

Why I stopped listening to Alex Jones

I'm very concerned about the attitudes and mindsets of some of my friends who regularly listen to radio talk show host Alex Jones. I used to like Alex Jones, and once greatly admired his courage for crashing the [Bohemian Grove](#) during one of its annual get-togethers of the elite. I thought he was great for filming the "Cremation of Care" ceremony. Now I think it all have may been a set-up. He could have been justifiably shot for trespassing at any time! Why was he not afraid of that? I believe he had **promises beforehand** that he wouldn't be attacked. I never heard of any litigation brought against him for it. Was there any? Well, that's my little "conspiracy theory" if you will, but the following is not theory; it's history and verifiable facts:

Alex Jones falsely proclaimed to the world that Y2K was destroying a town:

Twenty to 40,000 civilians trapped in the city ... tanks are being blown to bits, massive broad unguided rocket attacks are being launched massively from the city indiscriminately right now, air and artillery bombardments as well. It is absolutely out of control. It is pandemic ladies and gentlemen. ..." – Quoted from Jones' radio broadcast.

The American patriot and one of my heroes, William Cooper, didn't like Alex Jones and exposed his Y2K fear mongering tactics on one of his [shortwave radio broadcasts](#). I believe William Cooper was a sincere truth teller who paid the price for his faithful broadcasting of truth with martyrdom. How many times has Alex Jones been persecuted and beat up to the point of being hospitalized? William Cooper was.

The Youtube clip below shows Alex Jones rudely disrupting a peaceful rally led by an American patriot proclaiming the same message Jones himself claims to hold!

“The alter ego of Alex Jones got the better of him today in Austin. Two minutes into an organized rally at the steps of the Austin Police Department, Alex shows up and immediately starts bullhorning over the speech of local patriot, John Bush.” (From <http://wideeyecinema.com/?p=7334>)

Some of my friends who listen to Alex Jones, and who knew political reality from decades ago, seem to actually believe that Ron Paul, if elected U.S. President, could turn around the negative foreign and domestic policies America has had since close to the beginning of the 20th century and improve the well being of the American people. With all the true information they had 30 years ago, I do think they should know better! No one man can turn around that country, not even with the help of all his friends. The enemy has infiltrated far too deeply. If Paul even came close to winning in a presidential campaign, I would smell a rat. Paul would need massive support of the Mass Media and Elite to be a viable contender for the presidency. And if he won, would he actually fulfill his present vision for the country? If he tried, he would suffer the same fate as JFK did in no time.

An excellent resource I found is [Who is Alex Jones?](#)

One of the comments on that page says:

AJ's duty is to serve his masters by conducting occult magick, in order to create the illusion of truth. By what seems to be endless amounts of bones to uncover, the people have been thrust into a frenzied mentality of let's see what AJ has for us tonight. As if they are dope feigns looking for their next hit and at the end of the day, what difference has it really meant in the grand scheme of things. They often end right back at ground zero, only to repeat the routine over and over like a rat running on a treadmill.

Alex Jones talks about Al-queda as a creation of the CIA as if it is an actual network of terrorists. It is not. Al-qaeda is a creation of the CIA, but created only as a fantasy *only in the minds of the public!* Al-queda doesn't exist!

Alex Jones

People like Alex Jones and Ron Paul, while claiming to offer an alternative to American corruption, are strangely silent when it comes to the agency that is historically most [culpable](#). While ostensibly defending our Constitution; they say nothing of the organization that has [opposed](#) it the [longest](#). “None of these self-styled ‘freedom fighting’ conspiracy theorists expose the real power behind all the conspiracies at work,” writes Seventh-day Adventist layworker, Roland Temple.

“Alex Jones is hiding the biggest part of the NWO. He’s hiding all this and it’s not by accident,” says (non-Adventist) Christian activist, [Thomas Richards](#). “A lot of the things he covers have a direct connection with The Vatican, but he never mentions it.” That’s suspicious, say some, because the Commander of InfoWars.com seems very well informed about everything else that’s going on behind the scenes, almost as if he’s got a back-stage pass.

[Jeff Rense Fukushima disinfo exposed](#)

Jeff Rense, 66, riding a \$30,000 Harley Trike, one of a collection of motorcycles, a lifestyle partly supported by donations from his readers.

I live in Niigata Prefecture which is the neighbor of Fukushima just to the west. Since the March 11, 2011 Fukushima nuclear power plant disaster, I've been to Fukushima several times. Once I came as close as 20 kilometers to the damaged nuclear reactors. Nobody I know or even heard of has become sick with radiation poisoning from the damaged Fukushima nuclear powerplant.

The so called alternative media has been spreading, in my opinion, disinformation and **fear mongering** about the March 11, 2011 Fukushima nuclear power plant disaster, making it sound much worse than it really is. Radio talk show host, Joyce Riley of the Power Hour show, said on March 27, 2012, that in 45 days Tokyo will become uninhabitable. She also said there are mass evacuations of US Military dependents from Japan, evacuations from embassies, and that the airports were in chaos, jammed packed with people trying to evacuate. All of this is **false!** Either she was misled or she just **plain lied**. It is now **November 12, 2015**, over three years since Joyce Riley made those statements. Tokyo is business as usual as ever with as many or more foreign tourists as before the 3/11 tsunami and power plant disaster! How do I know that? I pass through Tokyo several times a year and was there just a few weeks ago. I saw those tourists and crowds of people with my own eyes.

