

Japan's Most Senior Oncologist, Prof. Fukushima Condemns mRNA Vaccines as 'Evil Practices of Science'

Solid science from a noted Japanese doctor and scientist that COVID-19 vaccines have injured people to the point of causing their deaths.

Five Things to Watch for in 2024

This article is a partial transcription of an audio on Christian J. Pinto's [Noise of Thunder Radio program](#).

My wife and I like to listen to Chris Pinto. He's a solid Bible-believing Christian, a former Catholic like we were who is very knowledgeable about the Counter-Reformation and the evil-doings of the Jesuit Order. However, we don't agree with him about his support of Israel in the latest Israeli-Hamas war in Gaza. Of course, any nation has a right to defend itself, but the way Israel is bombing Gaza indiscriminately, bombing hospitals and churches, killing media personnel, women and children, is not what I would call "self-defense." I would call it war crimes, ethnic cleansing and genocide. According to the testimonials of former IDF soldiers, the IDF purposely left that part of the border with Gaza unguarded so that Hamas would invade and do what they did so Israel could have the excuse to do what they are doing now!

In Chris Pinto's 2004 documentary, Megiddo – The March to Armageddon (Adullam Films), he stated that the 1948 restoration of the State of Israel was the fulfillment of Bible prophecy. I sure don't agree with him on that. All the prophecies of the restoration of Israel back to their homeland in the book of

Ezekiel were fulfilled by King Cyrus telling the Jews they could return to their homeland if they wanted to. By the time of Christ, they were firmly settled back in the land God formerly gave them. In the documentary, I heard one Zionist preacher say, "If Israel is defeated by her enemies, you can throw your Bibles away!" Such a presumptuous and arrogant statement! It's outrageous for any Christian to say that! What people should say when things don't go the way they think the Bible says is: "My interpretation of Scripture must therefore be wrong! Does the Bible actually teach that doctrine? Or did I get it from some dispensational Christian Zionist preacher who got it from the Dallas Theological Seminary that got it from C.I. Scofield who got it from John Nelson Darby who got it from Edward Irving who got it from Jesuit Manuel Lacunza, a Roman Catholic who worked to undermine the Protestant Reformation? Yep, that's where I got it from, not from the inerrant Word of God."

All that being said, we like Chris Pinto's take on everything else.

Transcript

Okay, praise the Lord you guys and welcome. I'm Chris Pinto. This is Noise of Thunder Radio.

Today on the show we are going to talk about five things to watch for in 2024. If you are an American, if you're a member of Western civilization, and I would argue if you are a God-fearing Bible-believing Christian, these are things you should watch for in 2024.

Now, why do I think this is important? Well, I think it's very important because society and the Western world and our country, the United States of America, if people are not aware of the danger, the rising danger that we are in the middle of right now, then you're just not paying attention, whoever you are, you're not paying attention. And it's why we have to pay attention to things like what happened to the countries of Western Europe during World War II.

I've mentioned on this program before, that one of my favorite foreign films is called KATYN, about the Katyn Forest Massacre based on actual events. It was a history I grew up hearing about from my grandfather Ziggy, Zygmunt Zadarowski, who I've talked about on the program before, who was a World War II veteran. His country, Poland, was turned upside down, practically overnight. There was a peace treaty declared by Hitler with Neville Chamberlain and so on. And so everybody's declaring, "Hey, we're all going to be at peace. Everything's going to be great!"

And then the invasion of Poland happened sometime afterward. And Poland, the people of Poland, were turned upside down overnight. And when you watch the beginning of that film, Katyn, you just watched the first five or ten minutes of it. And you've got all these civilians wearing ordinary clothing, just running. And they're carrying suitcases and bags, and they've got their young children. And why? Because their country's been invaded by the Nazis on one side and by the Communists on the other, the Soviets. And everything changed very, very quickly.

There's another film that was done not long ago by Angelina Jolie, called "First They Killed My Father" about the Khmer Rouge in Cambodia. I would recommend watching the first 15 minutes of that film because you see a family there at the beginning. And again, this is all based on a true story, based on a book written by a woman who was a young girl when all of this happened to her country. At the very beginning, you see a Cambodian family, but they are very Westernized. That's obvious that they were Westernized because of the way that they dress, the things that they're doing are very much like what goes on in the West. And then what happens is very rapidly, suddenly, everything changes. These guys with guns come riding in, and they're having a celebration briefly, and then right after them comes the Khmer Rouge, the Communists. And they were there, of course, for the killing fields of Cambodia. But everything changes in a moment. Everything's turned upside down. And they're told, pack your bags, get your things. Everybody's got to clear out of the city in 10 minutes. I mean, it's very fast.

And you see it at the very beginning when the Khmer Rouge come in, one of the first things they do is gather everybody's guns. Everybody's firearms. They disarm everybody. And of course, you're wondering as an American, if you're an American, you're watching this happen and you're thinking, "Why didn't anybody resist these guys? Why didn't anybody try to fight back or whatever?" But for whatever reason, they did not. They allowed themselves to be disarmed. They allowed themselves to be rounded up and then taken on a forced march and everything went downhill from that point onward.

So what's happening in our country right now with things like this massive flood of illegals coming into our country? I mean, this is unheard of. It's unprecedented. What's happening? We've never had anything like this happen in our history, where there's a massive flood of illegal criminals jumping the border. Meanwhile, we've got politicians like Nikki Haley, who claims she's some kind of Republican and some kind of a patriot, but she's saying it's wrong to call them criminals because supposedly they're just coming here for a better life. That is what we're told, even though the guys that work down there will tell you in a hot minute that most of those coming across the border are fighting-age men. They're not necessarily women and children. Very, very few women and children, mostly fighting-age men, and thousands, who knows how many thousands, of Islamic jihadi are crossing the border.

All right, so these are not in any particular order. The five things to watch for in 2024.

Number 1: The After effects of illegal immigration

But since we've already introduced the idea, I'm going to say number one is the aftereffects of illegal immigration. And it's already started. We've been hearing stories, but here's one of the latest. This is published on a number of different websites. I'm just going to read a few lines from the Geller report, Pamela Geller's website, where it says New York City students are forced to go remote as the city houses migrants in schools. So in New York City, they are now putting the kids out of their public schools. Kids can't go in the schools now because they are making room for the illegal immigrants. We've already heard stories about them doing this at the hotels.

People can't check into the hotel because they're putting all these illegal migrants into the hotels. The government is doing it at taxpayer expense.

All right, so here's just a part of this story.

Quote, "Students at a Brooklyn high school were kicked out of the classroom to make room for nearly 2000 migrants who were evacuated from a controversial tent shelter due to a monster storm closing in on the Big Apple."

And then you've got people complaining about it. People are saying things like, "They're not vetted. A lot of them have criminal records and backgrounds and we don't even know." The people in New York are obviously very concerned about this. And this is going to reach a breaking point at some point. I think New Yorkers are going to decide that they've had enough.

