

Celeste Solum – “Wicked Problems”

A wicked problem is a problem that is difficult or impossible to solve because it is either incomplete, it's contradictory and it changes requirements.

Plandemic – Dr. Judy Mikovits Interview Exposing Corruption in the Academic Community

This article is the text from a YouTube that is now banned. It was entitled, **Plandemic The Movie – What you're not being told about Dr. Fauci – Dr. Judy Mikovits, PhD Interview**

I extracted the text with an on-line Youtube text extractor, downloaded the Youtube, and then proofread the text adding punctuation, formatting, paragraph breaks, capitalization, and correcting words and spelling. I'm sure it's not perfect but it's certainly more than good enough for you to understand clearly Dr. Mikovits' message. If you find any errors, I will be more than happy to correct them if you tell me about them. You can write in the comment section below the article.

The interviewer, Mikki Willis, is a former model and actor and filmmaker. Willis, a married father of two, has been a filmmaker for two decades and started his own production company in 2001. He has also been a parent-advocate and supporter of many charitable causes.

I found that Bitchute dot com is still hosting the Plandemic video. I figured out how to embed it in this web article. At the time of this post, it's still live. But even if the video is one day removed from Bitchute, as long I am not removed from this life, the text below the video will stay.

(Mikki Willis:) Dr. Judy Mikovits has been called one of the most accomplished scientists of her generation. Her 1991 doctoral thesis revolutionized the treatment of HIV/Aids. At the height of her career, Dr. Mikovits published a blockbuster article in the journal, Science. The controversial article sent shockwaves to the scientific community, as it revealed that the common use of animal and human fetal tissues were unleashing devastating plagues of chronic diseases.

For exposing their deadly secrets, the minions of Big Pharma waged war on Dr. Mikovits, destroying her good name, career, and personal life. Now as the fate of nations hangs in the balance, Dr. Mikovits is naming names of those behind the plague of corruption that places all human life in danger.

(Mikki Willis:) So you made a discovery that conflicted with the agreed-upon narrative.

(Dr. Mikovits:) (Laughs) Correct!

(Mikki Willis:) And for that, they did everything in their powers to destroy your life.

(Dr. Mikovits:) Correct.

(Mikki Willis:) You were arrested.

(Dr. Mikovits:) Correct.

(Mikki Willis:) And then you were put under a gag order.

(Dr. Mikovits:) For five years. if I went on social media, if I said anything at all, they would find new evidence, and put me back in jail. And it was that one of the few times I cried, and it was because I knew there was no evidence the first time. And they when you can unleash that kind of force to force someone into bankruptcy with a perfect credit score, and so that I couldn't bring my 97 witnesses which included the heads, Tony Fauci, you know, Ian Lipkin, the heads of the public health in HHS who would have had to testify that we did absolutely nothing wrong.

(Mikki Willis:) And so what did they charge you with?

(Dr. Mikovits:) Nothing.

(Mikki Willis:) But you were in jail.

(Dr. Mikovits:) I was held in jail with no charges. I was called a fugitive from justice, no warrant, literally drug me out of the house. Our neighbors are looking at what's going on here. You know, they search my house without a warrant to literally terrorize my husband for five days. They said if you don't find the notebooks if you don't find the material which was not in my possession but planted in my house.

(Mikki Willis:) As if you took intellectual property from the laboratory, is that correct?

(Dr. Mikovits:) Yes. It was intended to appear as if I took confidential material, names, and intellectual property from the laboratory. And I could prove beyond a shadow of a doubt that I didn't. Heads of our entire HHS colluded and destroyed my reputation. And the Department of Justice and the FBI sat on it, and kept that case under seal, which means you can't say there's a case or your lawyers are held in contempt of court, so you can't even get a lawyer to defend you. So every single due process right was taken away from me, and to this day remains the same. I have no constitutional freedoms or rights.

(Mikki Willis:) Yet you sit here. I think a lot of people would probably have just taken the retirement out early, laid low, but you have decided to come forth when your gag order has been released to write a book called, Plague of Corruption – Restoring Faith in the Promise of Science, and you are naming

names.

(**Dr. Mikovits:**) Absolutely.