Another radio talk show host, Jeff Rense, called the hydrogen explosion that blew the roof off the nuclear power plant, "a small hydrogen bomb." Calling it "a small hydrogen bomb" is misleading. In my opinion it's disinformation, plain and simple. Hydrogen bombs are nuclear devices. The explosion at the

Fukushima plants was a *chemical reaction* of hydrogen molecules uniting with oxygen molecules. Hydrogen gas is produced when hot zirconium alloy fuel rods come in contact with water and steam when water is poured on them to try to keep them cool in an emergency. Zirconium has a high affinity for oxygen. It pulls the oxygen molecules out of water releasing water's hydrogen molecules. The hydrogen gas built up and heat from the reactor caused it to explode, meaning, chemically reunite with oxygen forming water again. Any high school kid with a moderate knowledge of chemistry would know that hydrogen burning or exploding is a **chemical** reaction, *not nuclear*. This means Rense is not only a disinfo agent, he is mocking the intelligence of the American public.

Has Jeff Rense been lying to his listeners? Patsy Smullin who runs KOBI-TV, a TV station that Jeff Rense says he worked for, called him, a compulsive liar

I'm not saying that Fukushima wasn't serious, but was it really worse than Chernobyl as Jeff Rense and others claim? How can it possibly be worse when so far, **not a single person** has died? Only the poor animals, mostly pets and some livestock have died for lack of care being abandoned by their masters. I heard other other day that some of the cattle have learned to fend for themselves and continue to survive.

Why is the alternative media spreading even more fear about Fukushima than the mainstream media is? The only answer I can think of is the alternative media has been making money off selling products that are supposed to protect you from radiation poisoning. Joyce Riley markets a lot of that stuff, and so does Jeff Rense.

Ask yourself this: If Fukushima is as bad as Jeff Rense, Joyce Riley, and others have said, and the Japanese government and Imperial Family know this but are withholding information from public, why are they still all living in Tokyo? Yes, folks, they're still all there engaged in business as usual.

[Confirmation: Al-Qaeda Exists only in the Mind](#)

“BBC’s killer documentary called “The Power of Nightmares“. Top CIA

officials openly admit, Al-qaeda is a total and complete fabrication, never having existed at any time.” (Quote from: Top Ranking CIA Operatives Admit Al-qaeda Is a Complete Fabrication)

In 2010 while riding a train, I met a man from Pakistan. This was just after Terry Jones, the pastor of the Christian Dove World Outreach Center in Gainesville, Florida, U.S., announced he would burn 200 Qurans on the 2010 anniversary of the September 11 attacks. The Pakistani man asked me what I thought about it. I gave him a thumbs-down sign. I don't think it's good when people purposely antagonize those of a different culture or religion and make trouble. Besides that, I don't even believe Osama Bin Laden or Al-Qaeda had anything to do with 911. It was a false flag operation to give G.W.B. the excuse to invade Afghanistan.

The young man from Pakistan then proceeded to tell me Al-Qaeda is not an actual organization. Calling a person in the Middle East a member of Al-Qaeda is like calling a Japanese person you think is a criminal a “Yakuza.” The person called a Yakuza may not even be a member of any organized Japanese mob, he may only appear to fit the type. Moreover, there are many different organized Japanese crime syndicates. Just saying “Yakuza” doesn't pinpoint any particular one. The Pakistani man said the U.S. Government will call anyone it doesn't like, “Al-qaeda.”

Alex Jones says, “[Al-qaeda was created by the CIA.](#)” as if there is such an organization. This is a misleading statement! I believe “Al-Qaeda” to be CIA disinformation; it's a pseudo organization that exists only in the mind, used for controlling the public and justifying aggression by the government.

[Joyce Riley of the Power Hour radio show: Hype, fear-mongering, disinformation and plain lies](#)

Joyce Riley

A dear lady friend in the USA urged me to listen to hours 2 and 3 of the March 27, 2012 Power Hour radio show broadcast hosted by Joyce Riley. She was afraid that I and my family were in **extreme and imminent danger** due to **nuclear radiation** contamination. She knows I live in an area that is neighbor to Fukushima Prefecture, Japan. After listening to what Joyce Riley and her callers were saying, I understood my friend's concern! Click on the audio arrow to hear 1 minute and 45 seconds of the Power Hour, hour 3 of March 27th.

[Joyce-Riley-The-Power-Hour-03-27-12-Hr-3](#)

If Joyce Riley were saying those things *last year March 2011* immediately after the Great East Japan Earthquake, I might think she was giving accurate information. But I think for her to make such claims *now* is nothing but pure lies and fear-mongering!