This massive inflow of illegals is just going to make things worse. And we've got repeated warnings from people who work on the border, people like Doug Thornton, who I interviewed, many of you heard that interview. If you haven't heard it go to our website at noiseofthunderradio.com and look in the archives back a couple of shows and you can listen to it. Very, very important interview. But they've been warning that there will likely be another 9-11 type event. This is what the guys down on the border are saying, the guys who I think are loyal patriots. They're warning because they're watching thousands upon thousands of illegals who are coming from the Middle East, who are Muslims, who are Islamists, rushing into our country, unvetted. And they believe that these guys have an agenda. It's just a matter of time. That's why it is important to pay attention to, at a variety of levels, the aftereffects of illegal immigration.

Now, I want to play very quickly and then we're going to move on to the number two issue. Right now we're talking about illegal immigration. I want to play this audio. This is from Joe Biden. This is Joe Biden even before he became president, before he was installed in the White House, talking about the massive flood of immigrants into our country. Listen.

"Folks like me who were Caucasian of European descent, for the first time in 2017 will be an absolute minority in the United States of America. Absolute minority. Fewer than 50% of the people in America from then on will be white European stock. That's not a bad thing. That's a source of our strength."

So that again was a video featuring Joe Biden. This is back when Biden was vice president. This was in 2015. It's a C-SPAN video.

And sitting right next to Biden, of course, is another Jesuit, Mayorkas. If you don't know that Mayorkas is a Jesuit, yes, he is also a Jesuit. And what they're doing is we're going to show you in our new film, American Jesuits, which yes, folks, we are still pushing and working to get this project completed. But the information is so important. It is impacting what is going on in our country right now. This massive flood of immigrants into our country. This is part of the Vatican's plan has been for more than a hundred years. And we're going to show it to you. And it's happening right now. We're sitting here watching the fulfillment of what we were warned about back in

the 1800s.

Number 2: The rise of Islam in Europe and North America

Number two, we're going to say the rise of Islam in Europe and North America. And this, I think, is a very good segue because Islam and immigration, both legal and illegal immigration into the West, is something that is becoming an increasing problem.

I want to play now some audio. This is from FBI director Christopher Ray. Christopher Ray, let's go to the person who's seen as the senior source in our government on this. And this is Christopher Ray with the FBI warning about the potential for Islamic terror attacks on American soil. Listen.

"The reality is that the terrorism threat has been elevated throughout 2023, but the ongoing war in the Middle East has raised the threat of an attack against Americans in the United States to a whole other level. But it's not just Hamas. As the world's largest state sponsor of terrorism, the Iranians, for instance, have directly or by hiring criminals mounted assassination attempts against dissidents and high-ranking current and former U.S. government officials, including right here on American soil, the cyber targeting of American interests and critical infrastructure that we already see conducted by Iran and non-state actors alike, we can expect to get worse if the conflict expands as will the threat of kinetic attacks.

Al-Qaeda issued its most specific call to attack the United States in the last five years. ISIS urged its followers to target Jewish communities in the United States and Europe. Hezbollah has publicly expressed its support for Hamas and threatened to attack U.S. interests in the Middle East. Here in the United States, our most immediate concern is that violent extremists, individuals or small groups will draw inspiration from the events in the Middle East to carry out attacks against Americans going about their daily lives."

All right, so again, that is and was Christopher Ray, director of the FBI. So that's about as official as a warning can get. But of course, that warning does not really come from him. It does. But it's something that loyal American patriots who are boots on the ground, who were eyes and ears down at the Mexican border and have been down there for years, this is something they've been warning about for years.

So that is certainly an important issue. The rise of Islam in Europe and North America. Now that's really a warning for North America and the United States in particular.

(Station break)

The documentary film, American Jesuits, is going to be very, very powerful, especially for people who know nothing about the Jesuits, they'll be able to have a very solid understanding of why the order is a danger both past and present. Because we bring things current. We bring things so current. And I'm going to talk more about this, but Vivek Ramaswami, we've just learned

Ramaswami is a Jesuit. But yes, he's Jesuit-educated. And we'll talk more about that as the show goes on. But anyway, we are going to show people why this is an important issue, why the Jesuits and the counter-reformation are important in our world today and why we as Christians living in America need to harken to the warnings from scripture, of wolves and sheep's clothing, and two, the many, many warnings of our ancestors for the past 200 years warning us about the Society of Jesus, the so-called Society of Jesus, the Jesuit order.

Okay, so number two on our list is the rise of Islam in Europe and North America. In Europe, if you go to the RARE Foundation, R-A-I-R foundation.com, they've got a series of articles right now warning. There is a series of articles about thousands of German women raped by refugees since 2015. This is just in Germany. Now, we've talked about the rape gangs in England in the UK over the past 20 years. Reportedly, have assaulted and violated more than a million English girls, 11, 12, 13 year old girls over the past 20 years. And that number is now much worse. But they're saying that in Germany, two gang rapes happen per day against the women in Germany, two per day. You have in France on New Year's Eve, a disabled woman was violently beaten and raped in an elevator. That's one of the stories.

Another story is, weaponized prayer, Islamic displays of territorial dominance. Whenever you see those images of hundreds and sometimes thousands of Muslims bowing down in prayer in a public place, they go into cities like Paris, London, Rome, etc. where this article says, people have observed a uniquely Islamic display of dominance over the local population. This display has a veneer of religious observance as people are clearly engaged in Islamic prayer. However, since there are always mosques available or private spaces within which these observances could be done, one has to conclude that the purpose is clearly other than mere observance of Islamic prayer requirements.

So in other words, what they're saying is that the Muslims will deliberately go into public places where people normally are walking up and down the road and this kind of thing. And they will block everything with their Islamic prayer because it's one of the ways. It's kind of a form of intimidation and psychological warfare to say basically Islam is taking over. That's why they do it. And they're doing it in these cities all over Europe. Do you know that these Islamic street prayers are actually a confrontation and a statement? The Muslims are asserting their supremacy implicitly demanding that everyone else who wants to pass along the street has to accommodate them. This is a manifestation of the old Islamic dictum that quote, "Islam must dominate and not be dominated." Now, there's no question that this is happening. There's no question that it is that you've got millions of Muslims now in the United Kingdom and they are pursuing more and more acts of aggression so that Islam will eventually dominate England in the whole UK.

Number 3: World War III

Okay, so that's two. Number three, in my opinion, World War Three, is kind of odd, you would think that would either be number one or number five, right? But we're just going to, we're going to make it number three, World War Three, the situation with Ukraine, Russia, and Israel. Notice what's

happening, you have all of these conflicts and these entanglements where the United States is being blamed by Russia for our support of Ukraine. And now we're being blamed by the Islamic element out there because of our support of Israel, the state of Israel.

Number 4: The resurgence of COVID-19

Okay, so number four, the resurgence of COVID-19, the resurgence of COVID-19. There are repeated warnings that they are going to try to bring back mask mandates, that they're going to try to bring back lockdowns and all this other kind of stuff. Illegal immigration should inform every American, of the fact that they brought in millions and millions of unvetted, untested people that they know are going to have various viruses and things like that. And the fact that they've exercised no caution at all about this should be everything that we need to know that an attempt, a future attempt at some kind of lockdown and social distancing and this kind of thing is all just a show. It's a sham. It's, about power and control.

If they were really concerned about the spread of viruses and this kind of thing, they would never allow millions and millions of unvetted people to come running across our border. They just would not allow it. But that's what should tell us that among many other indicators.

But yes, the resurgence of COVID-19, it is entirely possible that there will be COVID 2.0 and they're going to attempt to impose some kind of COVID tyranny. Now, we were warned about this last year that this was going to happen. And we didn't really see much of anything happen in the months that followed. We were warned that in the fall, beginning in the fall in November, December, here just a few months ago, that this was going to happen and it didn't happen. I think there is a lot of pushback and I think that Americans and freedom-loving people all over the world should continue to push back in a, you know, peaceful, protesting, exercising the First Amendment to the full extent so that the powers that be understand that society is not going to cooperate with all this lockdown stuff. And, if enough people are sounding the alarm and making noise, then it's very likely that these globalist powers will back down because they are somewhat pragmatic, I believe.

Of course, I believe the chief counselors are Jesuits. We're going to show you that in the new film because we're going to have a whole section on COVID-19 and the Jesuit order because the connections are undeniable, undeniable. But the Jesuits are very pragmatic, very pragmatic. So they'll back down. That doesn't mean that they're going to quit. Don't misunderstand. It doesn't mean that they're going to quit in terms of their globalist ambitions, but they'll sort of back off a bit because they don't want to push the envelope too far. That's what I think. I could be wrong. We'll have to wait and see. But yes, it's definitely something to look out for. The continued corruption of the medical industry for the purpose of using the medical industry for medical warfare against the people in our country, which I honestly believe is what's going on. Medical warfare, biowarfare, they're calling the vaccine a bioweapon. You've got people, a very official people calling the COVID vaccine a bioweapon.

So we've got to pay attention to this and be on the lookout in 2024. It'll be very interesting to see if more COVID tyranny rears its ugly head.

Number 5: The 2024 presidential race

Now, the number five issue. That was the number four resurgence of COVID-19. Number five, the big issue is going to be the 2024 presidential race.

For the office of the president of the United States of America, there's no question that's going to become, I believe, I think, unless something catastrophic something or other that happens. I think the presidential race with everything going on with President Trump, everything going on with Joe Biden and all these candidates.

Nikki Haley is getting a lot of attention, but we think Nikki Haley is a globalist. We do not believe she is a true conservative Republican. And we think she's a globalist. And then you have Vivek Ramaswami, Ramaswami, who's getting a lot of attention, a lot of the conservatives seem to like him. And we've had a friend, in fact, Steve Matthews from the Trinity Foundation, who appears in our new film, forward to me, a story about Ramaswami that he graduated from St. Xavier High School. And what he is, St. Xavier High School won't remove Vivek Ramaswami from the Board of Trustees. He's not only a graduate, this is a Jesuit-run private high school in Cincinnati, or in the Cincinnati region, it says, won't remove the presidential candidate Vivek Ramaswami from its Board of Trustees. The board's chairman said Wednesday. Apparently, his conservative comments are considered controversial. Some of the St. Xavier High School alumni are calling for the school to oust Ramaswami from its 25-member board of trustees. So, bear in mind, he's not just a graduate of this Jesuit high school. He's not just an alumnus. He is a member of its Board of Trustees. So, he's, again, this is a more solid Jesuit connection. Lots of people graduate from their schools. Not all of them have this kind of close association. And of course, Ramaswami is a Hindu, and he has a Hindu view of Jesus, which quite frankly is perfectly acceptable with the Jesuit order because it all fits in with what they wrote and communicated in Vatican Council II.

Do I think Ramaswami would make a good president? He might be better than Joe Biden, but I still would not want to see him in the White House. He has a very clear Jesuit connection. He's being supported on the conservative side of things. I think he is a, you know, it's, it's kind of like the order is trying to control both sides of the argument. Some people say the same thing about President Trump because Trump went to Fordham University. He did not graduate from Fordham. He was only there for two years, and he left and went to a different university. I've never thought that President Trump was, quote, a Jesuit. I've never seen him that way. I don't think he really represents the Jesuit agenda. The only thing that the main, well, the two main things with President Trump that are troubling for me is one, the fact that he gives any support to LGBT politically. That's one, and two, his support for the vaccine. And he continues to support the vaccine. Now the one possible, you know, upside of all of that is that he has also called in his campaign.

For an investigation into the health of children in particular, you've got so many kids being diagnosed with autism and these other conditions and a lot of people are pointing to the vaccine industry and the medical industry overall. If there is a second Trump administration and they do a sincere investigation into the medical industry, that would be a very needed and I think positive thing. And I say, if, quote, unquote, if we'll have to wait and see what happens and just pray for the Lord's help and guidance for our country and our people in the days ahead.

I wanted to play a brief clip here as we round this out. So that's all five issues. The five things to watch for, in my opinion, in 2024. Illegal immigration, the rise of Islam, World War Three, the resurgence of COVID-19 and number five, the 2024 presidential race, all of that will be forthcoming in 2024.

Also, Simon Roch I should mention, even though I didn't play this part of his interview, he goes out of his way to tell us that his organization is an exclusively Christian organization, that they are Christians, and they do not seek to have non-Christians come and join with them or anything like that. They are very boldly, unapologetically Christian in their worldview and in their approach to everything they're doing, praise the Lord!

Christians need to become more partisan for Christianity and not allow the globalist influence to convince you that you're supposed to be defending atheism and Islam and all of these other alternative beliefs. We're really not called to defend the non-Christian beliefs of the world. Remember, the commandment of God, according to the Apostle Paul, is that God commands that all men everywhere repent and turn away from the idols of the world and put their faith in the Lord Jesus Christ as King of Kings and Lord of Lords. Indeed, as Peter said, He is Lord of all.

We are not called to tell everybody else who has an alternative belief that their belief is somehow or other equally valid or anything like that. No, we are called to communicate the Word of God and God's command that all men everywhere repent and put their faith and trust in the Lord Jesus Christ. Praise the Lord.

[Japanese Doctors Warn About the Side Effects of the COVID-19 Vaccines](#)

This is a transcript of a press conference called by Japanese physicians. Throughout the decades when I lived in Japan, it's been my observation that most Japanese are honest people and are not easily deceived by the media. When they encounter difficulties, they'll do an honest investigation of the problem and won't be easily swayed by others.