(**Mikki Willis:**) Apparently their attempt to silence you has failed. And I have to ask how do you sit here with confidence to call out these great forces and not fear for your life as you leave this building?

(**Dr. Mikovits:**) Because if we don't stop this now we can not only forget our Republic and our freedom but we can forget humanity because we'll be killed by this agenda.

(**Mikki Willis:**) So Anthony Fauci, the man who is heading the pandemic task force was involved in a cover-up?

(**Dr. Mikovits:**) He directed the cover-up. And in fact, everybody else was paid off and paid off big time, millions of dollars in funding from Tony Fauci, Tony Fauci's organization National Institute of Allergy and Infectious Disease. These investigators that committed the fraud continue to this day to be paid big time by the NIAID.

(**Mikki Willis:**) And the whole world is listening to his advice on how to handle this current pandemic. How do we know that what he's saying is what we need to be learning?

(**Dr. Mikovits:**) What he's saying is **absolute propaganda**. And the same kind of propaganda that he's perpetrated to kill millions since 1984.

(**Dr. Anthony Fauci:**) We know from this study quite clearly that there will be a delay in progression significantly greater than for individuals who do not take the drug.

(**Dr. Mikovits:**) It started really when I was 25 years old, it was part of the team that isolated HIV from the saliva and blood of the patients from France where Luc Montagnier had originally isolated the virus. This was a confirmatory study. But Tony Fauci and Robert Gallo were working together then to spin the story in a different way. At that time Dr. Resetti was out of town, and Tony Fauci says, "you know, we understand that you have a paper in press, and we want a copy of it." And I said, "yes there's a paper in press, and it's confidential, and no, I will not give you a copy of it." He started screaming at me! Then he said, "give us the paper right now or you'll be fired for insubordination. And I just said, "I'm sure when Dr. Resetti gets back you can have the conversation."

And so Frank comes back, you know, several weeks later, and is really bullied into giving Fauci the paper. Fauci holds up the publication of the paper for several months while Robert Gallo writes his own paper and takes all the credit, and of course, patents are involved. This delay of the confirmation, you know, literally led to spreading the virus around, you know, killing millions!

(**Lady news announcer:**) Perhaps no one expressed the anguish of AIDS better than New York writer Larry Kramer. But he was even more angry at the federal

government and the pharmaceutical industry. One person who felt Kramer's fury was NIH Dr. Anthony Fauci.

(Dr. Mikovits:) It has still been crushing to me to think that I didn't know my work in 1999 was something that had been avoided from 83 and 82 when the virus was isolated. The virus didn't have to wait until 84 to be confirmed. Think of how many people the entire continent of Africa, you know, lost the generation as that virus was spread through because of the arrogance of a group of people, and it includes Robert Redfield who's now the head of the CDC, right along with Tony Fauci. They were working together to take credit and make money, and they had the patents on it and tailored them to I02 therapy which was absolutely the wrong therapy. And had that not happened, millions wouldn't have died from HIV.

(Mikki Willis:) How can a man who's giving, any person who's giving global advice for health, own a patent in the solution in the vaccine? Isn't that a conflict of interest, or shouldn't it be?

(Dr. Mikovits:) It is a conflict of interest. And in fact, this is one of the things that I've been saying and would like to say to President Trump, repeal the Bayh-Dole Act. (Bayh-Dole Act or Patent and Trademark Law Amendments Act (Pub. L. 96-517, December 12, 1980) is United States legislation dealing with inventions arising from federal government-funded research.

(From TV excerpt:) Bayh-Dole fundamentally changed the way universities approach technology transfer, and you can see that best in the statistics. Universities obtained 16 times as many patents today as they did in 1980. Now everybody's getting more patents but still, universities' share of all patents in the United States is more than five times greater than it was before Bayh-Dole. The situation has gotten so bad that one information technology industry official has publicly referred to universities as "crack addicts" driven by "small-minded tech transfer offices addicted to patents royalties".

(Dr. Mikovits:) That Act gave government workers the right to patent their discoveries, so to claim intellectual property for discoveries that the taxpayer paid for. Ever since that happened in the early eighties **it destroyed science**. And **this allowed the development of those conflicts of interests**. And this is the crime behind letting somebody like Bill Gates with

billions of dollars – nobody elected him – he has no medical background, he has no expertise, but we let people like that have a voice in this country while we destroy the lives of millions of people.