I knew I could disprove at least one of her statements immediately. I called a friend who lives near Misawa AFB in Aomori Prefecture. He has close contacts with military personnel on the base. He reports *no recent* increase of military personnel sending their dependants back to the USA! I visited Misawa city last year and months after the nuclear disaster in Fukushima. I saw little American kids with their parents at the Misawa city MacDonalDs. Those children were of course dependants of US Air Force personnel stationed at the near by Misawa Air Base.

May 7 update:

Hirosaki Park May 5th, 2012. Misawa USAF personnel with dependents

The photo shows a man and his wife, their 3 children, and their 2 friends standing to the right and the left. The location of the photo is Hirosaki Park, Hirosaki City in Aomori Prefecture. The 3 men are USAF personnel from Misawa Air Force base in Aomori Prefecture. The lady and the 3 children are the dependents of one of the men, obviously the man holding the baby. This is positive visual proof for you that Joyce Riley was lying!!

When walking through Hirosaki Park last Saturday I saw *many* USAF people. I knew they were USAF because I was one of them at one time, and they were all young with short hair. The people in the photo confirmed to me that they are indeed from Misawa AFB and confirmed that there is **no recent sudden repatriation of US military dependents in Japan.**

Misawa is far more likely to get hit by radiation than my area of Niigata is because it is located northeast of Fukushima while I live west of Fukushima with a mountain range between me and the nuclear reactors. Also, wind blows from the west to the east in this part of Japan. There are no mountains to block radiation coming to Misawa from Fukushima. No repatriation of dependents means the USAF doesn't consider radiation a threat at this time.

The claim about chaos and overly congested Japanese airports is also false. A young man I know flew from Tokyo International Airport (Narita) just a few days ago. He had no difficulty in getting and boarding a flight.

Moreover, if you are reading this 45 days from March 27, sometime past the middle of May 2012, and you haven't been hearing of nuclear radioactive contamination to the point of massive evacuations from Japan and people dying by the scores, you can be absolutely certain that Joyce Riley's program has no credibility whatsoever!

I smelled a rat as soon as I learned that the Power Hour is hosted on the **Genesis Communications Network (GCN)**, so called "alternative media" that also hosts [Alex Jones](#). GCN is affiliated with mainstream media **ABC** and ABC is owned by the *Walt Disney Company*! Whenever I think of ABC and especially Disney, I think of mind control, MK-ULTRA and disinformation. If you have a steady diet of either mainstream media or the compromised big name alternative media, and think you think for yourself and form your own opinions, think again. Those opinions were in all probability *given to you.*

[Mass Media Mind Manipulation](#)

I found some great quotes exposing how the media is covertly molding the opinions of those who have not yet been enlightened to the tactics of the ruling Elite of this world. This is taken from an article by Randy Lavello, June 2, 2003, called "Mass Media Mind Manipulation and the World of Illusion." Unfortunately, the website has gone offline.

The main concept of mind control, in the book *Nineteen Eighty-Four* (by George Orwell), was to cause a person to 'doublethink.' Orwell explains 'doublethink' as a willingness "to forget any fact that has become inconvenient, and then, when it becomes necessary again, to draw it back from oblivion for just so long as it is needed." For example, the U.S. places Saddam Hussein in power, arms him to the teeth, then declares him a menace to the world and attacks him. We are supposed to forget that Donald Rumsfeld handed Saddam a briefcase – the Weapons of Mass Destruction kit! If I hand a person a gun, then shoot him, does that make me a hero? We are supposed to 'doublethink' and not care how many times the Federal Government lies to us, yet still believe every word they say at present. When our nation blows something up it is called an 'operation.' When anyone else blows something up it is called 'terrorism.' By this interpretation, terrorism is defined as using a bomb without dropping it from a plane or delivering it by a missile! Because they don't spend the money on high-tech gear, they're terrorists!

There was a War on Illiteracy – more people are illiterate. There was a War on Drugs – more drugs hit the street. Now there's a War on Terror – a war on a concept, which will, of course, bring us more terrorism. We see the results of these so-called 'wars,' yet we 'doublethink' and ignore the facts.

Fukushima Fear Mongers Exposed

Over the past few weeks well meaning relatives and friends have sent me articles on how to prepare for the radiation from the Fukushima power plant meltdown. Some people have sent me web articles with statements from “scientists” such as Leuren Moret, full of gloom and doom calling the meltdown, “tectonic nuclear warfare” against the USA! This is **total nonsense**, hype, fear mongering, and *disinformation*. I wonder whose payroll she is on?

For the record, I never once doubted that the Japanese are more than capable of handling the nuclear power plant disaster. I am proud to live in Japan among the most wonderful people in the world. They behaved so well in the face of disaster. They are clean, decent and for the most part, honest people. You cannot deceive an honest people for long, and the Japanese government is well aware of that. Many people have their own Geiger counters, and they report that radiation levels in all populated areas are well below the danger level.

One reason why the Japanese people have such low crime, and are so honest and hardworking is because the Japanese culture was heavily influenced by New Testament teachings over 1500 years ago. This knowledge was lost when all historical records in a certain place were burned in a fire. For more information about the hidden Biblical roots of Japanese culture, please see:
