablet, or some other device that technology has created. All technology is based on science!

Update! Proof that Flat-earth promoter Eric Dubay is a CIA asset!

The below article is a repost of [The Millennium Report](#) by Revisionist Historians for World Peace.

There is an insidious conspiracy at work throughout the entire Internet which seeks to destroy Truth Movements everywhere. One of its organs of mischief is known as the **Flat Earth Society** (FES) and its explicit purpose is to take down every single truth-oriented website, blog and/or organization which permits an open comment section at the bottom of their posts and articles.

Here's how they work:

Agents of the FES often begin by posting rather benign yet factual comments about NASA, which everyone now knows is a rogue agency which can rarely be trusted to tell the truth about particular scientific endeavors and galactic missions. That's a no-brainer that everyone agrees with—NASA holds onto most of the truth and parcels out only the absolute minimum to the taxpayers who fund their space missions and other assorted projects.

The *Flat Earthers* then take advantage of this universal hatred of NASA for their spewing so much deception over so many years, and they use it to subtly garner support for their nonsensical **Flat Earth Theory** (FET). When the time is right, the *Flat Earthers* will then start introducing utterly absurd notions about the Solar System and patently false concepts about the Earth's relationship to the Sun.

They justify their preposterous sophistry and wacky ideas by routinely outing

NASA as a serially prevaricating government agency, which they are – and then using their well-known deception as a justification to overturn the entire paradigm of modern astrophysics. **Talk about throwing the baby out with the bath water.** There is no astronomical scientific truth that the *Flat Earthers* have left unassailed. You name it – gravity, a spherical Earth and other planetary orbs, rotational movement of the planets. planetary revolutions around the Sun – they throw it all out and label it as “NASA lies”.

Once they do that in a very public Internet forum or chat room, website or blog comment section, they begin to stir up a LOT of trouble. They pre-position sock-puppets in the same forums, blogs, etc, who will, with apparent spontaneity, support their silly and stupid comments about the *Flat Earth Theory* (FET). The longer the comment thread, the more opportunity to draw in the unsuspecting into their outlandish web of deceit and deception.

They do this by presenting some entirely new and quite valid hypotheses which do introduce such concepts that are related to the Electric Universe; or that propose that the Solar System is also moving through space in a manner which defies the conventional scientific wisdom. There are many instances where the current scientific paradigm does completely fall down, by the way, and the FEs use these obvious flaws to take down the whole system of modern thought.

By so aggressively assaulting the conventional wisdom which is accepted by the vast majority of people on the planet, they then tar the reputation of the truth movement groups whose websites they have deliberately polluted with their obvious foolishness concerning their *FLAT EARTH* fantasies.

A Massive CIA Black Operation

Many are now suspicious that these relentless FE initiatives are so organized because they have the backing of those government agencies that do not want the truth (about anything) revealed. The CIA, FBI, DIA, NSA have long employed this signature MO which is determined to kill the messengers of truth anyway they can. Ruining reputations has always been preferred to outright murder, which they also perpetrate when they deem it absolutely necessary. After all, the primary mandate for *The Company* (aka the C.I.A.) is to carry out their covert truth-silencing black operations.

Important Note:

The vast majority of *Flat Earthers* do not even have a clue that they are being used 24/7 to advance a sinister agenda to destroy the various truth movements around the globe. If they did have this awareness, most would leave the whole enterprise in a heartbeat. Like all C.I.A. blackops, they are conducted on a strictly need-to-know basis and in a highly compartmentalized fashion. Just like only the 33 degree Freemason types know anything of the real plots that are afoot in the world, so, too, do those CIA controllers manipulate the *Flat Earthers* from afar. All the CIA ever has to do is effectively control one individual who has been completely programmed to execute their agenda. Others who demonstrate similar vulnerability to the same programming are then chosen to lead the sheep whenever and wherever necessary. The bottom line here is that many *Flat Earthers* are truly seeking the truth. This segue into *Flat Earth* crazyland is but detour they must take

in order to get real after they become aware that they have become profoundly deceived. Everyone takes a similar journey in life as they break free from all the deception which has been brought to bear by the ubiquitous and everpresent *Global Control Matrix*.

Conclusion

How easy is it for a pack of *Flat Earth* jackals to take down an honest truth-seeking website or forum that only looks to uncover the truth. These folks have scripts crafted for every rejection and every response that they face. They have been thoroughly brainwashed to understand the *Flat Earth Theory* as truth, and are mind-controlled to see themselves as modern-day Galileos.

In light of their cohesive organization they have learned how to work in a concerted effort to quickly victimize the unsuspecting. Their primary weapons are little (and big) lies that NASA has told, as well as some glaring gaps in the current astrophysics paradigm. It's true that each successive paradigm has rendered the previous one partially obsolete as the world has evolved from the Newtonian to the Einsteinian to the Quantum to the Electric Universe.

However, that does NOT mean that fire is not hot and does not burn. These *Flat Earthers* would have us all believe even that – that fire is not hot and does not burn – if they could, and much more crazy stuff. Nevertheless, it's critical to understand such crazymaking by certified crazymakers is quite purposeful. For CIA-certified crazymakers such as these always have a covert agenda to execute and specific goals to accomplish. Hence, the challenge for many has been to avoid being caught up in their utterly crazy agenda. Otherwise, if we get caught off guard, we risk missing the gun-grabbing that can occur in the wake of an Orlando false flag mass shooting or the like.

Perhaps an alternative title to this post could be, "A List of Some of the Number One Enemies of the Public". I wrote this assuming you know something about conspiratorial organizations such as Skull and Bones, the Council on Foreign Relations, the Trilateral Commission and other secret societies.

The photo was taken in 2001 and five of the people are now deceased. Some of the people in this photo need no introduction, but I'll include one anyway. I got most of the descriptions of their identity from Wikipedia. This description is by no means complete. If anybody has any more information for me, please share it in the comments section below.

Correct me if I'm wrong but it seems to me that every one of the people in the photo except the lady from South Africa is (or was when alive) a member of the American Democratic party.

From Left to right and top to bottom:

Bill Moyers, (born June 5, 1934) is an American journalist and political commentator of ultra liberally biased PBS News. He served as the ninth White House Press Secretary under the Johnson administration from 1965 to 1967. He was a director of [the Council on Foreign Relations](#), from 1967-1974.

Judy Woodruff (born November 20, 1946) is an American broadcast journalist who has worked in network, cable, and public television news since 1976. She is the anchor and managing editor of PBS NewsHour which is ultra liberally biased. Woodruff has covered every presidential election and convention since 1976. She has interviewed several heads of state and moderated U.S. presidential debates.

Anthony Fauci (born December 24, 1940) is an American physician-scientist and immunologist serving as the director of the National Institute of Allergy and Infectious Diseases (NIAID) and the Chief Medical Advisor to the President. He's also a pathological liar who has changed his position several times on the pandemic. He may be guilty of perjury before Congress. The only reason why he has yet to be prosecuted is because he's protected.

Ted Turner (born November 19, 1938) is an American entrepreneur, television producer, media proprietor, and philanthropist. As a businessman, he is known as the founder of the fake news Cable News Network (CNN), the first 24-hour cable news channel. He wants 95% of the world's population to die off! Quote: "A total world population of 250-300 million people, a 95% decline from

present levels, would be ideal.” – Ted Turner (Reference: <https://www.truthandaction.org/ted-turner-determines-world-population-needs-95-reduction/2/>) Some people think Turner may be one of the sponsors, if not the sponsor, of the [Georgia Guidestones](#).

Bill Gates Sr. (November 30, 1925 – September 14, 2020), was an American attorney, philanthropist, and civic leader. He was the founder of the law firm Shidler McBroom & Gates (a predecessor of K&L Gates). He was the father of Bill Gates, co-founder of Microsoft, and the man behind the push to register every person on the planet at the time of their vaccination from Covid-19, with a digital encryption device planted under their skin. Gates Sr. served on the board of *Planned Parenthood* (PP) during the group’s infancy – a re-branded organization birthed out of the *American Eugenics Society*. Eugenics is a social philosophy that advocates the hereditary improvement of the human race by selective breeding. The Nazis promoted eugenics.

Tom Brokaw (born February 6, 1940) is a American retired network television journalist and author. He first served as the co-anchor of The Today Show from 1976 to 1981 with Jane Pauley, then as the anchor and managing editor of NBC Nightly News for 22 years (1982–2004). At this position he was one of the “Big Three anchors” along with Dan Rather and Peter Jennings – all left-leaning fake news journalists. Tom Brokaw is a member of the Council on Foreign Relations (CFR, “the Swamp”). Reference: <https://www.falseflag.info/wp-content/uploads/2020/11/CFR-Membership-Roster-2020.pdf>

George Soros (born August 12, 1930) is a Hungarian-born American billionaire investor and philanthropist – to leftist causes. He is a CFR member. Reference: <https://www.falseflag.info/wp-content/uploads/2020/11/CFR-Membership-Roster-2020.pdf> He’s also the number one financier of terrorism worldwide and public enemy number one of the American people.

Mamphela Ramphela (born 28 December 1947) is a South African politician, an activist against apartheid, a medical doctor, an academic, and a businesswoman. She is the leader of Agang SA, a political party in South Africa. She’s also managing director of the World Bank.

David Rockefeller, AKA “Mr. Globalist,” (June 12, 1915 – March 20, 2017) was an American banker who served as chairman and chief executive of Chase Manhattan Corporation. He was also the chairman of the [Council on Foreign Relations](#) (CFR), and the Trilateral Commission. He’s responsible for the transfer of trillions of dollars of wealth from working and middle-class citizens in every major industrialized nation in the world.

Barbara Walters (born September 25, 1929) is an American retired broadcast journalist, author, and television personality. Known for her interviewing ability and popularity with viewers, Walters appeared as a host of numerous television programs, including Today, The View, 20/20, and the ABC Evening News. Corey Feldman – who was a child actor in the 1980s – has been claiming that he was abused by important Hollywood figures. In 2014, he was invited on The View to discuss his past experiences in Hollywood. And Barbara Walters

was not amused at all. Indeed, when Feldman told Walters that the “richest, most powerful people in this business” were child abusers, she became visibly distraught. Then, when Feldman warned parents about the dangers of pushing their children into the entertainment industry, Walters’ response was extremely telling: “You’re damaging an entire industry”. David McCullough (born July 7, 1933) is an American author, narrator, popular historian, and lecturer. He is a two-time winner of the Pulitzer Prize and the National Book Award and a recipient of the Presidential Medal of Freedom, the United States’ highest civilian award. McCullough is a member of [Skull and Bones](#).

Irene Diamond (May 7, 1910 – January 21, 2003) was a liberal Hollywood talent scout and later in life a philanthropist. She was a Hollywood elite insider.

Leonore Annenberg (February 20, 1918 – March 12, 2009), also known as Lee Annenberg, was an American businesswoman, diplomat, and philanthropist. She was noted for serving as Chief of Protocol of the United States from 1981 to 1982. The chief of protocol is an officer of the United States Department of State responsible for advising the president of the United States, the vice president of the United States, and the United States secretary of state on matters of national and international diplomatic protocol. Her family owns Columbia Pictures.

Brooke Astor (March 30, 1902 – August 13, 2007) was an American philanthropist, socialite, and writer who was the chairwoman of the Vincent Astor Foundation, which had been established by her third husband, Vincent Astor, son of John Jacob Astor IV and great-great-grandson of America’s first multi-millionaire, John Jacob Astor. [**The Plan to Escape Medical Tyranny – By Andrew Torba**](#)

Andrew Torba is the CEO of gab.com, a social media platform that many have turned to after being censored by Facebook or Twitter for posting information the megarich corporate elite do not want you to know. I find this message encouraging. We do not have to sit back and let the Devil's people walk over us! We should not fear them for they fear us! Jesus told us in Revelation 17:14

These (the Devil's people) shall make war with the Lamb, and the Lamb shall overcome them: for he is Lord of lords, and King of kings: and they that are with him are called, and chosen, and faithful.

Much if not all of the Book of Revelation is symbolic. I think it's possible Christians may be fighting the final battle of Armageddon right NOW against the forces of Antichrist! Joe Biden may not be *the* Antichrist, but he is an antichrist because he is promoting ungodly practices such as abortion.

Many of the people who received either one or two shots are beginning to wake up. They were told by the "experts" that they just needed to get the shot and things would get back to normal. Things are far from normal and now they are being told that they will likely need to get multiple booster shots and [even a pill to treat Covid-19](#).

Thankfully, many of them are taking a stand and fighting back.

On September 10th it was reported that a [New York hospital is going to pause baby deliveries after a "spate of resignations"](#) by maternity unit workers who refused to inject an experimental substance into their bodies.

Over the weekend I received a direct message from a NASA engineer who informed me that "almost all the engineers here have all banded together and are forcing NASA admin to fire them (both vaccinated and unvaccinated alike). NASA is on a hiring freeze, so firing all these folks would essentially kill the Artemis mission."

Many people believed they were "fully vaccinated" after two shots. They trusted the system. They believed things would get "back to normal." They took the shots, often reluctantly, with these things in mind and they are quickly finding out that they've been lied to.

Now they are preparing to be labeled "unvaccinated" again if they refuse to get yet another shot. Look on the bright side: Moderna's shares [jumped 5% on](#)

[news](#) that they revealed a new single shot booster.

Meanwhile tens of millions of Americans face being fired, kicked out of school, removed from our Military, refused medical care, and more for having faith in the immune system God gave them to overcome a virus with a 99%+ survival rate for the overwhelming majority of the population.

This all comes after Pseudo-President Joe Biden [declared war on 80 million](#) (or likely way more) Americans who refused to participate in the biggest lab rat experiment in human history.

I've been writing about concepts like [the need for a parallel economy](#), a parallel internet, and a parallel society throughout all of 2021. But what does that actually look like?

We are about to find out.

If you've already been vaccinated you can join those of us who have not been by refusing to get any of these booster shots. At some point enough of us need to say enough is enough. The way this is going to work is even if you've received two shots already they are going to group you in with us "unvaccinated" people because without the booster you will no longer be "fully vaccinated." So you might as well unite with the rest of us and start building something new.

All of the best, most talented, and smartest people are critical thinkers. They are builders. Doers. They are quickly leaving the existing system. What will be left is low quality talent. The "yes" men people who will shut up, do what they are told, and get their 15th booster shot to keep their job. My heart goes out to these people, but you all know exactly the type I'm talking about.

The existing system will begin to collapse under a sea of "vaccinated" talent shortages, incompetence, and woke political nonsense.

Hospitals won't ([and already can't](#)) find much needed nursing talent. NASA missions will be aborted. Schools won't be able to find teachers. Businesses who are already having trouble filling open positions will be forced to compete with businesses who don't pry into your healthcare privacy. You can't just cut off 80 million people and not expect your business and country to suffer.

The society of obedient regime sheep will chug along for a while, but inevitably it will succumb under the weight of market forces from a growing new parallel society.

Companies without mandates will perform better and get all of the best talent. Doctors will start private practices. Families will begin to homeschool their children. Blue states and major cities will see a mass exodus unlike anything in American history.

All we have to do is say no and start building a new society for ourselves. We need to take control of our own destiny here and do what needs to be done

to protect our families and preserve our values and indeed our own humanity.

I believe that God has a plan, as He always does, for what is unfolding on a global scale today. Now more than ever we must keep the faith and do as Christians have always done: survive and thrive. Do you think it was “easy” for the Pilgrims to set out for a new land and start building from scratch? Of course not, but they did it and ended up building the greatest country in the history of the world. Do you think it was “easy” for first century Christians to spread the Gospel? Of course not, but today billions of Christians know that Christ is on the throne because of their work and sacrifice.

In a lot of ways we are the modern Pilgrims of our time, seeking religious freedom and sovereignty to escape the rule of a tyrannical elite who hate us. Their blood runs in our veins, the spirit of their plight is in our hearts, and most importantly their God is our God.

We can and must do this. Force their hand. Band together with other like minded people at your school and work to say: no, we will not comply. Then start your pilgrimage to a new parallel society where Jesus is King, family values matter, and freedom rings.

[Dr. Lawrence Palevsky Discloses the Dangers and Unknown Risks of Vaccines](#)

Introduction

I think this talk about vaccines by Dr. Palevsky is nothing short of outstanding! He is talking about regular vaccines given to children, which, in my opinion, are harmful but not even nearly as harmful as the Covid-19

vaccines! My first son, Jeremy, was vaccinated at only 5 months old, and he was not a normal child. It was only after Jeremy became older that I found information from the Internet that led me to think Jeremy has a type of autism known as Asperger syndrome. And I firmly believe it was due to the vaccination he received when he was a baby. His brother Timothy was never vaccinated and is normal. Timothy has lots of friends. Jeremy has few friends and is not a social person like Timothy is.

It's my hope that after you listen to or read this talk by Dr. Palevsky that you will question everything you hear from the mainstream media that is called "science". It may not be true science at all, only opinions, assumptions, conjectures, or speculations that are pushed by big corporations whose interest is only in profit for their shareholders, and not in your well-being! If you're a Bible believer, you *know* when you hear scientists talk about Darwin's evolution, they are not talking about real science which is based on observation and measurement. They absolutely refuse to consider God the Creator in the equation in spite of all the evidence that abounds in nature that manifests intelligent design. There is no design without a designer! True science is a quest for knowledge. An honest scientist will follow the evidence wherever it leads.

My name is Dr. Lawrence Palevsky. I'm a pediatrician, originally trained at NYU School of Medicine, graduated in 1987, finished my residency at Mount Sinai Hospital in New York in 1990, did a fellowship at the Bellevue Hospital in the outpatient department. The first nine years of my career were spent in ERs, running an intensive care unit, working in a neonatal intensive care unit, working inpatient in the hospital, working in a clinic and then eventually having a private practice.

In 1983, when I started medical school, I was taught vaccines were safe, and they were effective, but I was not taught about any of the science around their safety, or any of the studies around how safety were done. And it wasn't until 1998 that a mother came up to me and said, "Dr. Larry, did you know that there's mercury in vaccines?" And I said, "No, I did not." And as a medical student, I was trained to critically think. If you see an observation, you go after it, and try and figure out if there's a question to ask. So instead of just ignoring it, I looked further into the vaccine ingredients. And I found that there were a number of vaccine ingredients that in animal studies were proven to be very dangerous to animals. And I didn't understand why these same ingredients were actually in vaccines.

I'm starting to hear stories from parents, not dozens, not hundreds, but 1000s of stories from parents, who took a very healthy child into their doctor's office, and then found that their child lost much of their health, whether it was their speech, whether seizures, whether it was death, whether it was asthma, allergies, eczema, whether it was autism, whether it was learning disabilities, whether it was inflammatory bowel disease, autoimmune diseases. And every one of those parents were told, it had nothing to do with the vaccine, every single one. And this continues today. But yet, when I look

at the ingredients that are in the vaccines, I have the science to actually explain how these medical problems could be happening in these children.

Today, one child in five is learning disabled. In 1976 it was one in 17. One in six under age eight, one in two adolescents, and one in four young adults are diagnosed with a mental behavioral, or emotional disorder. One in 20 children under the age of five have seizures. One child in 40 develops autism. The number of cases of children and adults with autoimmune diseases is rising exponentially. It's one of the highest-rising diseases in this country. And the vaccine ingredients, if you are willing to look at them, and understand how they work when they're injected into the body, can be seen to be responsible for every single one of these cases.

So what are these ingredients? Well, when I was in medical school, we were taught that the body has something called the *blood-brain barrier*. The blood-brain barrier is like Fort Knox to the brain. Elements of the bloodstream cannot get into the brain. And those elements include drugs, viruses, and bacteria, among other things that are in the blood. Drug companies were very concerned about being able to develop drugs to get the drugs into the brain. And so they used something called a nanoparticle, nanoparticle, very small particle, bound to the drug. And they found that **if they could put a nanoparticle onto a drug, they could get that drug to go into the brain**. And it shows in animal studies, that they were able to do this.

They then were able to take an emulsifier which is something that's good with water and fat, it can dissolve in both. And if they added the emulsifier to the nanoparticle bound to the drug, **they could increase drug entry into the brain 20 fold**. This is right out of animal studies that I found. So you have a drug, you have a nanoparticle, and you have this emulsifier. The vaccines are constructed the same way. You have the vaccine viruses and bacteria that are bound to a nanoparticle called aluminum, and that aluminum is a nanoparticle. And by definition, a nanoparticle has the potential to enter the brain.

Most vaccines also contain polysorbate 80, or sorbitol. Both of those compounds are emulsifiers. Emulsifiers bind very tightly to the nanoparticle aluminum, which is bound very tightly to the vaccine antigens. This raises a question: If the vaccine model is the same model as the model that the drug companies are using to enhance the delivery of drugs into the brain, is it possible that vaccine ingredients are making their way into the brain of our children? That could explain why so many parents are watching their kids deteriorate after vaccinations, even though the doctors, the media, and the government say absolutely no connection, even though the science suggests that there is. You cannot find a single study in the literature that addresses whether the injection of aluminum into the body penetrates the brain, whether any vaccine ingredients enter the brain, and whether polysorbate 80 enhances the delivery of any of those ingredients into the brain. And when I could not find those studies, I was concerned, because I'm told you're told vaccines are evaluated, and very, very distinctly tested for safety. But yet, you cannot find a study that says, "Does aluminum get into the brain of children? Does aluminum take other vaccine ingredients into the brain that don't belong in the brain?" Because when ingredients get across

the blood-brain barrier that don't belong in the brain, they cause inflammation. And inflammation is what we see in one in five children with learning disabilities, and one in 40 children with autism. And all you have to do is ask the guidance counselors. And if you get honest pediatricians who are telling you what they're seeing in their practice, they're seeing kids one after another with more and more brain disorders.

Now, as a medical doctor, who was taught to think and then went into the literature, and said, Are proper science studies done? – safety studies – where you take a vaccine and you inject it into 100 kids, and then you give 100 kids a saline placebo, meaning it's inert. No study exists to actually evaluate the safety of a vaccine compared to a placebo group. None.

When vaccines are studied, the maximum amount of days that vaccines are studied are up to 10 days to two weeks. And unfortunately, the vaccine manufacturers preselect what side effects they will allow to be associated with the vaccines. So if a child has a vaccine reaction that is associated with the vaccine, the vaccine manufacturers will decide whether or not it should or should not be associated with a vaccine. And the public knows this, and they're learning it more and more. So if your child develops seizures five months after a vaccine, your child is told by the doctor it had nothing to do with the vaccine. But that's not true. Because there are no studies to prove it. There's opinion, but there's never been a study, really addressing whether a vaccination at two months, or even nine hours of age, could be related to an event that happened months or even years later. And yet we have some of the sickest children in our country.

In New York, we lost the religious exemption on June 13, because the unvaccinated children with a religious exemption were blamed for a measles outbreak. When I met with representatives in New York, I told them that there is no study to prove that unvaccinated children have ever been proven to start an epidemic. And he was surprised and he said, "I will vote against removing the religious exemption if I can't find a study, like you said." He could not find a study, but he voted to repeal the exemption anyway. Because there are no studies. There are no studies proving that unvaccinated children are responsible. There's consensus, and here's why there's consensus:

We are taught that vaccines stop the children from carrying the germs that we are vaccinating against. And **study after study shows that children who are vaccinated can still carry the germ, despite having received the vaccine.** So, the vaccinated are still capable of spreading disease. But **the unvaccinated are being unfairly blamed because of a consensus opinion, but not true science.** To repeat, no study, no science has ever proven that vaccines eliminate the existence of the organism in your body. If anything, science is showing that the vaccines cause the organisms to mutate, and there are plenty of articles showing that strains are replaced by new strains after vaccination, similarly, to the way antibiotics are bringing about new strains of bacteria because of the overuse of antibiotics.

So why are we blaming the unvaccinated children? No study has ever been done in this country appropriately to address the health outcomes of children who are vaccinated, versus the children who are unvaccinated. I have been seeing

families in my practice for over 20 years that have opted out of vaccination. They are the healthiest children I have ever seen. I have families who have older children who have been vaccinated, middle children who have been partially vaccinated, and then younger children who have not been vaccinated at all. And those families are rising in number. And they see the difference between the health outcomes of their younger children who are rarely sick, versus their older children who are getting IDPs (?) in schools, needing medications, ERs and constant health issues. And all I get when I hear that, when I state something like that is, "Well, that's anecdotal." Well, it's anecdotal if you see it a couple of times. But it's not anecdotal when you see it for over 20 years, and when you speak to parents, and when you speak to teachers, and when you speak to guidance counselors.

And when I speak to pediatricians who were too afraid to come out in public, there is pressure to ostracize the families who know the science and know the lack of science that's available. There's a lot of consensus. And when I think about the subject of vaccination, I want to ensure that if we're going to prevent infectious diseases in children, that we don't create something worse in its place.

Unfortunately, we're dealing with a lot of beliefs instead of actual science, and beliefs go a long way. I took the oath of "first do no harm". But when I look into the science, and I don't see long term studies, and I see only short-term studies, up to four to 10 days, where the side effects are manipulated by the manufacturers who are the only ones doing the studies on the vaccines. And when I see no placebo groups, and I see no studies of the single ingredients or the combined ingredients, and I see the science, the biochemistry of the ingredients in animal studies, where animals who are given the aluminum are found to have motor delays and behavioral problems, which is a great deal of what we're seeing in children today, I say, are we first doing no harm? And so, first do no harm means the precautionary principle. And more and more parents are understanding the dangers of vaccines. And that's why we're seeing such pressure to mandate vaccines because more of the science is coming out.

In order to create herd immunity, you have to be able to prove that children who are vaccinated are immune. And the sad part about that is that whenever you vaccinate a population of children, you're always going to have a population that doesn't develop any antibodies at all. The estimates of that are about 10% that vaccines will fail in 10% of the population. Vaccination, no antibody production. But the next group is even more suspicious. Because when you vaccinate, and you do produce an antibody, there is science to show that the presence of an antibody doesn't guarantee immunity either. And we don't know the percentage of children who get a vaccine, develop an antibody, but aren't immune at all. We assume that if we vaccinate, we're getting protection. **We assume that if we vaccinate, we're stopping spread of disease. Those are assumptions that have never been solidified in science.** And I'm happy to offer more explanations during the Q&A. I wouldn't say that if I didn't have the science to prove it.