(Bill Gates:) Normalcy only returns when we've largely vaccinated the entire global population.

(Mikki Willis:) If we activate mandatory vaccines globally, I imagine these people stand to make hundreds of billions of dollars that own the vaccines.

(Dr. Mikovits:) And **they'll kill millions** as they already have with their vaccines. There is no vaccine currently on the schedule for any RNA virus that works.

(Mikki Willis:) So I have to ask you, are you anti-vaccine?

(Dr. Mikovits:) Oh absolutely not! I'm, in fact, vaccine is immune therapy just like interferon-alpha is immune therapy. So I'm not anti-vaccine. My job is to develop immune therapies, that's what vaccines are.

(Mikki Willis:) Do you believe that this virus was created in a laboratory?

(Dr. Mikovits:) I wouldn't use the word created, but you can't say naturally-occurring if it was by way of the laboratory. So it's very clear this virus was manipulated, this family of viruses was manipulated and studied in a laboratory where the animals were taken into the laboratory and this is what was released whether deliberate or not. That cannot be naturally-occurring. Somebody didn't go to a market, get a bat, the virus didn't jump directly to humans. That's not how it works. That's accelerated viral evolution. If it was a natural occurrence, it would take it up to 800 years to occur. This occurred from SARS one within a decade. That's not naturally occurring.

(Mikki Willis:) And you have any ideas of where this occurred?

(Dr. Mikovits:) Oh yeah. I'm sure it occurred between the North Carolina laboratories, Fort Detrick US Army Research Institute of infectious disease and the Wuhan laboratory.

(TV announcer:) 3.7 million dollars flowed from the National Institutes of Health here in the U.S. to the Wuhan lab in China, the same lab where many people have said that this corona virus infection first originated. We also now know that NI-AID, the department associated with the National Institutes of Health, of which Dr. Anthony Fauci is in control, had already been conducting experiments with the Wuhan lab in the past in regard to corona virus. If Dr. Anthony Falci cannot be honest with the public about his connection to this lab, then Fauci has to go.

(Dr. Mikovits:) In 1999 I was working in Fort Detrick, and my job was to teach Ebola how to infect human cells without killing them. Ebola couldn't infect human cells until we took it in the laboratories!

(Mikki Willis:) It's hard to ignore the death tolls. People have been dying and they are dying from this in quite alarming numbers. How do you reconcile

that?

(Dr. Mikovits:) It's pretty easy when you see for me when you see what the government has done and that is that they took, quoting Dr. Birx: "We've taken a very liberal approach to mortality." (*Meaning, Dr. Birx's doesn't care how many people will die? May the reader interpret what she said.*)

If my husband were to die who has COPD, his lungs have fibrosis, his lungs would look exactly like somebody with COVID-19 theoretically, but he has no evidence of infection. So if you're not testing, and you don't have evidence of infection, and if you walked in there today, you know, they call it COVID-19. And we hear this from the doctors and nurses who are upset.

(Mikki Willis:) I've seen so many doctors online that have made their own web cam videos just perplexed by the protocol that the CDC had given them.

(Doctor:) Well, last Friday I received a seven-page document that sort of told me that if I had an 86 year old patient that had pneumonia but was never tested for COVID-19, but sometime after she came down with pneumonia, we learned that she had been exposed to her son who had no symptoms, but later on was identified with COVID-19, that it would be appropriate to diagnose on the death certificate COVID-19.

(Doctor:) When I'm writing up my death report I'm being pressured to add COVID. Why is that? Why are we being pressured to add COVID? To maybe increase the numbers and make it look a little bit worse than it is? I think so.

(TV interviewer to a doctor:) Why would they want to skew the number of deaths due to COVID-19?

(Doctor:) Well, fear is a great way to control people, and sometimes people this ability to think for themselves is paralyzed if they're frightened enough. And that's not what I want people to be. I want people to say we're gonna get through this. I'm gonna use my head. I'm gonna go to different sources. I'm gonna listen to different sources. And I'm gonna think for myself because that's what America is about.

(Dr. Brix:) If someone dies with COVID-19 we are counting that as a COVID-19 death.

(Dr. Mikovits:) You don't die with an infection. You die from an infection.