Transcript

We are the General Incorporated Association of the Vaccine Injuries Study Group. We now have this press conference to report on the results of our study since its establishment. My name is Takeguchi, and I will be moderating the conference.

First of all, I would like to take this opportunity to express my condolences to those who have passed away due to health issues after receiving the COVID-19 vaccine. Furthermore, I extend my best wishes to those who have suffered health issues and those who are currently struggling with symptoms.

(Next speaker)

A systematic review of the literature has revealed some surprising facts. Thousands of papers have reported side effects after vaccination, which affect every organ without exception, ranging from ophthalmology (the diagnosis and treatment of eye disorders) to general medicine, to psychiatry. We have compiled this information into a paper that was published yesterday.

These documents have been preliminarily investigated by a group of volunteer physicians. They saw how many cases have been reported by Japanese academic societies. This kind of reporting on drug side effects or the like is unprecedented.

As my specialty is cancer, chemotherapy drugs are plagued with side effects, but the patterns are known and predetermined. The patterns of side effects caused by this (COVID-19) vaccine are not determined. They can occur throughout the body. Multiple diseases can occur simultaneously. Doctors have never seen such a thing. This is the candid opinion of the medical profession.

Japanese doctors are also trying hard, but they face various obstructions. There's this sentiment of 'Why report something like vaccine damage?' There are interferences in reporting. Such actions themselves hinder academic freedom, and in some academic departments, censorship is taking place such as in conference presentations and publications of academic papers. This is

happening globally. Some journals are effectively practicing censorship.

We are working on a paper that is expected to be published soon. Once published, we will be able to report in detail. For example, the age-adjusted mortality rate for leukemia has increased, and there are significant findings of breast cancer, ovarian cancer, and so on. We will share the relevant information with everyone as we advise and request the government on how to proceed.

Next, Prof. Yasufumi Murakami, the director in charge of the testing method development working group, will explain the progress of the test development and future outlook.

Prof. Yasufumi Murakami: Thank you, everyone. One thing I want to say initially is that it is clear how the adverse effects occur, which is still having many victims today. **I believe the vaccine should be stopped immediately.**

The mechanism by which adverse effects occur is well understood; **the spike [protein] is toxic.** It's very clear what happens when you administer a toxic gene to a human. Another point is that the Lipid nanoparticles, they are also toxic.

The major problem is that we are injecting two toxic substances into people, one of which is that human cells are producing spike proteins. Since the immune system will attack this, it causes very violent reactions. Some cases occur within one or two weeks after injection, but there are also many cases that appear after one or two years.

Additionally, there is indeed such a thing as good and bad antibodies in humans, and an antibody called IgG4 actually suppresses immunity. Usually with vaccines, if an IgG4 antibody is induced, it is considered a failure. However, with the current messenger-type vaccines, a significant amount of IgG4 is being induced. When this happens, it plays tricks on various immune functions. Therefore, we want to thoroughly investigate what ratio of Japanese people are experiencing this. We aim to carefully examine what level of IgG4 reacts with the spike protein that is present in each individual.

Of course, the problem is, we already understand these factors. Vaccines that have failed are still being administered, and the Ministry of Health, Labour and Welfare recognizes these failed vaccines. So I would like to stop them immediately, but even though I speak out against the vaccine in various places, they don't stop administering them at all. So we will clearly present evidence and publish it in articles one by one.

New speaker: So, we are working with Dr. Fukushima to create this database, and so far, about 201 types of diseases and 3,071 papers on side effects have been reported. **It is unprecedented in human history for a single vaccine to have this much literature out on it.** With this, we plan to present it to the nation and the Japanese government in the form of solid science that no one can dispute.

In the next slide you will find diseases of the heart, kidney, thyroid, diabetes, liver, skin, eyes, blood, nerves, systemic diseases, brain, and lungs, diseases across all medical fields have been reported as Prof. Fukushima states. The characteristic of the side effects of this vaccine is that they occur simultaneously within entire families.

As for the data, when diseases such as those of the heart, kidney, endocrine, and liver occur simultaneously with the range in which they occur, a tremendous number of papers are reported with many pages.

New speaker: Mental disorders, psychiatric symptoms, depression, mania, and anxiety, came up in abundance. It's endless. It's about understanding why this is happening. That's why, actually, with broader keywords, for example, not just COVID-19 vaccines but also SARS-CoV-2, messenger RNA vaccines, and the like, when you separate it out into various keywords, more and more results come up. So this is just a part of it. Even with what Dr. Inoue introduced earlier, it's just a part of what has been done with the PubMed database. There are things that won't be caught by PubMed. So like "Creutzfeldt-Jakob disease (CJD)", it's not caught, next slide.

However, there are such peer-reviewed papers out there from Dr. Montagnier who discovered HIV and received the Nobel Prize. It's a persuasive paper. But it disappeared. He was cautious from the beginning.

About the spike protein sequence, within the genes, you know, he was warning that if there's a prion-like (pathogenic type of misfolded protein) sequence, it could be very dangerous. Many scientists were warning about it. I too said it could be hazardous because of the possibility of prions. I discussed it with prion experts.

So, if you inject the vaccine into the muscle, it will be taken up by the surrounding cells. People who know nothing about medicine and biology don't think about such specific things, which is why they say it's an mRNA vaccine. However, if you know biology and medicine, such specific things don't happen. That is what we call off-target. Out of control beyond the target. It doesn't know where to go. If it goes into the bloodstream, it goes to the brain, liver, and kidneys. What if it went everywhere? That's something people don't think about. This off-target problem hasn't been solved.

And even if that is solved, there are still many problems. Because these nanoparticles, which were inflammatory earlier, are environmental issues, especially plastic nanoparticles, which are the world's number one problem. They enter the brain. However, those who don't know anything say, "It's plastic, so it won't be digested, so it's okay to eat." They pretend to know, but it doesn't get digested. The person has no idea how toxic organic substances are attached to the surface of those plastic nanoparticles. So, with fragments of such knowledge, they exaggerate things and think they can go with this. They say, "I know! This is good!" So, honestly, they need to go back and redo from middle school biology to high school and university entrance exams.

As I mentioned earlier, medicine is still immature. Basically, we don't

understand much about the principles of life. Now, this kind of thing has happened, so, turning adversity into fortune, we should learn again here what happens instead of saying, “Go for it, go for it” with the vaccines. Well, it’s like, ignorance is bliss. That’s what this world is about. **Taking vaccines has become a kind of faith. Vaccines centers, they’re like a weird cult. They’re now basically fallen into an infinite hell.**

Simply thinking that things can be understood with fragments of knowledge is a mistake.

(End of transcript.)

[Pope Francis Demands Global Tyranny](#)

The ostentatiously “humble” Pope Francis has left Renaissance land pirates like warrior Pope Julius II looking like little boys playing soldiers.