The parents that I work with a New York that I see around the country are very concerned that their rights are being taken away, that their knowledge

about the science is being pushed away by an agenda that only says unvaccinated children are a problem.

Just to wrap up, in California when they had a measles outbreak, there were 194 cases. Of the 194 cases, 73 cases were due to the actual virus in the vaccine itself. Seventy-three, 38%, 73 cases were due to the measles virus causing measles. All the literature states that measles virus infection is not true measles and should not be counted as a health threat. That means only 121 Kids developed measles, 121 people. New York State did not do the proper testing that's given down by the CDC to test every child to see if the children had measles strain, wild type measles or a mutated measles. There are cases around the country and around the world where in a 95 ~ 98% vaccinated population they had measles outbreaks, because they found mutated viruses. As I said before, there are cases where the virus mutates, where they're strain replacements. New York State did not do the proper testing of the 1000 plus young children and adults who came down with measles. They wrote a little blurb on the CDC website of the two wild viruses that were responsible for the measles outbreak. But we in New York know that the testing was not done. Four thousand two hundred kids on Long Island had the religious exemption and were not vaccinated. And there was not one case of measles on Long Island.

Thank you.

[Kicked off Bitchute for linking to Vatican](#)

Vicar: (From Latin) vicarius, **a substitute**,
Anti: (From Greek) against, opposite, **instead of**,
Vicar of Christ = Anti Christ

This is an opinion piece from my friend Chris Lukas, a conspiracy researcher who I have known for years. He's a Historicist who holds the views of the Protestant Reformation leaders and Bible teachers about eschatology, which, sad to say, are not popular doctrines today. And why? Because English-

speaking evangelical Christians were led astray by false Endtime doctrines taught by John Nelson Darby and C.I. Scofield. They taught a false interpretation of Daniel 9:27 – the [most misinterpreted prophecy in the entire Bible](#)! This false interpretation originally came from Jesuit Francisco Revera, and the reason he cooked up the false interpretation was to take Protestant Christians' eyes off the Pope and papacy as the Biblical antichrist and to look for a future Antichrist at the end of time.

Chris confirms what I have believed for years now, i.e. Satan is using the Vatican / Holy See, as his primary organization to rule the world. There are many other organizations such as the Freemasons, Bilderbergers, Illuminati, Skull, and Bones, Zionist groups, etc., and most conspiracy researchers are aware of them, but very few are aware of the tremendous power of the Vatican and its army of Jesuits around the world. I was raised Catholic. I am aware of the power of the Roman Catholic Church. The American government of now full of Catholics! Don't believe me? Look at the number of Catholics in the Supreme Court – six out of nine are Catholics!

The following are the views of Chris Lukas:

"I think Bitchute won't allow me to upload anymore cause I was linking the Vatican to what is going on. You can talk about COVID. You can talk about the injections. But they seem to favor the blame the Jews crowd.

Also, it's the way I tore down the narratives. I was banned on some platforms for predicting Trump would be in on a potential election rigging, that it would all be a show, that he would pretend to fight it. That got me banned from Twitter.

I had predicted Biden and Harris would be the nominees, and the reason was to make the rigging even more obvious when they did it. The two worst people in the primary. Not sure if it was that video or the one where I was pointing out all the deep state Trump nominated and pointed out he kept renewing the emergency declaration.

These platforms wanted certain narratives pushed. It's not so much vaccine hesitancy that bans you. It's how you attack the narrative. Like I wouldn't get banned if I said the COVID "vaccine" alters your DNA, Jews are behind it, Q and Trump will save us.

There's lots of good info everywhere, but if you don't expose how it's one entity in charge of this fraud and how it can orchestrate it with the whole world, all that good info does little.

My position has always been, there is no telling what is in this "vaccine", only they know. It isn't the mark of the beast, but a cover for the Vatican to target groups it doesn't like. I think this is why they have given the vaccine injuries more publicity. I think they want people to be hesitant.

They already game-planned that certain people wouldn't want it, would be less likely to cave in. That's how the Catholic church can go after the protestants or anyone that hurts its agenda. Now it doesn't have to overtly

be an attack by the Catholic church. People just think “oh, that darn oppressive government”, never making the connection it’s a papal power play.

Messenger RNA Vaccines May Cause Damage to the Cardiovascular System

Transcript of Dr. Bridle interview on *On Point* with Alex Pierson

Alex Pierson: Talking about a lot of science these days! It’s coming out as fast and furious. And a lot of people asking a lot of good questions, you know, the vaccines, are they safe for kids? Certainly, there’s a big push to get kids as young as 12 the shot as soon as possible, but, but everyone’s confident about it, even if you’re not an anti-vaxxer, there are a lot of parents who are kind of nervous about putting something into their kids.

And then I read that there have been several dozen cases of heart problems in teens and young adults, which Israel is now looking into. And what they’re looking into which they’ll release the results of are why mostly males, not all, but around 22 years of age and younger, are getting heart inflammation. So one to four days after getting a shot, they get shortness of breath, fatigue, and some very specific chest pain. It’s mild, so no one’s gotten really sick or died. But you want to know what you don’t know if you’re going to put something into your kids.

Let us bring in Dr. Byram Bridle. He’s an associate professor of viral immunology at the University of Guelph (Ontario, Canada). Doctor, you’ve been very, you know, very open on this whole issue. And you know, you’re not an anti-vaxxer by any stretch, but what do you think about this inflammation in the heart, and is it an actual threat?

Dr. Bridle: Yeah, thanks for having me on, Alex. Yeah, as you said, I’m very much pro-vaccine, but always making sure that the science is done properly, and that we follow the science carefully before going into public rollout of vaccines. I hope you’ll run let me run with this a little bit, Alex. I’ll

forewarn you and your listeners that the story I'm about to tell is a bit of a scary one. This is cutting-edge science.

There's a couple of key pieces of scientific information that I have become privy to just within the past few days that has made the final link. So we understand now, myself and some key international collaborators, we understand exactly why these problems are happening. And many others associate these vaccines. And the story is a bit of a scary one. So just to brace you for this, but I'm going to walk you through this. The science that I'm gonna be talking about. I don't have the time here to describe exactly the scientific data. But let me assure you that everything that I'm stating here that I'm gonna state right now is completely backed up by peer-reviewed scientific publications, and well-known and well-respected scientific journals.

I have all of this information in hand, I'm in the process of mildly trying to put it all into a document that I can hopefully circulate widely. So your listeners are going to be the first to hear the public release of this conclusion, and I can vouch for the science. So this is what it is.

The SARS-coronavirus 2 has a spike protein on its surface. That spike protein is what it allows it to infect our bodies. That is why we have been using the spike protein in our vaccines. The vaccines we're using get our cells in our bodies to manufacture that protein. If we can mount an immune response against that protein, in theory, we can prevent this virus from infecting the body. That's the theory behind the vaccine. However, when studying the disease, severe COVID-19, everything that you've just described heart problems, lots of problems with the cardiovascular system, bleeding and clotting is all associated with severe COVID-19.

And looking and doing that research, what has been discovered by the scientific community is the spike protein on its own is almost entirely responsible for the damage to the cardiovascular system if it gets into circulation. Indeed, if you inject the purified spike protein into the blood of research animals, they get all kinds of damage to the cardiovascular system, and it can cross the blood-brain barrier and cause damage to the brain.

Now at first glance, that doesn't seem too concerning because we're injecting these vaccines into the shoulder muscle. The assumption all up until now has been that these vaccines behave like all of our traditional vaccines that they don't go anywhere other than the injection site, so they stay in our shoulder. Some of the protein will go to the local draining lymph node in order to activate the immune system. However, this is where the cutting edge science has come in this and this is where it gets scary.

Through a request for information from the Japanese regulatory agency, myself and several international collaborators have been able to get access to what's called a bio-distribution study. It's the first time ever that scientists have been privy to seeing where these messenger RNA vaccines go after vaccination. In other words, is it a safe assumption that it stays in the shoulder muscle?

The short answer is absolutely not. It's very disconcerting.

The spike protein gets into the blood, circulates through the blood in individuals, over several days post-vaccination. It accumulates once it gets to the blood and accumulates in a number of tissues such as the spleen, the bone marrow, the liver, the adrenal glands. One particular concern for me is it accumulates at quite high concentrations in the ovaries. And, and then also a publication that was just accepted for a scientific paper just accepted for publication that backs this up, looked at 13 young healthcare workers that had received the Moderna vaccine which is the other messenger-RNA-based vaccine we have in Canada. And they confirm this They found the spike protein in circulation in the blood of 11 of those 13 health care workers that had received the vaccine.

What this means is, so we have known for a long time that the spike protein is a pathogenic protein, it is a toxin, it can cause damage in our body if it gets into circulation. Now, we have clear cut evidence that the vaccines that make our bodies, our muscles or the cells in our in our deltoid muscles, manufacture this protein, that the vaccine itself, plus the protein gets into blood circulation. When in circulation, the spike protein can bind to the receptors that are on our platelets and the cells that line our blood vessels.

When that happens, it can do one of two things. It can either cause platelets to clump, and that can lead to clotting. That's exactly why we've been seeing clotting disorders associated with these vaccines, it can also lead to bleeding. And of course, the heart involved. It's part of a key part of the cardiovascular system. That's why we're seeing heart problems.

The protein can also cross the blood-brain barrier and cause neurological damage. That's why also in the fatal cases of blood clots many times is seen in the brain. And also of concern is there's also evidence of a study – this has not yet been accepted for publication yet, this one – they were trying to show that the antibodies from the vaccine get transferred through breast milk. And the idea was this may be a good thing because it would prefer some passive protection to babies. However, what they found inadvertently was that the vaccines, the messenger RNA vaccines, actually get transferred through the breast milk. So the delivering the vaccine vector itself into infants that are breastfeeding. Also what this note we know spike protein gets into circulation, any proteins in the blood will get concentrated in breast milk. Looking into the adverse event database in the United States, we have found evidence of suckling infants experiencing bleeding disorders in the gastrointestinal tract.

Alex Pierson: So okay, let me pause you there. There are only about 45 seconds left.

Dr. Bridle: Sure, I'll wrap it up this message.

So this has implications for blood donation. Right now Canadian Blood Services are saying that people who have been vaccinated can donate. We don't want the transfer of these pathogenic spike proteins to fragile patients who

were being transfused with that blood. This has implications for infants that are suckling. And this has serious implications for people for whom SARS Coronavirus 2 is not a high-risk pathogen, and that includes all of our children.

In short, the conclusion is, we made a big mistake, we didn't realize it until now, we thought the spike protein was a great target antigen, we never knew the spike protein itself was a toxin and was a pathogenic protein. So by vaccinating people, we are inadvertently inoculating them with a toxin. And some people this gets into circulation. And when that happens in some people, they can cause damage, especially in the cardiovascular system. And I have many other, I don't have time, but many other legitimate questions about the long term safety, therefore, of this vaccine, for example, with it accumulating in the ovaries, one of my questions is, will we be rendering young people infertile, some of them infertile? So I'll stop there. I know it's heavy heading...

Alex Pierson: I'm up against the clock. I need like an hour when I talk to you because you have so much information and of course your one opinion of many, but you know, it's interesting because you have a different look at it. And certainly, the time will tell on this but we'll have you on again because I always get an interesting and different perspective from you. Doctor, thank you.

Dr. Bridle: It was my pleasure. Take care.

[The Ultimate Purpose of the Lockdowns: The Creation of a New Economic System Run by the Global Elite](#)

"Catherine Austin Fitts (born 1950) is an American investment banker and former public official who served as managing director of Dillon, Read & Co.

and as United States Assistant Secretary of Housing and Urban Development for Housing during the Presidency of George H.W. Bush. She has widely written and commented on the subject of public spending and has alleged several large-scale instances of government fraud.” (Source: https://en.wikipedia.org/wiki/Catherine_Austin_Fitts)

This video is an interview with Catherine Austin Fitts. I transcribed the first half of the 48 minutes interview and a gentleman in the Netherlands transcribed the second half. You can read the text quickly to grasp the importance and insightfulness of what Ms. Fitts is saying. I myself prefer reading text because I gain information faster that way than I would by listening to someone on video.

Planet Lockdown

My name is Catherine Austin Fitts. I’m the publisher of the [Solari Report](#) and managing director of Solari Investment Advisory Services.

Interviewer: And what do you think is happening economically as a result of all this?

Catherine Austin Fitts: So what is happening, I just published a huge study called “[The State of our Currencies](#)”, and what I describe is the fact that for many decades the dollar has been the reserve currency. And the system is what I would describe as *long in the tooth* (meaning getting old, often too old for a particular activity or purpose). And the central bankers are trying to bring in a new system but it’s not ready to go yet. And we’re in a period of great change and uncertainty where the central bankers are trying to keep the dollar system going and accelerate. So they’re trying to lengthen the dollar system and then they’re trying to accelerate bringing in the new system. And they have to bring in the new system without anybody quite realizing exactly what it is.

So we’ve had a global reserve currency system, the dollar, and it needs to evolve and change. And it’s long in the tooth. There’s lots of unhappiness with the system and the central bankers are trying to bring a new system. And to do it they’re trying to extend the old and accelerate the new. And it makes it a very chaotic thing since much of the new was being tested and tried and prototyped. And it involves many different industries.