(Mikki Willis:) I've talked with doctors who have admitted that they are being incentivized to list patients that are sick or have died with COVID-19.

(Dr. Mikovits:) Yeah, \$13,000 for Medicare if you call it COVID-19.

(TV announcer:) Right now Medicare is determined that if you have a COVID-19 admission to the hospital, you'll get paid \$13,000. if that COVID-19 patient goes on a ventilator, you get thirty nine thousand dollars, three times as much.

(Dr. Mikovits:) And you've killed them with the ventilator because you gave them the wrong treatment.

(A doctor on video:) All the things that just don't make sense, the patients I'm seeing in front of me, the lungs I'm trying to improve, have led me to believe that we are operating under a medical paradigm that is untrue. and I fear that this misguided treatment will lead to a tremendous amount of harm to a great number of people in a very short time.

(Mikki Willis:) My next question is about Italy. I want to know why Italy was hit so hard.

(Dr. Mikovits:) Italy has a very old population. They're very sick with inflammatory disorders they got at the beginning of 2019, an untested new form of influenza vaccine that had four different strains of influenza including the highly pathogenic H1N1. That vaccine was grown in a cell line, a dog cell line, dogs have lots of coronaviruses, and that's why they're not testing there. You could just say, "oh it was that!"

(News announcer:) As the country begins emerging from the worst of the corona virus epidemic one question remains. What happened to all the hydroxychloroquine?

(A doctor:) We know that hydroxychloroquine and zinc are working great for patients. And then Fauci comes out and says "there's no double-blind control placebo study" which, by the way, Dr. Fauci, is there going to be a double-blind control placebo study of *your vaccine*? Is there?

(News announcer:) In a survey polling nearly 2,300 doctors in some 30 countries hydroxychloroquine was ranked as the most effective medication to treat the virus.

(Dr. Mikovits:) The AMA was saying you know doctors will lose their license if they use hydroxychloroquine, the anti-malarial drug that's been on the list of essential medicine worldwide for 70 years! Dr. Fauci calls that anecdotal data! It's not storytelling if we have thousands of pages of data saying it's effective against these families of viruses! This is essential medicine, and they keep it from the people, not only now, but back in autism with our discovery, there was an old antiviral drug hundred-year-old drug called seromon on the WHO list of essential medicine. You literally gave kids with autism a voice, a life. What did Bayer and Monsanto do? They took it away from everybody! You couldn't get it to save your life right now. We tried, believe me, every way we could. So when you take away a medicine, and not just the WHO, the FDA, the CDC, Tony Fauci, close everything. **Just end it all and we've got a healthy world again**, and we got tons of money because we can take all that money they're making on their patents and we can give it to the victims of this plague of corruption.

(Mikki Willis:) Is it safe to say that anything that cannot be patented has been shut down intentionally because there's no way to profit from it? – All these natural remedies that we have had forever.

(Dr. Mikovits:) Absolutely. That's fair to say. And that's exactly what's going on in COVID-19. **The game is to prevent the therapies until everyone is infected and push the vaccines knowing that the flu vaccines increase the odds by 36 percent of getting COVID-19!**

(Mikki Willis:) Where does that data come?

(Dr. Mikovits:) From a publication last year where the military who had been vaccinated with influenza were more susceptible to corona viruses. Corona viruses are in every animal. So if you've ever had a flu vaccine, you were injected with corona viruses. and then to put on a mask ...

(Doctor:) This doesn't make any sense. We wear masks in an acute setting to protect us. We're not wearing masks. Why is that? Because we understand microbiology, we understand immunology, and we want strong immune systems. Our immune system is used to touching. We share bacteria staphylococcus, staphylococcal bacteria, viruses. We develop an immune response daily to this stuff. When you take that away from me, my immune system drops. As I shelter in place, my immune system drops. You keep me there for months, it drops more. And now I'm at home hand-washing vigorously, washing the counters, worried about things that are indeed what I need to survive.

(A doctor next to the first doctor:) You know you're not immunodeficient, and you're not elderly, you should be able to go out without any gloves and without a mask. I think if you are those things you should either set shelter in place or wear a mask and gloves. I don't think everybody needs to wear masks and gloves because **it reduces your bacterial flora**. It doesn't allow you to interact with society and your bacterial flora and your viruses, your friends that protect you from other diseases end up going away, and now you're more likely to get opportunistic infections, infections that are hoping you don't have your good bugs fighting for you if that makes sense.