[Dr. David Martin: We Are Allowing Human Organisms To Become Bioweapon Factories – Video and Text](#)

Transcription of the interview

Stew Peters: So we're now up to our fourth COVID shot here in the United States. And Anthony Fauci is talking about possibly doing another round of lockdowns too. Hell, I mean, that might happen because half of this country are sheep, and will fall for anything, it seems.

Well, Dr. David Martin recently warned that the ultimate long-term purpose of all of this will be exposing humanity to constant forcible gene editing, via mRNA vaccines and who knows what else. Dr. Martin will be joining me I'm very excited because he also will be speaking at the April let's go Brandon rally, but he joins us now. And I'm excited about that, as well. Thank you for coming. So that's what this is replacing God's likeness, essentially, as we worship the mRNA masters.

Dr. David Martin: You know, it's fascinating. And just the last couple of weeks, I have gone on record for quite some time now, Stew, saying that this entire exercise was about transcribing a computer-synthesized model into the human genome. And in the last month, we've seen mainstream science come back with a giant revelation that it turns out that this shot persists in the human body for an indeterminate period of time. The most recent data shows that at least surviving up to eight weeks in the lymph system, where it continually produces the spike protein. We see evidence coming from municipal waste systems that allegedly even though we're all allegedly getting better, and the pandemic is starting to normalize, apparently spike protein is showing up in our waste streams at alarmingly high rates. Stew, the reason is because as I've said all along, when you inject the body with instructions to make a chimeric model of a synthetic spike protein, where you have never done testing on that gene therapy, it turns out that you don't know what you might be manufacturing, and how long each individual who gets the injection might be manufacturing these pathogens. And not surprisingly, we were told about this years before this injection started. This is a pandemic of the bio weaponization of the human organism. This is not public health. And Anthony Fauci is the architect of this genocide.

Stew Peters: You have read so many different quotes and given so many examples using the criminals' own words as they have forecasted exactly what was coming and this dates all the way back. I mean, everybody I talked to that has relevant resources can trace this first, it was back to 2015. Then it was 2005. And now even before that, is it possible,...

Dr. David Martin: Yeah, all the way to 1990.

Stew Peters: 1990? I mean, now. Is this, is it possible? Why? What are some other reasons that this could be showing up in our water?

Dr. David Martin: Well, listen, the reason is really simple. We are now obsessing about the fact that every way to Sunday, what is being done is the human organism is now being modified, and it is being modified to perpetually produce a toxic protein known and scheduled to harm humanity. And when I say known and scheduled to harm humanity, why don't we go ahead and make sure I clarify the reference because apparently, people don't understand what it is.

Under 7 CFR Part 331, under 9 CFR Part 121, and on 42 CFR Part 73, we have what's called the Federal Select Agent Toxin List. Stew, **this is not my list. This is not Dave's allegation. This is the Code of Federal Regulations where we put very specific toxins on a schedule and say these things are known to harm humans.** They are known to be damaging, and they are subject to the biological and chemical weapons treaties and laws that we have enforced here in the United States. And why don't we read it directly from the schedule because why would I need to make up for the criminals' acts are even more egregious? Any SARS CoV or SARS CoV2 chimeric virus resulting from any deliberate manipulation of SARS CoV2 to incorporate nucleic acids coding for SARS CoV virulence factors. Stew, they actually say that doing the thing they're doing is illegal.

Stew Peters: Hold on, read that again.

Dr. David Martin: Right. Sars CoV and SARS CoV2 chimeric viruses resulting from any deliberate manipulation of SARS CoV2 to incorporate nucleic acids coding for SARS Cov2 virulence factors. That's actually in three sections of the Code of Federal Regulations subject to the biologic and toxin agent program, defined under 18 US Code section 178, as a biological agent subjected to 18 US Code section 175 prohibition of biological weapons. Literally, the statute says what they're doing is a felony punishable by 99 years in prison, and up to \$100 million per count.

Stew Peters: If you didn't think that that was going to happen. And if you didn't think that justice was going to prevail, and if you didn't think that we were going to win, then you wouldn't be fighting as hard as you are, you're fighting because there really was a purpose and you see a way to win, we're going to win, aren't we?

Dr. David Martin: That's exactly right. And, and so it's important when, when, when, still, you know, I'm a broken record on stuff like this. The fact of the matter is, the criminals' own statements are so egregious, that we don't even have to make up a conspiracy because they did it and they published it. So in violation of criminal conspiracy and racketeering laws, they're the ones that actually admitted to it and let's go to the 20 F filing. For those of you not familiar with a 20 F filing, when a foreign company files with the United States Securities Exchange Commission, one of their filings is called a 20 F filing, and Biotech, the mRNA injection manufacturer for Pfizer makes the following statement in their 20 F filing. So let's just, let's just set up at the gate. This is them speaking. This is not David Martin. This is them speaking, I'm reading straight from their 20 F filing.

To our knowledge. There is no current precedent for an mRNA-based immunotherapy, such as the type we are developing, being approved for sale by the FDA, the European Commission or any other regulatory agency elsewhere in the world. Although we expect to submit BLAs (which is the biologics license for mRNA-based product candidates in the United States and in the European Union) mRNA therapies have been classified as Gene Therapy Medicinal Products. Other jurisdictions may consider our mRNA-based product candidates to be new drugs, but not biologics or gene

therapy, or medicinal products and require different marketing applications. Securing regulatory approval requires submission of extensive preclinical and clinical data and supporting information the various regulatory authorities for each therapeutic indication to establish the product's candidate safety and efficacy."

Listen, I read it straight out of their filing. When I say that this is not a public health vaccine, but this is a computer generated synthetic chimeric alternative to the virulence factor of SARS co V, which is exactly, exactly what it is. This is actually not Dave's theory. This is the reality that says we are being subjected to a perpetual addiction to a known pathogen and toxic agent. And the reason why Anthony Fauci is now advocating for the next round of boosters to be followed by the next round of boosters, is until we actually achieve the stated goal, which is a 15% population reduction, which I don't know if you do the math quick in your head, but **that's about 800 million people dead**. Until we get there. We will be recommending this injection to harm, maim, kill, murder, and sterilize humanity.

Stew Peters: To murder people. To murder people to prevent them from procreating. To alter their image of God their God given DNA and to make them worship a new master.

Dr. David Martin: Well, and the fact of the matter is, it's their words, not mine. They're the ones that said it. And by the way, it's important to realize that that wonderful thing about SARS cov 2 chimeric viruses that I read from the Code of Federal Regulations, that little thing called the Federal select agent program, that little thing called the Department of Health and Human Services and USDA agents and toxins program, that thing that I read, mysteriously had SARS co2 fragments listed as scheduled pathogens in April of 2020. Stew, do remember in February of 2020 we allegedly had a novel pathogen that we didn't know anything about? Remember, we just invented the thing. And we started filing patents for injections for the thing before we actually knew anything about it. So those wonderful days back in our prescience years where we could anticipate a pathogens emergence before it actually happened, and then build operation warp speed in September before the first accorded evidence of the disease in December of that year, all of the wonderful things that we have unfolding around us. Somehow or another in April of 2020, we had the ability to know that there was going to be SARS Cov2 virulence factors added to a schedule of toxins before we even had a Moderna or Pfizer shot, except we had already transferred those things in November of 2019, under a material transfer agreement to make sure that we had an injection for a pathogen before we had an outbreak of said pathogen.