So I describe the new system as the **end of currencies**. We’re not bringing in a new currency, we’re essentially bringing in a new *transaction system* that will be **all digital** and essentially end currencies as we know them. So what they’re trying to do is **involves essentially all the money on the planet**. So it’s big, it’s complicated, it’s messy, and the challenge they have is how do you market a system that if people understood it nobody would want? And of course, the way you do that is **with a health care crisis**.

Interviewer: And why is the health care crisis good for that?

Catherine Austin Fitts: Because generally if a few people want to control the

many, the question is how can you herd all the sheep into the slaughterhouse without them realizing it and resisting? So **the perfect thing is invisible enemies.**

We had the war on terrorism, you know, with invisible terrorists. And then now **a virus is perfect because it's invisible. You can't prove that it doesn't exist because it's invisible.** So invisible enemies are always the preferred ones **particularly if they scare people. If you can use fear and introduce significant fear, then people will need the government to protect them from the invisible enemy.**

Then the second tactic which is very effective is divide and conquer. And so in the meantime, if you can use the media, the media plays a very important role. If you can turn men and women against each other, and Black and White against each other. And one of the reasons you import a lot of immigrants into Europe is turn the general population against the immigrants. And then you need the government to be in the middle. So these are all whether it's divide and tactic, or invisible enemies, these are all ways to institute fear and get people to go along with things.

And of course, the invisible virus allows you to do enormous control mechanisms. You can stop people from gathering, you can stop people from organizing, you can stop people from getting together and talking about what's going on, et cetera et cetera. And if you digitize it with contract tracing, then you can control who's talking to whom. If you can get them to do all their work and education online, you can literally listen to everything they're saying. So **you can institute extraordinary amounts of surveillance all in the theory that we're protecting you from the invisible virus.**

It's very clever. And as you can see it's working with many people, not everybody but many people, to me a lot. And I don't want to us underestimate the ability of the leadership to introduce pathogens that will kill people. And I don't want to suggest that people aren't getting sick, but essentially what you're trying to do is **you're trying to get people to buy into a solution before they see where it's ultimately going to go.** Because you're talking about a transaction system that is no longer a currency, it's a control system.

It's like the credit at the company store. If every central bank comes out with a digital central bank currency, they have the ability to turn your money on and off. So if you don't behave, that's it. And of course, as we know they want to combine this with transhumanism which means literally I take injections that can institute the equivalent of an operating system in my body. And so I'm hooked up to the financial system literally, physically.

Interviewer: What is the actual effect of the lockdown measures?

Catherine Austin Fitts: So what you're doing is you're trying to ... I used to call the Patriot Act the concentration in control of cash flow act. And this is a very similar process. You're trying to dramatically centralize economic and political control.

Let me give you an example. We have 100 small businesses on main street in a community. You declare them non-essential, shut them down. Suddenly Amazon and Walmart and the big box stores can come in and take away all the market share. In the meantime, the people on main street have to keep paying off their credit cards or their mortgage. So they're in a debt entrapment and they're desperate to get cash flow to cover basically their debts and their day-to-day expenses. In the meantime, you have the Federal Reserve institute a form of quantitative easing where they're buying corporate bonds and the guys who are taking up the market share can basically finance at zero to one percent, or their bank can at zero to one percent when everybody in main street is paying 16 to 70 percent of their credit cards without income. So basically now you've got them over a barrel and you can take away their market share. And generally, they can't afford to do what they say because they're too busy trying to find money to feed their kids.

In the 2016 election cycle, we saw the general population support candidates who represented populism in a variety of different ways. Bernie Sanders was a populist relative to the other candidates. Donald Trump was a populist relative to the other candidates. And literally, what the sort of global capital class realized was they had a problem that could be solved by destroying the independent income of small business and sole practitioners and people who had independent forms of income. If you're a doctor, if you're a lawyer, if you're a CPA, and you have your own practice, you are generally gonna support the populist candidates. And so the way to shut the populist candidates down and just shut off their income and support which is you put main street out of business. And then there's nobody to finance a Bernie Sanders or Donald Trump. There's nobody to support him.

Interviewer: So do those the lockdown measures appear to be more of an economic thing than a virus mitigation plan?

Catherine Austin Fitts: So this is an economic war and you've basically had sort of the top one percent. Since April we've seen global billionaires increase their net worth by 27%. Now what that says is this has been a very successful global economic work because what you're having is this sort of global capitalist class, and I shouldn't call it capitalism because it's not. It's much more totalitarianism. It's economic totalitarianism. What you've seen is they've been able to consolidate fantastic amounts of economic wealth not just by deleting the income of the middle class and consolidating it into their companies, but by significantly improving the wealth and power of the largest G7 developed countries and China vis-a-vis the emerging markets. So the countries with the most advanced technology and the access to AI and software, and to the sort of digital systems including through space, are dramatically consolidating economic power vis-a-vis the weaker nations. So we're seeing a consolidation of economic power centralization both into the wealthier and the more powerful nations, the basically top one percent who control them.

So I would describe what Covid-19 is, it's the institution of controls necessary to convert the planet from democratic process to technocracy. What we're watching is a change in control and an engineering of new control systems. Think of this as a coup d'état. It's much more like a coup d'état

than a virus.

For 20 some years in the United States we've had a financial coup d'état. And we knew in at the end of 1995, a decision was made to move much of the assets and money out of the country. That was part of sort of bubbling the global economy of globalization. And they knew that once they'd finished moving all those assets, that they would have to consolidate and change the fundamental system. So after the financial coup, you've stolen all the money in the pension funds, you've stolen all the money in the government. And now rather than turn and tell people, well, we stole your money, you need an excuse that will allow you to consolidate and change the fundamental system. And so you have a Magic Virus. And the Magic Virus is we have to fundamentally change the system. And thanks to the Magic Virus, there's no money in Social Security. Thanks to the Magic Virus, there's no money in the treasury. And you have your perfect magic excuse.

Interviewer: Everything can be blamed on the Magic Virus.

Catherine Austin Fitts: Yeah, the Magic Virus. It's amazing because every implication of the financial coup has been magically solved by the Magic Virus! It's crazy!

If you're a financial person and you look at the world through the mathematics of time and money, it's quite amazing that anybody believes it, but they do. It's part of joining the what CJ Hopkins calls the convenient cult. You join the cult and you say oh yeah yeah yeah well the Magic Virus took all the money from Social Security, the Magic Virus caused our pension funds to not be sufficient blah blah blah blah.

Interviewer: So what do you think the technocracy that we're being towards is gonna look like?

Catherine Austin Fitts: The technocracy that they're pushing towards us is what is called transhumanism. So essentially what you do is you use injections to inject materials into the body that create the equivalent of an operating system. Everybody knows the idea of Microsoft causing you to download an operating system in your computer. That gives Microsoft and a variety of other players a back door into your computer. (Webmaster: That's why I prefer to use GNU/Linux!) And every month or two or three you've got to update it because there are viruses, right? It's back to the Magic Virus that can solve all problems. And so this is a similar system for your body. You inject materials into your body that essentially create the equivalent of an operating system and a receiver, and you can literally hook everybody up to the Cloud. And that includes hooking them up in a way that their transaction system, you know, the Bible calls it the Mark of the Beast – is one way people know this stuff – but you're basically talking about being able to digitally identify and track people in connection with their financial transactions. So it's a world of zero privacy.

But more importantly what's important to understand is if you then institute one or more central bank cryptos, you're now talking about a system where every central bank in the world can shut you off individually from

transacting if they don't like the way you're behaving.

So many people are familiar with the social credit system in China, it's very similar. If you install the smart grid in their car, their community, and now in literally in their body, you've got 24/7 surveillance. And if people don't do what you say and behave the way you want, they can and will shut off your money.

And they'll also have spatial control. If they say you can't travel more than five miles, that's it, because you're in a complete digital control system, and it's controlled by the central bankers through the money. We're digitizing everything but it includes the human body as well and the human mind. So this system comes with complete control, not only of your ability to transact financially which is hooked up to your body but very sophisticated mind control technology through the media and those cloud connections. So basically you're talking about hooking up into the "borg" (contraction for cybernetic organism) if you will. And so transhumanism and technocracy go hand in hand.

Now I would describe this as a slavery system. We're talking about shifting out of freedom where we have freedom to roam and freedom to say what we want into a complete control system 24/7 including mind control. Now the challenge before us is, if the sort of the committee that runs the world, my nickname being Mr. Global, if Mr. Global wants to go to a slavery system, and we want to remain a human civilization, then we have a fundamental disagreement. And that is the disagreement before us.

Interviewer: And we get to the diagrams here.

Catherine Austin Fitts: Okay, so if you look at what's going on, we have the tech people building the clouds and the telecommunications, we have the military doing space and operation warp speed. So they're putting up the satellites, okay, then we have big pharma which is making the injections that are full of these mystery ingredients and change and modify your DNA, and for all we know to make you infertile. And then we have the media pouring out the propaganda. And then we have the central bankers engineering the crypto, the central bank cryptosystems. So you have these different pillars and it's very important when you look at what's going on day to day, particularly in the media. They're trying to keep them separate so that you can't see how they're going to come together in an integrated system which is basically integrated into your body and your mind.

Interviewer: For what purpose?

Catherine Austin Fitts: To institute the slavery system. So in other words, if I am going to do everything through a smart grid and I need to run the smart grid into your neighborhood, and then I need to run the smart grid into your body, the question is how am I going to build it out in your neighborhood and build it on your body without you seeing the trap, right? So that's why you try and keep these different lines separate.

So if you listen to the central bankers, they try as hard as they can to stay

away from these conversations. So it was interesting, I was watching an IMF presentation on cross-border payments, and the Federal Reserve chairman, the head of the IMF mentioned the digital global ID system. And the Federal Reserve chairman almost blanched! You could energetically feel him moving like a galaxy away like, "no no no no"! Because they're 325 million Americans, and they're more than 325 million guns, and he doesn't want everybody to see this until the trap is thrown and it's too late.

Interviewer: We've been put in a trap this year?

Catherine Austin Fitts: Yes right, but the door hasn't shut. So that's why the reason we're talking is because **transparency can blow the game.**

It's interesting because in the beginning of the year when I wrote the article *Injection Fraud* and said Bill Gates is trying to download an operating system in your body just the way you download it your mind, and use the virus as an excuse to have to update it to to make it work for his back door every day, three months later (James) Corbett did a great series on Gates, and several people came out and sort of reaffirmed this. And it was in the Fall Yahoo Finance did a poll and published a poll saying that 44 of Republicans thought Bill Gates wanted to chip them, and I said, "okay we're making progress!" (Laughs) So and that's exactly when Gates sort of disappeared. And they brought out operation warp speed because they needed, and interestingly enough, the person they chose to run operation warp speed was an expert on injectable brain-machine interface. He used to head research at GlaxoSmithKline (a British multinational pharmaceutical company) and he's a brain-machine interface expert.

Interviewer: A creepy resume for that job huh?

Catherine Austin Fitts: It's a perfect resume for that job.

Here's one of the most important developments that happened in 2019. In addition to the approval of the going direct plan by the central bankers in Jackson Hall was the issuance by the Department of Defence of the JEDI Cloud contract to Microsoft. So you had Amazon receive ... Amazon is essentially a CIA

intelligence agency contractor. They started showing a random profit when they entered into major contracts with the CIA to provide the clouds not only for the CIA but all 17 U.S Intelligence agencies through that umbrella cloud contract. So you now have Amazon running the intelligence agencies contract this year. Latos did a big contract or at the end of 2019 Latos did a big contract with the Navy and then DOD did the JEDI contract. (The Joint Enterprise Defense Infrastructure (JEDI) contract is a large United States Department of Defense cloud computing contract which has been reported as being worth \$10 billion.)

And so those three huge cloud contracts give you the ability once you get everybody hooked up into them to radically re-engineer how the cash flows work. So you can literally shut down all small businesses, or almost all small businesses, put everybody in a universal basic income which is basically a control system, and run it all through the military clouds.

Interviewer: So you can see the direction we're headed but it's a little uncertain as to why or?

Catherine Austin Fitts: No, it's simple. Technology gives you the ability to institute a complete control system and further centralize economic and political control. I'll give you a perfect example. The reason the African-American slave trade ended ... there were two reasons in my opinion. One is you couldn't perfect collateral. So the banks in London kept losing money because the plantation owners when the commodities market went down would sell their slaves west, and the banks couldn't go get their collateral. So they would finance the purchase of a slave and say 50 loan to value ratio, and then when the commodities markets down they'd sell the slaves and say they ran away, and the banks would be hung, right? And the banks couldn't prove that you know, Harry was their slave because they had no way of perfecting collateral.

Okay, so that was number one. The second was the Haitians rebelled and the Europeans sent several armies in to try and quell the rebellion and never could. The Haitians were too good. Okay, now if you look at digital technology, you can perfect the collateral. And with space weaponry and the kind of weaponry you have from space and surveillance, you can put down any rebellion, right? So the reason that the slave trade was unbelievably profitable, the history of the world is slavery, is the most profitable business. It's more profitable than mining, it's more profitable than narcotics, I mean it's more profitable than all the addictions. So if you now have the technological capability of implementing slavery, their attitude I think is, "okay, let's do it", right? And part of it is technology also makes it much easier for a small group of people to get together and be very powerful. So for example, if they bring in breakthrough energy technology, the danger is a small group of crazy people can weaponize it. So technology is powerful. The more powerful technology you integrate, the more danger there is you lose control.