(Another doctor:) And then as we all come out of shelter-in-place with a lower immune system and start trading viruses, bacteria, what do you think is gonna happen? Disease is gonna spike!

(Another doctor:) I guarantee when we reopen there's going to be a huge huge amount of illness that's going to be rampant. The building blocks of your immune system is virus and bacteria, end of story.

(Dr. Mikovits:) Wearing the mask literally activates your own virus. You're getting sick from your own reactivated corona virus expressions, and if it happens to be SARS-CoV-2, then you've got a big problem.

(Mikki Willis:) You're not the first virologist who has told me that we're doing the exact opposite of what we should be doing to contain and to create immunity from this virus.

(Dr. Mikovits:) Why would you close the beach? You've got sequences in the soil, in the sand. You've got healing microbes in the ocean in the saltwater. That's insanity! (Thank God the governor of Guam re-opened the beaches!)

(Mikki Willis:) These institutions that are polluting our environment and our

bodies, there was a time when they actually had to fight their own battles, but they've done such a great job at manipulating the masses, that it's other people shutting down other citizens, and the big tech platforms follow suit, and they shut everything down. There is no dissenting voices allowed anymore in this free country, which is something I never thought I would live to see.

(Dr. Mikovits:) Nor would I except what I've experienced since 2011. It's beyond comprehension how a society can be so fooled that the types of propaganda continue to where they're just driving us to hate each other. Hopefully, this is the wake-up call of all America to realize this makes no sense, and we win because it will take down the whole program with information like this. And for me it's the great news that the doctors are waking up and saying "wait a minute!"

(Doctor:) You doctors that are watching this and I see a lot of you right here, why are you not getting loud? I'm here to defend you. I'm here to defend my freedoms. I'm here to defend my family's freedoms, my patients rights to choose what to do with their life. I'm just blown away! And I'm blown away why there are not more doctors like me talking about this all over the place. We should be banding together right now! You need to wake up because your liberties are getting taken away from you all because of fake news is out there. This is wrong! People should be going to jail for this stuff.

(Dr. Mikovits:) So it's not the scientists who are in any way dishonest. They're listening to people who for more than 40 years have controlled who gets funded, what gets published, and I'm sorry to say many many people will simply take the money and the fame and that support, things that absolutely aren't true.

(Mikki Willis:) What do you say to the medical professionals that are just beginning to get a glimpse of the depth to which they have been misled and steered away from their oath to do no harm?

(Dr. Mikovits:) I say forgive yourselves. It's the hardest thing to realize for all of us and is that with all the best intentions we studied we learned what we thought was the truth we had no idea that the data that we were being told was true, was not true. We've been taught now in our schools a very different science, you don't get funded if you don't speak the party line you don't get published. That was probably the hardest thing for me to take, is understanding that scientific journals would twist the discovery that should have healed all.

(Lady doctor:) Will the scientific community have the courage to answer the question of whether these diseases might have been of their own creation? Thank you. (Applause)

(Dr. Mikovits:) So what we did pretty much ever since I got out of jail, we started an education company. We wake up doctors. And it's very difficult, but every doctor who realized they may have been part of the problem has now turned that around to march toward a better society and restore faith in the promise of medicine. That's all we can do.

(**Mikki Willis:**) Well, Dr. Mikovits, thank you so much for your time it's been a real honor to sit here with you and particularly thank you for your courage.

(**Dr. Mikovits:**) Thank You Mikki, I appreciate it a lot.