This is just clear evidence of the fact that this entire campaign of terror, which is what we need to be calling it, this is domestic terrorism. And this is international terrorism. This is bioterrorism writ large. And those acts were willfully and Premeditatedly perpetrated on the population. And to date the population has had not one, not Ron DeSantis, nobody in Florida, no attorney general, no governor, not a single person who has been willing to take on the crime. Not one.

Stew Peters: Disgraceful. It's completely disgraceful. **These are not side effects. These are *intended* consequences.** (Dr. Martin: That's correct.) These are not experimental injections, stop calling them that. This is not an experiment. This is a well-thought-out meticulous plan to commit murder. on a large scale. This is intentionally designed. This was chimerically engineered by people who knew exactly what they were putting into these injections delivered with this mRNA technology. They know exactly what they're doing. These are not experimental, the clinical trial data, they didn't need that they didn't need it. Why? Because they knew what that was what was going to happen. They knew what they were going to do. And the reason there's no threshold for death, the reason why it's not alarming to anybody that only one percent has reported to VARS and 25,000 people are dead, **the reason why nobody's talking about it is because they know that and they have not achieved their goal yet!** That's minuscule in comparison to where they want to take us.

Dr. David Martin: That is exactly right. And what we already know is that if we look at the pseudouridine addition to the mRNA that was put into this injection, if we look at all of the data that we know is now part of the code that went into the mRNA shot, we know that **these things were done with the intention of making them a permanent resident in the organic system.** And by the way, when you hear B A 2 variant, which is now the latest campaign of terror, recognize something very clearly. This new variant is not an alteration of a natural mutation of any viral model.

This is what's happening. When we have human beings turning into perpetual spike protein manufacturing facilities, we will have variant upon variant upon variant and these are going to be coming from injected people who are allegedly coming down with COVID. These are not diseases born of a natural virus. These are premeditated acts of engineered pathogenicity, where we are now allowing the human organism to become a bioweapons factory itself.

Stew Peters: Wow. Somebody is going to hear this or you wouldn't be putting this all together. Somebody is going to take this. A court is going to hear this, these people will be indicted, tried, and hopefully fried.

Dr. David Martin: Well, and still, you know, we filed in Utah. We filed the federal case in Utah on March the third. It is the first federal case where we're taking on the root of this definitional question around the difference between a gene therapy and a vaccination. We filed in Utah because we wanted to in addition to the claims that we laid out in that case, we wanted to see the federal government trying to defend itself because it turns out in Utah, their defense is going to be an affirmative admission of felonies in the state of Utah.

Stew Peters: Criminal consequences.

Dr. David Martin: Criminal consequences for their response.

Stew Peters: Good. I can't get over what you just said. I mean the reality of that turning the human body into a bioweapons lab, a bioweapon manufacturing facility.

Dr. David Martin: That's correct.

Stew Peters: It's just the most eye-popping most truthful, cutting language that you can possibly use. If that doesn't wake people up, Dr. Martin I don't know what will.

I'm looking forward to actually seeing you in person. That's coming up on April 1. Get your tickets by the way at let's go Brandon rally.org Let's go Brandon rally.org That's April 1 and second and third and Brandon Florida the weather's gonna be beautiful. All sorts of patriots out there truth-seeking. Jesus loving God-fearing inspired people who are unafraid will be there. And I can't wait to put my arms around you and give you a big old hug. Dr. Martin, thank you so much for being here.

Dr. David Martin: I'm looking forward to it. We have Anthony Fauci said we're never gonna shake hands anymore. I'm into hugs. Let's make that happen.

Stew Peters: I'm in! See you then. Dr. David Martin, thank you. God bless.

Dr. David Martin: You got it, take care.

[Dr. David Martin: Who "They" Are, "The Names and Faces" Behind the Criminal Coronavirus Conspiracy](#)

Dr. David Martin Exposes the Names and Faces of the People Who Are Killing Humanity
Red Pill Expo, November 19, 2021

Reposted from

https://www.algora.com/Algora_blog/2021/11/20/dr-david-martin-who-they-are-th

e-names-and-faces

Introduction:

David E. Martin Ph.D. is the developer of several innovation-based quantitative indices of public equities and the founder of the Purple Bridge Funds and M-CAM International. He has worked closely with the United States Congress and numerous trade and financial regulatory agencies in the United States. Dr. Martin is also a Batten Fellow at the University of Virginia's Darden Graduate School of Business Administration. (Quoted from <https://z3news.com/w/david-martin-presents-evidence-corona-virus-manmade/>)

Red Pill Expo is the major public event of Red Pill University. "Red Pill University is a coalition of individuals and organizations that share a common problem – and have a common understanding of the solution. The problem is that peaceful, law-abiding citizens are experiencing ever-increasing control over their lives by governments and corporations. " – Quoted from <https://redpilluniversity.org/take-the-tour/>

The purpose of this talk is to de-mystify the "they" of the COVID War.

Excerpts from the talk by Dr. David Martin to the Red Pill Expo

"How many of you are familiar with the company, Anser? I love having this moment. Do you know they are the single largest contractor in the entire COVID terrorism campaign?..."

"The companies on the right, that you think are the ones running this show [Pfizer, Moderna, Johnson & Johnson, Merck Ridgeback, Gilead Sciences], are in fact a front [for the companies on the left, Anser, Fors-Marsh, Palantir, Publicis Sapient].

"And you know what a front organization is? They're the ones that are supposed to take the flack and take the heat. The ones on the left are the ones that actually got the money. Operation Warp Speed went to Anser.

"You didn't know that, because you were told by the media that it went to Pfizer, Moderna, Johnson & Johnson and all that kind of stuff. That's not true. The prime contract of Operation Warp Speed went through Anser, a company none of you had heard of!

"And you didn't hear about them because the contract was signed by ATI, a company based in South Carolina, a company whose history has been government defense contracts for the purposes of propaganda! I wish I made that up. The prime contractor selected to run Operation Warp Speed was a propaganda expert for the US Department of Defense..

"Anser is the way for the Federal Government never to be liable for the criminal conspiracy they know they ran. They are now one of the top ten Federal Contractors in history, below Lockheed-Martin, Raytheon and all those guys.

"Those names you know. You don't know Anser, the single company that, by COVID rose – the highest-ranked rise in the history of federal contracting; the highest single-year rise, ever was Anser – and none of you know who they are!...

"Anser Corporation, they're the ones running Operation Warp Speed and they've been set up to shield these manufacturers from ever taking the financial liability for their willful misconduct. And one day, everybody's gonna go, 'Let's sue Pfizer! Let's go sue everybody else! And the only problem is when we go to sue them, they say, 'Hey! It wasn't us!' And they're right and all of us were asleep. And I'm talking to a woke crowd, here and all of you were asleep.

"Don't tell me you're awake if you're still sleeping, because if you didn't know who Anser is, you're still asleep!

IT GETS WORSE...

"It gets worse. Fors-Marsh, anybody know Fors-Marsh?...They're the branding agency that branded COVID. They're the ones who make sure we find hospitals that are overrun with people. They're the ones who find kids that died of COVID right before the FDA needs to vote on giving kids injections. They're the ones that go around the world, making sure every message is always the same: 'We will not return to normal until we have a vaccine.' Thank you, Justin Trudeau! Where'd you get the script? From Fors-Marsh! And how many of you knew that? None of ya!

"How about Palantir? Hey, that's a weird one, isn't it? Peter Thiel, who has successfully run a company that has lost \$200 million plus, every year for about seven or eight years, goes public in the middle of COVID. Isn't timing interesting? Isn't it fascinating that a company that's done nothing but lose billions of dollars goes public in the middle of the worst economic cycle we've had? Isn't that funny? And did you actually go back and read their public offering? Hah! Funny! I know you didn't, because there really wasn't one, that's why you didn't read it!

"Because they went public in this very bizarre, backdoor way of actually selling founder's stock into the market, so we got personally-enriched – personally-enriched – using the public market as the laundering facility. Isn't that brilliant?

"But let's look at what they did for our COVID scandal. They actually came up with a thing called Gotham Data Tracking...you know what that does? That's making sure that every time you turn your phone on, when you get off the plane, when you cross the state line, it gives you a little tag that goes, 'Hey, do you want a COVID alert in your neighborhood?' You know why? Because you are being monitored. Your phone is being monitored. Your transactions are being monitored, your credit cards are being monitored, your health behavior's being monitored, your vaccine status is being monitored and it's all done under the contract run by Gotham Data Sciences, the company that went public during COVID – and none of you knew about this.

"And you've been to Red Pills! And you still haven't taken the Red Pill! And by the way, I'm not even to the good slide, yet. So be depressed! 'Cause it's getting worse!

"Publicis Sapien, the Health and Human Services' IT contract. Have you ever wondered how the data never seems to add up? Somebody always has allegedly the same reportable data?

"Publicis Sapien has the Health and Human Services' IT contract to consolidate all of the data, so guess what happens? Everybody has the same number of COVID cases to report, when somebody from the media calls and says, 'Hey, how many cases do we have?' 'Oh, 40,000'. 'Oh, round number, 40,000'...

"When, in the course of human history has a round number involving the word 'thousand' ever happened? There's never been a 10,000 heart day, there's never been a round number day – until you actually control the Department of Health and Human Services' entire IT platform and not one of you knows that that's a single contract, run by Publicis Sapien..

"You've been focused on the right hand side the whole time and the left hand side is doing the dirty work.

THE COVID PIRATES

"Now, why do I call them 'privateers'? How many are familiar with the difference between a pirate and a privateer? Pirates go rape and marauding and stealing and...a privateer is the same thing, that has permission to do it by a government that's gone corrupt. That's what these are (points to the slide of COVID contractors). They're the privateers. But hey, since we have privateers, it feels only appropriate that if we have a world of privateers, we should also...have a world of pirates. And here's our pirates."

The new slide shows the universities who've been involved in the COVID War: UNC Chapel Hill, Vanderbilt, Emory, Johns Hopkins, University of California System, MIT, NYU Langone, DZIF, Imperial College, IHME, Erasmus Medical Center.

"Pirates. UNC Chapel Hill, I talked about that. That's the guy who actually made the weapon, Ralph Baric. Since 1999, \$100 million to weaponize the particles of coronavirus. Over \$100 million. You've heard about \$3.7 million going to Wuhan – ohhhh – 3.7 million, that feels like a bad number.

"And how 'bout \$28 billion of that coming from DARPA for their bioweapons initiative? Anybody heard of \$28 billion that went through Anthony Fauci at NIAID? Anyone hear about the \$20 billion that went directly to UNC Chapel Hill, that weaponized spike protein?

"You haven't heard about that, you haven't heard about that because we've been talking about \$3.7 million going to Wuhan. Stop being distracted by the cover story!... Because the distraction is where the interesting thing is.

"UNC Chapel Hill, Vanderbilt, Emory, Johns Hopkins and the University of California: those are the pirates that have made the most money on federally-granted, disclosed money going into the university sector. I'm calling them

'pirates' for a very good reason. They justify all of this in the name of science and education...

"I don't even care whether these people pretend to hide behind the 'It's an academic research project' to try and get out of the bioweapons definition. The bioweapons definition says that if you enable a foreign entity to build something known to harm humanity, you have already created a felony, you are going to jail for the rest of your life and you are liable for a \$100 million penalty.

"So guess what? Welcome to Hell, all five of these universities! Because they're all felons! All of 'em!

"And how 'bout the right-hand side? MIT, New York University Langone – hey, by the way, Langone? Where did that name come from? Ken Langone? Anybody? Oh! I'm not supposed to say that name out loud, Ken Langone, except I just did, didn't I? Ken Langone...

"They're actually putting their name on the letterhead and you don't know who to look for! You're still being told, 'Oh, it's the Rothschilds and it's the Rockefellers!

"No, it's not! It's the guy who put his name on the facility! How many of you know who Ken Langone is? Guess what? Look it up! Because that's a pretty big thing that you should be aware of and unfortunately, you're not aware of it, for a very good reason because he hid it in plain sight, in the name of the medical center. New York University Langone, like that's a really hard thing to find.

"DZIF Charité...you've heard of Dr Christian Drosten, the Crazy-in-Chief in Germany who's kind of Anthony Fauci and Ralph Baric's evil stepchild, Imperial College, the criminal conspirators who came up with the fear porn of how many people were going to die, IHME, the University of Washington program, but the one I want to bring your attention to is the one at the bottom, Erasmus Medical Center.

"Bart Haagmans...In 2002, Bart Haagmans was an interesting dude, because he actually figured out a way to build a bunch of patents around the vaccines for the coronavirus. Mysteriously, the European Union in 2012 started giving him massive, massive grants to run a thing called Zapi.

"And Zapi was the zoonotic disease transmission laboratory for the European Union. And Bart seemed to always get the money. Now, this is fascinating because Bart was also the one who decided to patent MERS. The Middle Eastern Respiratory Syndrome, remember that one? The one that never really happened but kinda happened in 2012-13? Bart was the one that patented MERS...