Now there are other theories as to why people would want complete control. I'll give you another reason. Given the difficulty of feeding and managing a population that's getting ever larger, if you now have biotechnology that allows Mr. Global to live for 150 years, you can't afford, you can't keep that secret, right? If the wealthier lives for 150 years and we're not, you can't keep that a secret. So why not downsize the population, integrate robots, use robotics for everything, and you can have a very wealthy and luxurious life without all the management headaches, right?

Interviewer: So the kind of breaking of society into different classes or into an Uber class in a vast peasantry mixed with robotics?

Catherine Austin Fitts: Yes, yeah, in other words, what I think's trying to happen here is Mr. Global is using technology to move to a system where between robotics AI and software a few people can control the many with far less headaches and fear. You have to remember Mr. Global is very very afraid of the general population.

Interviewer: Their fear.

Catherine Austin Fitts: Yeah, they're very afraid because if you've been keeping ... several times I'm told the leadership in the United States has gotten together to discuss how can we undo the secrecy. And each time they come to the conclusion it's impossible. You can't undo the secrecy because the liabilities are too enormous. So if you're the Swamp and you're guilty of all the different things the Swamp is guilty of, and you try and open the window on the secrecy you run tremendous risks, tremendous risks. So you're afraid of the general population and the history of governance is the general population occasionally does turn and kill the leadership. So the 325 million people in America, they're more guns. So my guess the reason Jay Powell was backpedaling when the head of the IMF was talking about digital identities is he's sitting there knowing he's got 325 million people and more and a lot of them have guns, and they don't have a lockdown yet.

This is why the Second Amendment is such a fractious issue. Most people around the world don't understand why people in America are so rabid about owning guns, and the first reason they're rabid about earning guns is they don't understand the power of mind control. So if I can institute total mind control which is what the system is, guns aren't that dangerous to me. But the leadership to do what they want to do, it would be very very convenient if they could bring in the guns. And you'll see if the Democrats win this election that's the first thing they're gonna try and do. After making everybody wear face diapers they're gonna they're gonna try and bring in the guns. And this is why the Republicans holding the Senate has been such a big issue because they can't do it if the Republicans hold the Senate.

Interviewer: The election is such a mess, huh?

Catherine Austin Fitts: So here's the thing when I try and tell everybody, because I grew up in Philadelphia, and my first boyfriend's father was a ward leader who used to go out with a roll of cash and buy all the votes every election. So there's an old tradition in America of voting fraud, and what I tell everybody is neither one of these candidates would have been the candidate without the voting fraud, to begin with. So we're in a funny position. But **I've never seen the voting fraud as blatant.** And I think to a certain extent it's interesting they could not have stopped a Trump landslide without Covid-19. So one question I have is how much of the ... because I thought they would do this after the election, how much of the timing of the health care op is basically designed to make sure they don't get a populist president? Not that Trump isn't ... it's hard for me to think of Donald Trump as a populist because he's very much on board for the pro-centralization team, but he's as Michael Moore has said, he's the American people's way of saying F.U. to the leadership. So I think it was very important to them to get rid of Trump which they're trying to do. The problem is they've used massive voter fraud to do it, but they've used the fraud in a way that it's obvious that the fraud is off the charts, and it's almost as though they're turning to the population which they're trying to turn into a cult and saying you have to pretend this guy is the President even though you know he's not. (Laughs) So we have a fake virus and a Magic Virus and a fake president and a magic political system and it's really is getting very cult-like. It's the only thing I can say.

Interviewer: yeah it's almost like a switch is flicked this year and we're in a bizarro world, right?

Catherine Austin Fitts: We've been in a bizarre world from the minute they started to steal the money we moved into a bizarre world.

(Note from the Webmaster: The final 28 minutes of the interview was sent to me from a gentleman in the Netherlands, Mr. Richard Zonneveld. He graciously allowed me to add it to this article.)

Catherine Austin Fitts: And I think the only difference is now as they moved all the money and the official reality moved away from reality even further and further, that's part and parcel of the secrecy, many people thought they could stay on the middle of the road. And now what's clear is you have to go with a cult or you have to go with the truth. The middle of the road is going away. And so everybody has to choose which they want.

Let's go to the riots. Okay so when the riots began and the leadership took the position that you couldn't go to church because of the danger of the Magic Virus, but you could go to the riots and protest, (she laughs) my team and I started to look at the riots. And so first we made if you if you come into Solari there's a database called Covid-19, I think it's Covid-19 riots and Fed, so the first thing we did is we looked at the state, and we looked at the cities, and whether the governor was Democrat or Republican, and then what the Covid cases and deaths were. And then we said, okay, we're going to check a box called riots where riots have been. So we started to look at the patterns of the riots vis-a-vis the machine political machine control, and sort of the Covid Magic Virus op, and there was something wrong when I was looking at the data. I could feel, I'm a very intuitive person, I was saying there's something here. So I said to the wonderful teammate who was building this I said,

"Do me a favor. I want you to put a box called the Federal Reserve, and I want you to check the box. There are 12 banks, one headquarters, and then the branches for a total of 37 locations. I want you to check the box wherever in any city where we have a branch or a bank or the headquarters I want a check."

And what we discovered is 34 of the 37 bank locations have riots. And I said, "Well wait a minute. That's a pattern! (Laughs) There's something here. Let's drill down."

So we started with Minneapolis and we said let's take the data of all the buildings that were harmed or burnt or businesses, and we'll map it, we'll do a GIS software, and we'll map where these businesses were, and how close they were to the Federal Reserve bank. And so the first one we did there's a street going across Minneapolis called Lake, and we mapped them. And one of the things we did when we mapped them was, we drew pictures of where the opportunity zones were. Do you know what an opportunity zone is? An opportunity zone is a tax shelter mechanism created in 2018 to help the tech billionaires as they sold their stock avoid capital gains. So you can if you're Jeff Bezos who sold 10 billion dollars of stock this year, if you were

to rollover your proceeds into opportunity zone investments and handle it in a certain way you could avoid all capital gains tax. So this is fantastically profitable. Now, if you look at the riots when I first saw how all the buildings and businesses destroyed along Lake street were right at the bottom of the opportunity, I started to laugh and I said – I was assistant secretary of housing – “That’s not a riot pattern, that’s a real estate acquisition plan.”

Interviewer: So what are you saying it’s to cheapen the prices in the city?

Catherine Austin Fitts: So I have a thriving series of small businesses a lot owned by African American and Hispanics along a particular boulevard in the opportunity zone. If first I declare the businesses are non-essential and shut them down, right? – Magic Virus – So first I declare them non-essential. Now they’re in real trouble, right? – because they can’t do their business. And then I have riots and burn and damage them. Right? If I was really clever I pulled their insurance right before I did it. I don’t know what the case was but we’ll see. So now their business is shut down, they’re now hung on their debt, right? Whether their mortgage or their credit card, but even worse now their building has been damaged. And of course, insurance doesn’t cover all the repairs and fixing, right? So needless to say, it’s going to be a lot easier and cheaper for me to go in and buy up all those buildings, right? Voila! It’s called disaster capitalism.

So we then mapped, we did Minneapolis, then we mapped Kenosha, then Portland, and now we’re doing a place in Ohio. And the patterns we’re seeing. If you look at the clusters of where the damage is, just speaking as assistant secretary of housing, those are, in my opinion, real estate acquisition plans, completely, especially when they come on top of declaring all those small businesses not essential and shutting them down. We’re restricting them. I’m sure you got a lot of restaurants in there.

(**Interviewer:** Yeah.)

Catherine Austin Fitts: So for example if you look at San Francisco 49 percent of the businesses in San Francisco are expected to be out of business by the end of the year. Do you know how much real estate you’re going to be able to pick up cheap on this? It’s phenomenal! Now when you realize that if they sell their tech stocks high they can pick it up really cheap what’s important to understand is this makes the economics of building the smart grid out in the Fed cities. Remember I said 34 of 37 cities have a Fed bank or branch. So this makes building out the smart grid around the Fed banks much cheaper which I’m assuming you want to do if you’re going to come out with a crypto-system.

Interviewer: Okay.

Catherine Austin Fitts: Okay so Mr. Global is now coming to the point where...

Interviewer: And can you explain who’s Mr. Global?

Catherine Austin Fitts: Yeah. So Mr. Global is my nickname for the committee

that runs the world. The defining characteristic of life on planet earth is our real global governance system is a mystery. And think about it. It's phenomenal we live on a planet and we don't demand to know how our governance system really works, but instead, it's a secret. So I have a lot of high octane conjectures, Dr. (Joseph P.) Farrel would say, about who and what that is but for now we'll call it Mr. Global. So Mr. Global is now implementing robotics. That's one of the new technologies that's really starting to make an enormous difference.

Interviewer: Can you label that?

Catherine Austin Fitts: Okay, so here's our robot, and here's our human. And of course, the question for Mr. Global is which is more efficient doing what? In other words, if I'm supposed to manage the planet and all the natural resources and harvest it to my benefit and make sure my risk is reduced, how much do I want to use robots for and how much do I want to do humans for? Now the brilliance of hooking everybody into the cloud with a crypto-system is, with AI and software, I can have the humans teach the robots to the AI software how to do all their jobs. And in fact, I was at the Aspen Institute of 2017 and I was having a discussion with a venture capitalist, sort of billionaire type, and he looked at me with these amazingly dead eyes and he said, "Look honey, I can take every company completely automated with software and robotics and fire all the humans. We don't need them anymore." I've never talked to anybody who didn't understand the riot part.

(**Interviewer:** uh-huh) Because that's a very typical old game, yeah, especially in poor neighborhoods.

Interviewer: Yeah right.

Catherine Austin Fitts: Do you want me to continue with this? So we have Mr. Global at the top, we have the database and software systems using artificial intelligence. A very important part of this now is the satellite system that's being put up in the orbital platform. And using telecommunications and digital technology you have the ability 24/7 to track and monitor both your humans and your robots. And the question for Mr. Global is what's more efficient? If I can do everything with robots, then what do I do with the humans? I don't need them anymore.

Interviewer: So are we seeing built a kind of human farming or something?

Catherine Austin Fitts: So they would describe it as resource management. If you look at the technocracy, and the writing about technocracy, so many of us describe we're moving from whatever systems we use now to a technocracy. In a technocracy, they view ... you have two different visions of the world. My vision of the world is that humans are sovereign individuals whose freedom comes by Divine authority. That is what the Bill of Rights is, the Declaration of Independence, the Constitution, all revolve around the image of a sovereign individual as someone who is free by Divine authority. In the vision of technocracy, a human is a natural resource, like an oil deposit, and to be used as such. So they're not a sovereign individual, they're labor, and they are either more efficient or less efficient than a robot at different functions. In other words, what I'm saying is Mr. Global views the

human race like livestock, not someone with which they share empathy. And, they don't view us as the same species as them. And in fact, with a lot of biotechnology, they figure they're going to live much longer lives than we do and live very differently than we do. So there's been a real ... one of the challenges with the secrecy as one group becomes more and more technologically advanced, they separate culturally, legally, financially from all the other groups. In other words, they have literally broken away and created a separate civilization. They don't think of themselves as part of our civilization anymore.

Interviewer: And who is "they"?

Catherine Austin Fitts: Well that's the great mystery, and that's why I call this group Mr. Global. And my personal experiences with many different people in that group and factions, but ultimately I can't tell you who really controls. What I will tell you is the planet is run by force. And so ultimately the question is, "Who is the most powerful gun?" And that comes down to space. Who has the most powerful space presence, space weapons, as well as who controls the sea lanes? So traditionally control behind the reserve currency came from control of the sea lanes, but then as we've moved into space, it's now become control of both the sea lanes and the satellite lanes. And the question is, who controls what and who has what weapons? One of the reasons you've seen a very interesting discussion in the United States for the last two years is Trump has been very verbal about Space Force and what is possible in space. And he'll make these allusions to our magical weapons in space at which point the generals look at him very disapproving like, "Don't talk about that!" So the answer is we don't know. We don't know.

What we do know is part of the competition right now between China and America is that the player who has the most dominant position in space has the power to control the whole planet. So the Chinese have a system called the Social Credit System, and they're very much tying their financial transactions and different abilities to travel and do other things to your behavior. And we've seen different TV shows talk about these kinds of systems. But you're talking about a world where, and we see in China, where most people are under 24/7 surveillance, and then their financial incentives and their financial powers relate to how well behaved they are. And I would describe it essentially as a slavery system because there's no personal freedom. So to a certain extent what technocracy will do is move us to a similar kind of system as the Chinese Social Credit System.

Interviewer: Where if you misbehave you can be punished.

Catherine Austin Fitts: Right. So in theory you have to get a certain kind of job to make a certain kind of money in the current system. In the new system, you have to work for a certain kind of company and achieve a certain kind of prominence to be allowed to move more than 10 miles from your home or to be allowed to fly. So there will be a pecking order that relates to your freedoms to either travel or roam, or how many sorts of access you have to resources, how much money you can make. But remember, you're going into a system where if they believe they can automate everything with robotic software and AI it's going to be that much harder for you to share in the

benefits and the wealth of the system because the central group can extract so much more. In other words, they have a one-way mirror, they can see everything you do. You can't even see who they are.