(**Dr. Anthony Fauci:**) The idea that we are now a few days away from a new administration, given as you heard from the introduction that I have been around for a while and have had the opportunity of serving in five administrations, I thought I would bring that perspective to the topic today as the issue of pandemic preparedness. And if there's one message that I want to leave with you today is that there is no question that there will be a surprise outbreak. ... The thing that we're extraordinarily confident about is that we are going to see this in the next few years. Thank you. (Applause)

(End of part 1 of Plandemic)

[2010 Rockefeller Foundation Paper Outlines 2020 Pandemic](#)

Scenario Narratives

LOCK STEP

A world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen pushback

Lock Step

In 2012, the pandemic that the world had been anticipating for years finally hit. Unlike 2009's H1N1, this new influenza strain – originating from wild geese – was extremely virulent and deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months, the majority of them healthy young adults. The pandemic also had a **deadly effect on economies**: international mobility of both people and goods screeched to a halt, **debilitating industries like tourism** and breaking global supply chains. Even **locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.**

The pandemic blanketed the planet – though disproportionate numbers died in Africa, Southeast Asia, and Central America, where the virus spread like wildfire in the absence of official containment protocols. But even in developed countries, containment was a challenge. The United States's initial policy of "strongly discouraging" citizens from flying proved deadly in its leniency, accelerating the spread of the virus not just within the U.S. but across borders. However, a few countries did fare better – China in particular. The Chinese government's quick imposition and enforcement of mandatory quarantine for all citizens, as well as its instant and near-hermetic sealing off of all borders, saved millions of lives, stopping the

spread of the virus far earlier than in other countries and enabling a swifter post- pandemic recovery.

China's government was not the only one that **took extreme measures** to protect its citizens from risk and exposure. During the pandemic, **national leaders around the world flexed their authority** and imposed airtight rules and restrictions, from the **mandatory wearing of face masks** to body-temperature checks at the entries to communal spaces like train stations and supermarkets. **Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified.** In order to protect themselves from the spread of increasingly global problems – from pandemics and transnational terrorism to environmental crises and rising poverty – leaders around the world took a firmer grip on power.

At first, the notion of a more controlled world gained wide acceptance and approval. **Citizens willingly gave up some of their sovereignty – and their privacy – to more paternalistic states in exchange for greater safety and stability.** Citizens were more tolerant, and even eager, for top-down direction and oversight, and **national leaders had more latitude to impose order in the ways they saw fit.** In developed countries, this heightened oversight took many forms: biometric IDs for all citizens, for example, and tighter regulation of key industries whose stability was deemed vital to national interests. In many developed countries, enforced cooperation with a suite of new regulations and agreements slowly but steadily restored both order and, importantly, economic growth.

Across the developing world, however, the story was different – and much more variable. Top-down authority took different forms in different countries, hinging largely on the capacity, caliber, and intentions of their leaders. In countries with strong and thoughtful leaders, citizens' overall economic status and quality of life increased. In India, for example, air quality drastically improved after 2016, when the government outlawed high-emitting vehicles. In Ghana, the introduction of ambitious government programs to improve basic infrastructure and ensure the availability of clean water for all her people led to a sharp decline in water-borne diseases. But more authoritarian leadership worked less well – and in some cases tragically – in countries run by irresponsible elites who used their increased power to pursue their own interests at the expense of their citizens.

There were other downsides, as the rise of virulent nationalism created new hazards: spectators at the 2018 World Cup, for example, wore bulletproof vests that sported a patch of their national flag. Strong technology regulations stifled innovation, kept costs high, and curbed adoption. In the developing world, access to “approved” technologies increased but beyond that remained limited: the locus of technology innovation was largely in the developed world, leaving many developing countries on the receiving end of technologies that others consider “best” for them. Some governments found this patronizing and refused to distribute computers and other technologies that they scoffed at as “second hand.” Meanwhile, developing countries with more resources and better capacity began to innovate internally to fill these gaps on their own.

Meanwhile, in the developed world, the presence of so many top-down rules and norms greatly inhibited entrepreneurial activity. Scientists and innovators were often told by governments what research lines to pursue and were guided mostly toward projects that would make money (e.g., market-driven product development) or were “sure bets” (e.g., fundamental research), leaving more risky or innovative research areas largely untapped. Well-off countries and monopolistic companies with big research and development budgets still made significant advances, but the IP behind their breakthroughs remained locked behind strict national or corporate protection. Russia and India imposed stringent domestic standards for supervising and certifying encryption-related products and their suppliers – a category that in reality meant all IT innovations. The U.S. and EU struck back with retaliatory national standards, throwing a wrench in the development and diffusion of technology globally.

Especially in the developing world, acting in one’s national self-interest often meant seeking practical alliances that fit with those interests – whether it was gaining access to needed resources or banding together in order to achieve economic growth. In South America and Africa, regional and sub-regional alliances became more structured. Kenya doubled its trade with southern and eastern Africa, as new partnerships grew within the continent. China’s investment in Africa expanded as the bargain of new jobs and infrastructure in exchange for access to key minerals or food exports proved agreeable to many governments. Cross-border ties proliferated in the form of official security aid. While the deployment of foreign security teams was welcomed in some of the most dire failed states, one-size-fits-all solutions yielded few positive results.

By 2025, people seemed to be growing weary of so much top-down control and letting leaders and authorities make choices for them. Wherever national interests clashed with individual interests, there was conflict. Sporadic pushback became increasingly organized and coordinated, as disaffected youth and people who had seen their status and opportunities slip away – largely in developing countries – incited civil unrest. In 2026, protestors in Nigeria brought down the government, fed up with the entrenched cronyism and corruption. Even those who liked the greater stability and predictability of this world began to grow uncomfortable and constrained by so many tight rules and by the strictness of national boundaries. The feeling lingered that sooner or later, something would inevitably upset the neat order that the world’s governments had worked so hard to establish. •

[EXCLUSIVE Dr Rashid Buttar BLASTS Gates, Fauci, EXPOSES Fake Pandemic Numbers As Economy Collapses](#)

Dr. Rashid Buttar exposes the Covid pandemic as a moneymaking scam.

[God Our Shield – Protection from the Coronavirus](#)

We are fighting an unseen enemy that spreads from person to person. Our health is not only dependent on how strong we are physically, but spiritually as well. The Devil is throwing darts of the Coronavirus at us. We should ask the Lord Jesus to shield us from it!

Twenty Scriptures we can claim for God to shield us from the virus:

Genesis 15:1 After these things the word of the LORD came unto Abram in a vision, saying, Fear not, Abram: I am thy **shield**, and thy exceeding great reward.

Deuteronomy 33:29 Happy art thou, O Israel: who is like unto thee, O people saved by the LORD, the **shield** of thy help, and who is the sword of thy excellency! and thine enemies shall be found liars unto thee; and thou shalt tread upon their high places.

2 Samuel 22:3 The God of my rock; in him will I trust: he is my **shield**, and the horn of my salvation, my high tower, and my refuge, my saviour; thou savest me from violence.

2 Samuel 22:36 Thou hast also given me the **shield** of thy salvation: and thy gentleness hath made me great.

Psalms 3:3 But thou, O LORD, art a **shield** for me; my glory, and the lifter up of mine head.

Psalms 5:12 For thou, LORD, wilt bless the righteous; with favour wilt thou compass him as with a **shield**.

Psalms 18:35 Thou hast also given me the **shield** of thy salvation: and thy right hand hath holden me up, and thy gentleness hath made me great.

Psalms 28:7 The LORD is my strength and my **shield**; my heart trusted in him, and I am helped: therefore my heart greatly rejoiceth; and with my song will I praise him.

Psalms 33:20 Our soul waiteth for the LORD: he is our help and our **shield**.

Psalms 59:11 Slay them not, lest my people forget: scatter them by thy power; and bring them down, O Lord our **shield**.

Psalms 84:9 Behold, O God our **shield**, and look upon the face of thine anointed.

Psalms 84:11 For the LORD God is a sun and **shield**: the LORD will give grace and glory: no good thing will he withhold from them that walk uprightly.

Psalms 91:4 He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy **shield** and buckler.

Psalms 115:9 O Israel, trust thou in the LORD: he is their help and their **shield**.

Psalms 115:10 O house of Aaron, trust in the LORD: he is their help and their **shield**.

Psalms 115:11 Ye that fear the LORD, trust in the LORD: he is their help and their **shield**.

Psalms 119:114 Thou art my hiding place and my **shield**: I hope in thy word.

Psalms 144:2 My goodness, and my fortress; my high tower, and my deliverer; my **shield**, and he in whom I trust; who subdueth my people under me.

Proverbs 30:5 Every word of God is pure: he is a **shield** unto them that put their trust in him.

Ephesians 6:16 Above all, taking the **shield** of faith, wherewith ye shall be able to quench all the fiery darts of the wicked.