Interviewer: Yeah okay.

Catherine Austin Fitts: What's very important to understand about what is happening is that the majority of people have been ... if we're talking about a transhumanist system or, in short, a slavery system, most of us have been supporting it and financing it and building it. So when I look at all the big pharma executives, why are they building a system where their own children or grandchildren will be slaves? Why are the central banks doing it? Why do they think, you know, there's a theory in America for many years among the certain classes that if I make enough money, I can get a waiver, I can get out of it, I can eat organic food, not eat the GMO's, and my grandkids won't have to take vaccines. But if you look at who's implementing all these different activities, we're building our own slavery system and that means we have the power to stop. In other words, we don't have to finance the companies that are doing this, we don't have to work for the companies that are doing this, and in fact, we don't even have to pay our taxes (**Webmaster:** I don't know about that! I wouldn't challenge the IRS!) because the government is breaking all the laws related to financial management. We have the ability to hold them accountable. So we're building the prison and we're financing the prison and that gives us the power to stop. And that's why it's so important that we see where the system is going. There will be no exceptions.

Interviewer: So what is the solution?

Catherine Austin Fitts: Solution is, number one, bring transparency to what's happening, understand where the system is going, and then stop building it. If you work for big pharma and you're building this, stop! Go find something else to do like build local fresh food systems so you will have food. So stop financing it. Begin the conversation of where this is going and more importantly where we want to go, because we're going to have to rebuild the economy bottom up if we don't want to be highly centralized. So this comes down to I call it coming clean. Once upon a time I was in Washington I was writing a check on my JP Morgan Chase private banking account, and in the meantime I was engaged in 12 different tracks of litigation, litigating with the people who are trying to engineer the housing bubble. I was trying to stop the housing bubble from happening. And I was writing a check on my JP Morgan Chase personal banking account. I realized, why am I banking at the bank that's doing this criminality, that's destroying communities, that's doing predatory lending? And I said I need to come clean. I need to stop banking there. So if tomorrow everybody woke up in America and stopped banking at JP Morgan Chase and said, "You all are criminals! We want nothing to do with you! We're out!" and went to a local credit union or community bank, it would be a revolution. It would be a total revolution! If 20 women turned to big farm executives and said, "You know something? You're disgusting! No sex! Bye! Out the door." It would be a revolution! So we have the power to change this, but we're all going to have to come clean because almost all of us are complicit in implementing this. It's not them, it's us. The solution is for every one of us to come clean. You're either for the

trans-humanist slavery system or you're for a human system. But if you're for a human system then you're gonna have to find a way to make money, and engage socially in a human system, and stop building a trans-human system.

Well, the first thing you have to see is you have to get a good map. In other words, you can't navigate this unless you can see the trans-humanist system that is being built, and who's building it. But if you're involved with ... so let's go back to the pillars. Okay, don't help the military build Operation Warp Speed, okay? Don't help the tech guys figure out how to inject nanoparticles into your body and hook them up to the cloud. Don't help big pharma make injections that are poisoning American children to death. Don't help big agriculture make grow GMO food that is poisoning America to death. Don't help the government institute corrupt sort of health crisis regulations that are really disaster capitalism and making the private equity guys and the billionaires rich, and on and on and on. But if you, I'll just be blunt, get the 'State of our Currencies' and read it, and you'll know who's doing this. I mean, it's pretty obvious who's doing this.

Dr. Simone Gold is the Los Angeles-based doctor who is leading a group called “America’s Frontline Doctors” that held a press conference on COVID-19 on July 27, sparking a controversial viral video that was removed from multiple social media platforms except for Bitchute which does not censor views just because they oppose the mainstream narrative. That video is at the very end of the text of this article.

The video directly below is Dr. Simone Gold's talk to a group of doctors who all agree with her. It's still hosted on YouTube but will probably be deleted any second which is why I am showing the same video which is hosted on Bitchute. It may take time to load. While it does, you can read the text I transcribed from it.

Thank you so much for inviting me. I come to you tonight with a lot of information about the experimental vaccines, what's called the experimental vaccines, regarding Covid-19. I think all of this information will be brand new to you. I know that this was all brand new to me over the last few months, even as a board-certified emergency physician I did not know a lot of what I'm about to share with you.

And I come before you on behalf of America's Frontline Doctors which is a volunteer physician organization that we started specifically **to combat the serious and life-threatening disinformation campaign that has really taken over America and really the entire globe**. It's very very scary stuff.

I've been a doctor for a long time. Before me my father is a doctor. I've never seen anything like this where we have **groups of physicians or scientists and government bureaucrat agencies essentially lying to the American people** and people across the world. I have many many examples. One brief example I'll give you is that the national institute of health right now has as its policy recommendation for patients with Covid-19 stating that unless you're in the hospital requiring oxygen there's no actual treatment available for you. **That is a complete falsehood**, completely false. In most of the world non-first world countries there's plenty of treatment easily available, Hydroxychloroquine, Ivermectin here in America. if you can find a doctor to prescribe it you get those medicines, or Budestinide. There's many options. And you know, this disinformation is why we came public.

When we started to speak out around July a little bit sooner but we got a lot of attention starting in July. we were promptly as the pastor said de-platformed. And it doesn't bother me so much, I know the information, it bothers me tremendously on behalf of all of humanity, right? This is a crime against humanity. There's a physician in the Netherlands who's bringing a lawsuit in the Hague calling it that, calling it a crime against humanity. There is a lot of information you haven't heard. There was a Senate testimony about a month ago. A bunch of doctors went and testified. It was I believe, senator Johnson is the chairman you, can find it on our website America's frontlinedoctors.com. But the doctors testified that the vast majority of deaths in America would have not ever happened, not ever happened. I start with that because you must understand the magnitude of the lie to understand what they're trying to tell you about these experimental vaccines. So we need to just kind of go through that for a little bit.

I know some of you heard this first sentence which I said this morning, but the disinformation was apparent since the beginning, right? We call this illness Covid-19, but its real name should be after the location from where it arose which is Wuhan China. And if you remember it was called the Wuhan virus for a while, a month or so before we discovered the Chinese Communist

Party didn't like that name. They set about putting a lot of pressure on media and other politicians let's say to change it. And they started calling it the coronavirus. They called it the coronavirus because it is actually a coronavirus. But that became very confusing to doctors and scientists because there are seven coronaviruses, this is just number seven. So we used to use the word coronavirus sometimes on our charts when we meant a common cold. A person would come into the ER in my case and they just had a common cold and I would sometimes write coronavirus on the chart as the diagnosis. So it was pretty confusing for doctors and scientists to call it the coronavirus, so they had to change the name again and it became known by its acronym coronavirus disease 2019 Covid-19.

I have to start there because it was never a racist or or weird thing to call it the Wuhan virus, right? There's so many diseases that are named after the location from which they rise. There's Zika and Ebola, there's Middle East respiratory syndrome, Rocky Mounted spotted fever, Lyme disease, I mean the list is endless, German measles, Spanish flu, this list is endless. So you need to understand that deception was there from the very beginning. So that was the first big lie.

The next big popular well-known lie was **the maligning of this common ordinary cheap safe medication called hydroxychloroquine**. Those of you who have traveled abroad who have taken mission trips for example or anybody in the military are quite familiar with this drug. Doctors would just give it out like candy. I know that I was going to take a holiday to Africa about 20 years ago and I was a medical student at the time and they just handed me the pills, here you go, I never asked any questions. It was a big fat nothing burger taking hydroxychloroquine. All of a sudden we started hearing doctors, even as doctors, that hydroxychloroquine is unsafe. You can't understand what's going on with the lies until you understand what an enormous lie this is! Hydroxychloroquine is over the counter in much of the world. It's taken in many African nations. They call it Sunday Sunday medicine because you take it every Sunday. That's like its name Sunday Sunday. People keep it in their pocket the way Americans might keep Tylenol in their purses. It's absolutely ordinary stuff. It was over the counter really in any country which had malaria or any country that had citizens that would visit malaria countries on holiday it was over the counter. For example, it's over the counter in France. The only reason it wasn't over the counter in America is there just wasn't a consumer demand.

In America, we use hydroxychloroquine for two main reasons, lupus, and rheumatoid arthritis, and also for malaria for people going on holiday but generally, it's lupus and rheumatoid arthritis. And for those illnesses patients regularly see physicians so they can get a prescription for it. That's why it was never over the counter here, not because it was unsafe. It's been FDA approved for 65 years. We give it to babies, we give it to children, we give it to pregnant women, we give it to nursing mothers, we give it to the elderly, and we give it to the immune-compromised. Those last two categories take this medication for decades. There's never a pretense that it's not safe. That's the drug that you've been hearing about for nine months now ten months telling you it's unsafe! It's **an incredible lie of**

incredible proportions! Once you understand that you will be suspicious of everything that follows.

So that's where I found myself. There I was in the emergency department treating patients as they came in with Covid-19, and once we had the rapid test so I can confirm the diagnosis, my first patient who I needed to give hydroxychloroquine and zinc, I did it and even knowing the kind of the controversy I really didn't think twice about it. It was fine. I gave it to her, I actually called her the next day. She was so much better. She herself got better within about 12 hours. In about 48 hours she was essentially completely well. This completely matched what I had read in the scientific literature. I knew many doctors have done this. I've read many journals. It was completely consistent. What was really shocking and completely inconsistent was my medical director who calls me the next day and threatens to fire me for doing this, this treatment! I can't even tell you even as I describe this moment to you, it's shocking to me. I remember the case, the situation, the conversation, and he's saying he's going to fire me. And I said, "why would you fire me over this?" "Well, I don't think it works." I said, "well then. Don't prescribe it! You haven't read the science the way I have. I know it works you'll change your mind in a couple of months when you get a little wiser, but why would you get involved with me treating a patient? You do your thing I do my thing that's how medicine is practiced." we are licensed as individuals.

It's actually against the law to have what's called a corporate practice of medicine. It has to be the individual doctor's position. That's why patients go to multiple doctors, right? (Applause) and really the almost the worst part of the conversation was not even that he was ignorant that the drug worked but his reasons for saying that he was going to fire me if I did this and the reason which he put in writing because he wasn't so smart he said it was because the biggest payer at that hospital which is a large insurance company that everyone here has heard of that's back on the West Coast mainly, didn't want us to prescribe it, they were blocking it. So that payer insurance company was pressuring the hospital that their doctor shouldn't do it. It had nothing to do with even if he thought it was good or bad for the patient, **it all had to do with money and payment**. Honestly, I still can't believe I'm relating this story! It was really unbelievable. So he said I could never do that again. I said well good luck with that. So it kept happening. It happened about four or five times. And I kind of knew that my days at that particular hospital were really we're going to be numbered, right? I mean, how long is this going to last?

So I started looking online for other physicians like myself. I knew I couldn't be the only one. And I found the most amazing group of doctors really just brilliant intelligent compassionate kind, and we got together and we called ourselves the America's Frontline Doctors. And what I felt needed to happen was we needed to break this disinformation cycle to which the Americans were all being subjected to, and people across the world as well. So I set up to do something called the White Coat Summit which was an entire day of education. We brought doctors and we brought social media influencers, young people know them as YouTubers. So we brought a whole bunch of YouTubers

and a whole bunch of doctors we brought to Washington. We did seven hours of education and we laid out all the facts, very dispassionate, here are the facts on hydroxychloroquine, here are the facts on lockdowns, here are the facts on masks, here's the facts on schools and kids transmission, here's the facts for the elderly, here's the facts on other treatments other than hydroxychloroquine. And we did that. In the middle of that day, we took a break and we walked over to the supreme court and that was the video that got 20 million views. It gets 20 million views not because I can sing like Beyonce but because human beings recognize truth, we have something inside of us. (Applause) I really emphasize that point because you can't get to 20 million views nobody plans such a thing it's only if people say "oh my gosh you got to listen to this you got to listen to this." you recognize the truth, you recognize the truth. So I guess after a while big tech caught up with the fact that this was like breaking the internet. And so within an hour all of the platforms censored us simultaneously. So it's essentially a monopoly. We're talking about Youtube, Instagram, LinkedIn, Facebook, Twitter, all went down immediately. (Webmaster: It's on Bitchute!) The President had retweeted us, the President's son had retweeted us.

And from that moment on everything really kind of changed. **I did get fired from both of my hospitals.** It is a scary experience to get fired especially when you've worked as long as I have to be a board-certified emergency physician, and that's what I do. I'm a mom, I have kids it's not a comfortable feeling to be fired. You don't know what the future holds. On the other side of this which is now several months, it's really been a blessing, because we doctors have been able to come forward and speak freely and help other doctors who've been put in this situation. There are several of my peers, several doctors in the Americas Frontline Doctors group that have faced tremendous personal pushback. There's a fellow right now in Oregon who refused to force the mask. He won't wear it and he won't force his staff to wear it. If you want to wear it. He was public about it. So the state of Oregon actually yanked his medical license. And when I when he first told me this, I thought this can't be possible because you may not know but I'm also an attorney and it was impossible to conceive of an event like that happening without due process. I mean the whole thing about law if anybody's been involved in the law at all it's all about process. You've got to go through the process. You can't just pull someone's license. You have to have hearings and phone calls and papers filed and all that. I really just thought oh he missed his deadlines, but it was true. They actually just summarily pulled his license. It's unbelievable.

This is 12 minutes and 26 seconds of the 56-minute video. I hope this text inspires you to want to listen to the rest.

Also, see the famous video of the doctors before the Supreme Court!

A History of a Few of the Lies of the Media and Government from 1950

One of my friends called the article on this website, [The COVID-19 Genocide of 2020](#), garbage. Why would she say that? Because the article is in *direct opposition* to the narrative she is hearing from the liberal mainstream media such as MSNBC, NBC, CBS, CNN, ABC, etc., that's why. And even conservative Fox News and Newmax (correct me if I'm wrong) have been advocating vaccinations against COVID-19. The article from Robert Kennedy recommends you do NOT get vaccinated.

I told her one of the things I learned since becoming an adult is to not swallow everything I hear either from the government or the mainstream media. And these days even the *alternative* media is guilty of spreading disinformation!

We should question everything we hear no matter *who* it comes from! The general rule of thumb is, if it's not supported by what the Bible teaches, it's false. Examples: Darwin's evolution, the LGBTQ agenda, abortion called "pro-choice" when it's actually murder, etc.

But even Bible-believing Christians have been conned by things the Bible does not specifically address. Below is a list of lies that have been later acknowledged by the media to be falsehoods, and all my lifetime, since 1950.

- **Lie:** DDT is good for me.

DDT was a pesticide marketed to housewives (and many others). It was later discovered it to be an environmental toxin a carcinogen. One of my friends told me he believes DDT was even the cause of the polio epidemic in the 50s! If so, vaccinations are not the cure for polio.

- **Lie:** "There is no doubt that Saddam Hussein now has weapons of mass destruction." – Vice President Dick Cheney.

"President George W. Bush used the threat of potential WMD in Iraq as justification for the 2003 invasion of Iraq. The claim that Iraq possessed Weapons of Mass Destruction (WMD) was a major factor that led to the invasion of Iraq in 2003 by Coalition forces." (Source https://en.wikipedia.org/wiki/Weapon_of_mass_destruction#United_States_politics)

"Q: Were there really weapons of mass destruction in Iraq when the U.S. invaded in 2003?

A: No. The Iraq Survey Group determined that Iraq had abandoned its quest to develop chemical, biological and nuclear weapons and that it had already destroyed all of its existing stockpiles of chemical and biological weapons." (Source: <https://www.factcheck.org/2008/02/no-wmds-in-iraq/>)

There were no weapons of mass destruction in Iraq at the time of the US invasion of Iraq. It was a government lie to get us to invade that country.

- **Lie:** On August 2, 1964, North Vietnamese PT boats attacked the U.S.S. Maddox in the Gulf of Tonkin.

"The Gulf of Tonkin incident (Vietnamese: Sự kiện Vịnh Bắc Bộ), also known as the USS Maddox incident, was a disputed international

confrontation that led to the United States engaging more directly in the Vietnam War. It involved both a real confrontation and a **fabricated confrontation** between ships of North Vietnam and the United States in the waters of the Gulf of Tonkin. The original American report blamed North Vietnam for both incidents, but the Pentagon Papers, the memoirs of Robert McNamara, and NSA publications from 2005, proved that **the US government lied to justify a war against Vietnam.**" (Source: https://en.wikipedia.org/wiki/Gulf_of_Tonkin_incident)

- **Lie:** "I volunteered at the al-Addan hospital with twelve other women who wanted to help as well. I was the youngest volunteer. The other women were from twenty to thirty years old. While I was there I saw the Iraqi soldiers come into the hospital with guns. **They took the babies out of the incubators, took the incubators and left the children to die on the cold floor.** [Crying] It was horrifying." – 15-year-old Kuwaiti Nayirah's testimony in October 1990, before the Congressional Human Rights Caucus.

Nayirah was revealed to be not just an ordinary civilian but **the daughter of the Kuwaiti Ambassador** to the U.S.

Nayirah's testimony was widely publicized. Hill & Knowlton, which had filmed the hearing, sent out a video news release to Medialink, a firm that served nearly 700 television stations in the United States.

That night, portions of the testimony aired on ABC's "Nightline" and NBC "Nightly News", reaching an estimated audience between 35 and 53 million Americans.

Then-President George Bush and several senators cited the testimony in their affirmations to use force in the war, in the following weeks.

The above info is from

<https://citizentruth.org/fake-news-1990-that-ignited-gulf-war-sympathy/>
As a result of Nayirah's testimony, the media promoting it, and the US government using it as an excuse for the first Gulf war, from 25,000 to 50,000 Iraqis were killed. (According to https://en.wikipedia.org/wiki/Gulf_War)

- **Lie:** The fire which destroyed the Branch Davidian compound in Waco Texas was an act of mass suicide, ordered by Koresh.

Truth: FBI agents fired pyrotechnic tear gas grenades at a storm shelter about 25 yards from the main building several hours before the fire broke out on April 19, 1993. These reports directly contradicted repeated statements by Reno, then FBI Director William Sessions and lower-ranking officials, who all declared that the FBI had used no incendiary weapons in the course of the assault.

Without a doubt there is much much more I can add to this article. I just need more info. Is there anybody out there who will help me? Please feel free to write in the comment section about the things I missed.

Pastor John MacArthur Proves There is NO Pandemic!

Dr. John MacArthur cited a recent CDC report on causes of COVID-19 deaths (Here is the [CDC report in question](#)). Only 6% of people with COVID-19 died *from* COVID-19! The rest died *with* COVID-19 and from other underlining health conditions.

PLANdemic InDOCTORnation

Plandemic video segment from Mikki Willis featuring Dr. Judy Mikovits that expose the truth about the fake Covid-19 pandemic.

Bill Gates' Plan to Vaccinate the World

Bill Gates is pushing everyone to get vaccinated for Covid so he can make more money. He owns much stock in pharmaceutical companies.

Plandemic – Dr. Judy Mikovits Interview Exposing Corruption in the Academic Community

This article is the text from a YouTube that is now banned. It was entitled,

Plandemic The Movie – What you're not being told about Dr. Fauci – Dr. Judy Mikovits, PhD Interview

I extracted the text with an on-line Youtube text extractor, downloaded the Youtube, and then proofread the text adding punctuation, formatting, paragraph breaks, capitalization, and correcting words and spelling. I'm sure it's not perfect but it's certainly more than good enough for you to understand clearly Dr. Mikovits' message. If you find any errors, I will be more than happy to correct them if you tell me about them. You can write in

the comment section below the article.

The interviewer, Mikki Willis, is a former model and actor and filmmaker. Willis, a married father of two, has been a filmmaker for two decades and started his own production company in 2001. He has also been a parent-advocate and supporter of many charitable causes.

I found that Bitchute dot com is still hosting the Plandemic video. I figured out how to embed it in this web article. At the time of this post, it's still live. But even if the video is one day removed from Bitchute, as long I am not removed from this life, the text below the video will stay.

(Mikki Willis:) Dr. Judy Mikovits has been called one of the most accomplished scientists of her generation. Her 1991 doctoral thesis revolutionized the treatment of HIV/Aids. At the height of her career, Dr. Mikovits published a blockbuster article in the journal, Science. The controversial article sent shockwaves to the scientific community, as it revealed that the common use of animal and human fetal tissues were unleashing devastating plagues of chronic diseases.

For exposing their deadly secrets, the minions of Big Pharma waged war on Dr. Mikovits, destroying her good name, career, and personal life. Now as the fate of nations hangs in the balance, Dr. Mikovits is naming names of those behind the plague of corruption that places all human life in danger.

(Mikki Willis:) So you made a discovery that conflicted with the agreed-upon narrative.

(Dr. Mikovits:) (Laughs) Correct!

(Mikki Willis:) And for that, they did everything in their powers to destroy your life.

(Dr. Mikovits:) Correct.

(Mikki Willis:) You were arrested.

(Dr. Mikovits:) Correct.

(Mikki Willis:) And then you were put under a gag order.

(Dr. Mikovits:) For five years. if I went on social media, if I said anything at all, they would find new evidence, and put me back in jail. And it was that one of the few times I cried, and it was because I knew there was no evidence the first time. And they when you can unleash that kind of force to force someone into bankruptcy with a perfect credit score, and so that I couldn't bring my 97 witnesses which included the heads, Tony Fauci, you know, Ian Lipkin, the heads of the public health in HHS who would have had to testify that we did absolutely nothing wrong.

(Mikki Willis:) And so what did they charge you with?

(Dr. Mikovits:) Nothing.

(Mikki Willis:) But you were in jail.

(Dr. Mikovits:) I was held in jail with no charges. I was called a fugitive from justice, no warrant, literally drug me out of the house. Our neighbors are looking at what's going on here. You know, they search my house without a warrant to literally terrorize my husband for five days. They said if you don't find the notebooks if you don't find the material which was not in my possession but planted in my house.

(Mikki Willis:) As if you took intellectual property from the laboratory, is that correct?

(Dr. Mikovits:) Yes. It was intended to appear as if I took confidential material, names, and intellectual property from the laboratory. And I could prove beyond a shadow of a doubt that I didn't. Heads of our entire HHS colluded and destroyed my reputation. And the Department of Justice and the FBI sat on it, and kept that case under seal, which means you can't say there's a case or your lawyers are held in contempt of court, so you can't even get a lawyer to defend you. So every single due process right was taken away from me, and to this day remains the same. I have no constitutional freedoms or rights.

(Mikki Willis:) Yet you sit here. I think a lot of people would probably have just taken the retirement out early, laid low, but you have decided to come

forth when your gag order has been released to write a book called, Plague of Corruption – Restoring Faith in the Promise of Science, and you are naming names.

(**Dr. Mikovits:**) Absolutely.

(**Mikki Willis:**) Apparently their attempt to silence you has failed. And I have to ask how do you sit here with confidence to call out these great forces and not fear for your life as you leave this building?

(**Dr. Mikovits:**) Because if we don't stop this now we can not only forget our Republic and our freedom but we can forget humanity because we'll be killed by this agenda.

(**Mikki Willis:**) So Anthony Fauci, the man who is heading the pandemic task force was involved in a cover-up?

(**Dr. Mikovits:**) He directed the cover-up. And in fact, everybody else was paid off and paid off big time, millions of dollars in funding from Tony Fauci, Tony Fauci's organization National Institute of Allergy and Infectious Disease. These investigators that committed the fraud continue to this day to be paid big time by the NIAID.

(**Mikki Willis:**) And the whole world is listening to his advice on how to handle this current pandemic. How do we know that what he's saying is what we need to be learning?

(**Dr. Mikovits:**) What he's saying is **absolute propaganda**. And the same kind of propaganda that he's perpetrated to kill millions since 1984.

(**Dr. Anthony Fauci:**) We know from this study quite clearly that there will be a delay in progression significantly greater than for individuals who do not take the drug.

(**Dr. Mikovits:**) It started really when I was 25 years old, it was part of the team that isolated HIV from the saliva and blood of the patients from France where Luc Montagnier had originally isolated the virus. This was a confirmatory study. But Tony Fauci and Robert Gallo were working together then to spin the story in a different way. At that time Dr. Resetti was out of town, and Tony Fauci says, "you know, we understand that you have a paper in press, and we want a copy of it." And I said, "yes there's a paper in press, and it's confidential, and no, I will not give you a copy of it." He started screaming at me! Then he said, "give us the paper right now or you'll be fired for insubordination. And I just said, "I'm sure when Dr. Resetti gets back you can have the conversation."

And so Frank comes back, you know, several weeks later, and is really bullied into giving Fauci the paper. Fauci holds up the publication of the paper for several months while Robert Gallo writes his own paper and takes all the credit, and of course, patents are involved. This delay of the confirmation, you know, literally led to spreading the virus around, you know, killing millions!

(**Lady news announcer:**) Perhaps no one expressed the anguish of AIDS better than New York writer Larry Kramer. But he was even more angry at the federal government and the pharmaceutical industry. One person who felt Kramer's fury was NIH Dr. Anthony Fauci.

(**Dr. Mikovits:**) It has still been crushing to me to think that I didn't know my work in 1999 was something that had been avoided from 83 and 82 when the virus was isolated. The virus didn't have to wait until 84 to be confirmed. Think of how many people the entire continent of Africa, you know, lost the generation as that virus was spread through because of the arrogance of a group of people, and it includes Robert Redfield who's now the head of the CDC, right along with Tony Fauci. They were working together to take credit and make money, and they had the patents on it and tailored them to I02 therapy which was absolutely the wrong therapy. And had that not happened, millions wouldn't have died from HIV.

(**Mikki Willis:**) How can a man who's giving, any person who's giving global advice for health, own a patent in the solution in the vaccine? Isn't that a conflict of interest, or shouldn't it be?

(**Dr. Mikovits:**) It is a conflict of interest. And in fact, this is one of the things that I've been saying and would like to say to President Trump, repeal the Bayh-Dole Act. (Bayh-Dole Act or Patent and Trademark Law Amendments Act (Pub. L. 96-517, December 12, 1980) is United States legislation dealing with inventions arising from federal government-funded research.

(**From TV excerpt:**) Bayh-Dole fundamentally changed the way universities approach technology transfer, and you can see that best in the statistics. Universities obtained 16 times as many patents today as they did in 1980. Now everybody's getting more patents but still, universities' share of all patents in the United States is more than five times greater than it was before Bayh-Dole. The situation has gotten so bad that one information technology industry official has publicly referred to universities as "crack addicts" driven by "small-minded tech transfer offices addicted to patents royalties".

(**Dr. Mikovits:**) That Act gave government workers the right to patent their discoveries, so to claim intellectual property for discoveries that the taxpayer paid for. Ever since that happened in the early eighties **it**

destroyed science. And this allowed the development of those conflicts of interests. And this is the crime behind letting somebody like Bill Gates with billions of dollars – nobody elected him – he has no medical background, he has no expertise, but we let people like that have a voice in this country while we destroy the lives of millions of people.

(Bill Gates:) Normalcy only returns when we've largely vaccinated the entire global population.

(Mikki Willis:) If we activate mandatory vaccines globally, I imagine these people stand to make hundreds of billions of dollars that own the vaccines.

(Dr. Mikovits:) And **they'll kill millions** as they already have with their vaccines. There is no vaccine currently on the schedule for any RNA virus that works.

(Mikki Willis:) So I have to ask you, are you anti-vaccine?

(Dr. Mikovits:) Oh absolutely not! I'm, in fact, vaccine is immune therapy just like interferon-alpha is immune therapy. So I'm not anti-vaccine. My job is to develop immune therapies, that's what vaccines are.

(Mikki Willis:) Do you believe that this virus was created in a laboratory?

(Dr. Mikovits:) I wouldn't use the word created, but you can't say naturally-occurring if it was by way of the laboratory. So it's very clear this virus was manipulated, this family of viruses was manipulated and studied in a laboratory where the animals were taken into the laboratory and this is what was released whether deliberate or not. That cannot be naturally-occurring. Somebody didn't go to a market, get a bat, the virus didn't jump directly to humans. That's not how it works. That's accelerated viral evolution. If it was a natural occurrence, it would take it up to 800 years to occur. This occurred from SARS one within a decade. That's not naturally occurring.

(Mikki Willis:) And you have any ideas of where this occurred?

(Dr. Mikovits:) Oh yeah. I'm sure it occurred between the North Carolina laboratories, Fort Detrick US Army Research Institute of infectious disease and the Wuhan laboratory.

(TV announcer:) 3.7 million dollars flowed from the National Institutes of Health here in the U.S. to the Wuhan lab in China, the same lab where many people have said that this corona virus infection first originated. We also now know that NI-AID, the department associated with the National Institutes of Health, of which Dr. Anthony Fauci is in control, had already been conducting experiments with the Wuhan lab in the past in regard to corona virus. If Dr. Anthony Falci cannot be honest with the public about his connection to this lab, then Fauci has to go.

(Dr. Mikovits:) In 1999 I was working in Fort Detrick, and my job was to teach Ebola how to infect human cells without killing them. Ebola couldn't infect human cells until we took it in the laboratories!

(Mikki Willis:) It's hard to ignore the death tolls. People have been dying and they are dying from this in quite alarming numbers. How do you reconcile that?

(Dr. Mikovits:) It's pretty easy when you see for me when you see what the government has done and that is that they took, quoting Dr. Birx: "We've taken a very liberal approach to mortality." (*Meaning, Dr. Birx's doesn't care how many people will die? May the reader interpret what she said.*)

If my husband were to die who has COPD, his lungs have fibrosis, his lungs would look exactly like somebody with COVID-19 theoretically, but he has no evidence of infection. So if you're not testing, and you don't have evidence of infection, and if you walked in there today, you know, they call it COVID-19. And we hear this from the doctors and nurses who are upset.

(Mikki Willis:) I've seen so many doctors online that have made their own web cam videos just perplexed by the protocol that the CDC had given them.

(Doctor:) Well, last Friday I received a seven-page document that sort of told me that if I had an 86 year old patient that had pneumonia but was never tested for COVID-19, but sometime after she came down with pneumonia, we learned that she had been exposed to her son who had no symptoms, but later on was identified with COVID-19, that it would be appropriate to diagnose on the death certificate COVID-19.

(Doctor:) When I'm writing up my death report I'm being pressured to add COVID. Why is that? Why are we being pressured to add COVID? To maybe increase the numbers and make it look a little bit worse than it is? I think so.

(TV interviewer to a doctor:) Why would they want to skew the number of deaths due to COVID-19?

(Doctor:) Well, fear is a great way to control people, and sometimes people this ability to think for themselves is paralyzed if they're frightened enough. And that's not what I want people to be. I want people to say we're gonna get through this. I'm gonna use my head. I'm gonna go to different sources. I'm gonna listen to different sources. And I'm gonna think for myself because that's what America is about.

(Dr. Brix:) If someone dies with COVID-19 we are counting that as a COVID-19 death.

(Dr. Mikovits:) You don't die with an infection. You die from an infection.

(Mikki Willis:) I've talked with doctors who have admitted that they are being incentivized to list patients that are sick or have died with COVID-19.

(Dr. Mikovits:) Yeah, \$13,000 for Medicare if you call it COVID-19.

(TV announcer:) Right now Medicare is determined that if you have a COVID-19 admission to the hospital, you'll get paid \$13,000. if that COVID-19 patient goes on a ventilator, you get thirty nine thousand dollars, three times as

much.

(**Dr. Mikovits:**) And you've killed them with the ventilator because you gave them the wrong treatment.

(**A doctor on video:**) All the things that just don't make sense, the patients I'm seeing in front of me, the lungs I'm trying to improve, have led me to believe that we are operating under a medical paradigm that is untrue. and I fear that this misguided treatment will lead to a tremendous amount of harm to a great number of people in a very short time.

(**Mikki Willis:**) My next question is about Italy. I want to know why Italy was hit so hard.

(**Dr. Mikovits:**) Italy has a very old population. They're very sick with inflammatory disorders they got at the beginning of 2019, an untested new form of influenza vaccine that had four different strains of influenza including the highly pathogenic H1N1. That vaccine was grown in a cell line, a dog cell line, dogs have lots of coronaviruses, and that's why they're not testing there. You could just say, "oh it was that!"

(**News announcer:**) As the country begins emerging from the worst of the corona virus epidemic one question remains. What happened to all the hydroxychloroquine?

(**A doctor:**) We know that hydroxychloroquine and zinc are working great for patients. And then Fauci comes out and says "there's no double-blind control placebo study" which, by the way, Dr. Fauci, is there going to be a double-blind control placebo study of *your vaccine*? Is there?

(**News announcer:**) In a survey polling nearly 2,300 doctors in some 30 countries hydroxychloroquine was ranked as the most effective medication to treat the virus.

(**Dr. Mikovits:**) The AMA was saying you know doctors will lose their license if they use hydroxychloroquine, the anti-malarial drug that's been on the list of essential medicine worldwide for 70 years! Dr. Fauci calls that anecdotal data! It's not storytelling if we have thousands of pages of data saying it's effective against these families of viruses! This is essential medicine, and they keep it from the people, not only now, but back in autism with our discovery, there was an old antiviral drug hundred-year-old drug called seromon on the WHO list of essential medicine. You literally gave kids with autism a voice, a life. What did Bayer and Monsanto do? They took it away from everybody! You couldn't get it to save your life right now. We tried, believe me, every way we could. So when you take away a medicine, and not just the WHO, the FDA, the CDC, Tony Fauci, close everything. **Just end it all and we've got a healthy world again**, and we got tons of money because we can take all that money they're making on their patents and we can give it to the victims of this plague of corruption.

(**Mikki Willis:**) Is it safe to say that anything that cannot be patented has been shut down intentionally because there's no way to profit from it? – All

these natural remedies that we have had forever.

(**Dr. Mikovits:**) Absolutely. That's fair to say. And that's exactly what's going on in COVID-19. **The game is to prevent the therapies until everyone is infected and push the vaccines knowing that the flu vaccines increase the odds by 36 percent of getting COVID-19!**

(**Mikki Willis:**) Where does that data come?

(**Dr. Mikovits:**) From a publication last year where the military who had been vaccinated with influenza were more susceptible to corona viruses. Corona viruses are in every animal. So if you've ever had a flu vaccine, you were injected with corona viruses. and then to put on a mask ...

(**Doctor:**) This doesn't make any sense. We wear masks in an acute setting to protect us. We're not wearing masks. Why is that? Because we understand microbiology, we understand immunology, and we want strong immune systems. Our immune system is used to touching. We share bacteria staphylococcus, staphylococcal bacteria, viruses. We develop an immune response daily to this stuff. When you take that away from me, my immune system drops. As I shelter in place, my immune system drops. You keep me there for months, it drops more. And now I'm at home hand-washing vigorously, washing the counters, worried about things that are indeed what I need to survive.

(**A doctor next to the first doctor:**) You know you're not immunodeficient, and you're not elderly, you should be able to go out without any gloves and without a mask. I think if you are those things you should either set shelter in place or wear a mask and gloves. I don't think everybody needs to wear masks and gloves because **it reduces your bacterial flora**. It doesn't allow you to interact with society and your bacterial flora and your viruses, your friends that protect you from other diseases end up going away, and now you're more likely to get opportunistic infections, infections that are hoping you don't have your good bugs fighting for you if that makes sense.

(**Another doctor:**) And then as we all come out of shelter-in-place with a lower immune system and start trading viruses, bacteria, what do you think is gonna happen? Disease is gonna spike!

(**Another doctor:**) I guarantee when we reopen there's going to be a huge huge amount of illness that's going to be rampant. The building blocks of your immune system is virus and bacteria, end of story.

(**Dr. Mikovits:**) Wearing the mask literally activates your own virus. You're getting sick from your own reactivated corona virus expressions, and if it happens to be SARS-CoV-2, then you've got a big problem.

(**Mikki Willis:**) You're not the first virologist who has told me that we're doing the exact opposite of what we should be doing to contain and to create immunity from this virus.

(**Dr. Mikovits:**) Why would you close the beach? You've got sequences in the soil, in the sand. You've got healing microbes in the ocean in the saltwater. That's insanity! (Thank God the governor of Guam re-opened the beaches!)

(Mikki Willis:) These institutions that are polluting our environment and our bodies, there was a time when they actually had to fight their own battles, but they've done such a great job at manipulating the masses, that it's other people shutting down other citizens, and the big tech platforms follow suit, and they shut everything down. There is no dissenting voices allowed anymore in this free country, which is something I never thought I would live to see.

(Dr. Mikovits:) Nor would I except what I've experienced since 2011. It's beyond comprehension how a society can be so fooled that the types of propaganda continue to where they're just driving us to hate each other. Hopefully, this is the wake-up call of all America to realize this makes no sense, and we win because it will take down the whole program with information like this. And for me it's the great news that the doctors are waking up and saying "wait a minute!"

(Doctor:) You doctors that are watching this and I see a lot of you right here, why are you not getting loud? I'm here to defend you. I'm here to defend my freedoms. I'm here to defend my family's freedoms, my patients rights to choose what to do with their life. I'm just blown away! And I'm blown away why there are not more doctors like me talking about this all over the place. We should be banding together right now! You need to wake up because your liberties are getting taken away from you all because of fake news is out there. This is wrong! People should be going to jail for this stuff.

(Dr. Mikovits:) So it's not the scientists who are in any way dishonest. They're listening to people who for more than 40 years have controlled who gets funded, what gets published, and I'm sorry to say many many people will simply take the money and the fame and that support, things that absolutely aren't true.

(Mikki Willis:) What do you say to the medical professionals that are just beginning to get a glimpse of the depth to which they have been misled and steered away from their oath to do no harm?

(Dr. Mikovits:) I say forgive yourselves. It's the hardest thing to realize for all of us and is that with all the best intentions we studied we learned what we thought was the truth we had no idea that the data that we were being told was true, was not true. We've been taught now in our schools a very different science, you don't get funded if you don't speak the party line you don't get published. That was probably the hardest thing for me to take, is understanding that scientific journals would twist the discovery that should have healed all.

(Lady doctor:) Will the scientific community have the courage to answer the question of whether these diseases might have been of their own creation? Thank you. (Applause)

(Dr. Mikovits:) So what we did pretty much ever since I got out of jail, we started an education company. We wake up doctors. And it's very difficult, but every doctor who realized they may have been part of the problem has now turned that around to march toward a better society and restore faith in the

promise of medicine. That's all we can do.

(**Mikki Willis:**) Well, Dr. Mikovits, thank you so much for your time it's been a real honor to sit here with you and particularly thank you for your courage.

(**Dr. Mikovits:**) Thank You Mikki, I appreciate it a lot.

(**Dr. Anthony Fauci:**) The idea that we are now a few days away from a new administration, given as you heard from the introduction that I have been around for a while and have had the opportunity of serving in five administrations, I thought I would bring that perspective to the topic today as the issue of pandemic preparedness. And if there's one message that I want to leave with you today is that there is no question that there will be a surprise outbreak. ... The thing that we're extraordinarily confident about is that we are going to see this in the next few years. Thank you. (Applause)