"Erasmus Medical Center, actually, in their public statement, when they were confronted with the lie, where they said that they hadn't filed a patent on the actual genome – kinda like the CDC said in 2007 – when confronted with the lie, they said in public – and you can't make this sh!t up, People, it's so funny! They said, 'Well, what we said was not entirely false in all

jurisdictions in the world.'

THE COVID ORCHESTRA

"But this, Ladies and Gentlemen is the slide you wanted to see. This is actually the names and faces of the people who are, in fact killing humanity. And that's ALL of them. Now, here's the bad news: There's a lot of people on that slide, aren't there? Here's the better news...I'll actually give you all this slide, because why not? Let's make sure that we don't ever forget the names and the faces of the people who decided to kill us...

"

Here is a list of all the people in that slide:

- Mukesh D. Ambani, Chairman, Reliance Industries
- Peter Brabeck-Letmathe, Vice-Chairman of the Board of Trustees WEF
- Mark Carney, UN Special Envoy for Climate Action
- Chrystia Freeland, Deputy Prime Minister and Minister of Finance, Canada
- Kristalina Georgieva, Managing Director of the IMF
- Queen Rania of Jordan
- David M. Rubenstein, Co-Founder and Executive Chairman, Carlyle Group
- Klaus Schwab, Founder and Executive Chairman, WEF
- Marc Benioff, Chair and Chief Executive Officer, Salesforce
- Thomas Buberl, CEO, AXA
- Laurence Fink, Chairman & CEO, BlackRock
- Orit Gadiesh, Chairman, Bain & Company
- Fabiola Gianotti, Director General, CERN
- L. Rafael Reif, President of MIT
- Mark Schneider, CEO, Nestlé
- Tharman Shanmugaratnam, Defense Minister, Singapore
- Robert Mercer, Renaissance Fund
- Larry Page, Google
- Al Gore, Environmentalist
- Angel Gurría, Secretary General OECD
- Paula Ingabire, Minister of Information Communication Technology, Rwanda
- Yo-Yo Ma, Cellist
- Luis Alberto Moreno, WEF
- Jim Hagemann Snabe, Chairman of Siemens and of Maersk
- Feike Sijbesma, Philco
- Zhu Min, Deputy Managing Director, IMF
- Mark Zuckerberg, Facebook/Meta
- Bill Gates, Microsoft
- Herman Gref, CEO, Sberbank
- André Hoffmann, Vice-Chairman Hoffman-La Roche
- Christine Lagarde, President, European Central Bank
- Peter Maurer, President, Red Cross
- Patrice Motsepe, Chairman, African Rainbow Minerals
- Julie Sweet, CEO, Accenture
- Heizo Takenaka, Economist
- Dustin Moskovitz, Open Philanthropy

David continues, "I want you to have some looks on there. Some are kind of interesting, like cellist Yo-Yo Ma. Did you hear me say that? Cellist, Yo-Yo

Ma.

“How about the head of the Wellcome Trust? Not surprising, there, right? How about Princess Rania of Jordan? Ooh, that’s weird.

“How about the woman who happens to be sitting at the helm of the leadership of the government of Canada but conveniently out of sight but running 100% of the money for the government of Canada.

“How about all of these interesting people like, Jim Hagemann Snabe, how about Zhu Min, Chairman of the National Institute of Financial Research in China?

“And what makes these individuals interesting is that when you look at them, you find out something very important. Almost none of them have sought public visibility. Isn’t that funny? Which makes me pick on one of them. The guy I have here, at the bottom corner. And I have to give him credit. He has done so much to stay out of sight.

“I’ve got 12 minutes left. I’ve got to spend a couple of minutes on the guy who’s paid every search engine optimization to keep his name out of search engines and I’m doing it so that it costs him sh!tloads to keep all of you silent.

DUSTIN MOSKOVITZ: EDITING THE HUMAN GENOME

“So let’s get really clear on Dustin Moskovitz. Shall we, Dustin Moskovitz?...You little piece of sh!t! Let’s talk about him for a minute. The Co-Founder of Facebook that you’ve never heard of...also the guy who founded Open Philanthropy, who was the actual check-writer for Event201. You were told that it was the World Economic Forum. You were told it was the Bill and Melinda Gates Foundation. You were told it was Johns Hopkins University. But the actual check that cleared for the program was signed by none other than Dustin Moskovitz...

“Now, I’m picking on him for a good reason. He’s a felon, he’s a criminal. He is one of the most sociopathic, psychopathic, crazy people walking the planet and he’s paid to keep his name in private. So guess what? Don’t let him! The reason why I want to give you this slide is because I want every one of them named. I want them all publicly named.

“Because it’s time that we start going through the reality of saying, ‘We the People are not going to let mass-murderers get away anonymously mass-murdering people. We are not going to allow that to happen! Not on our watch! And that’s why you have this slide...

“But let’s go back to Dustin. Isn’t it interesting that Dustin conveniently decided to shroud this entire public health crisis in a self-serving, self-interested investment objective? He owns Sherlock biosciences. Sherlock Biosciences happens to be the company that owns the CRISPR technology that is the joint venture between the United States and China on gene editing the human genome...

“Dustin Moskowitz knew that if he actually tried to take this technology into the public, nobody would be willing to do it, particularly, given the fact that it’s a JV [joint venture] between him and the government of China. That’s the reason why we’d have a problem with it. Because it feels like eugenics. Do you know why it feels like eugenics? Because it is eugenics, that’s why it feels like it! That’s why it feels like Cold Spring Harbor Labs...

“The only way we could get gene-editing technology approved was with an Emergency Use Authorization. Not surprisingly, once everybody was distracted on vaccines and everybody was distracted on RTPCR and everybody was distracted on everything else, Sherlock Biosciences slipped their Emergency Use Authorization application into the FDA – and got it. In other words, using the cover of COVID, which all of us are pretending to talk about, the editing of the human genome was approved and not one of us said a thing.

“Now, if you were going to edit the human genome, do you think you’d need a good cover story to actually hide what you’re really doing? You’d probably find the guy who has the biggest financial interest in doing it and make sure, that while everyone is looking over at coronavirus and COVID and trying to figure out these Lab Leak Hypothesis – there’s no Lab Leak Hypothesis, because there’s no lab leak!

“So stop talking about lab leaks! there is no lab leak. This is the willful weaponization of a spike protein, that’s what it is. It’s an act of war, it’s not a leak. We need to start calling it what it is. It’s an act of war. It’s an act of war against humanity.

“We stop pretending to take their bait and follow their stupid rabbit trails and follow stupid rabbit trails into stupid rabbit holes and wonder why there’s a bunch of pee and piss and poo that smells like rabbit warrens. Well, it smells like it because that’s what you find at the end of a rabbit trail.

“We need to be focused on the point and people like Dustin Moskowitz and this slide is going to be shared with everyone in this room because it is incumbent on you. Now you know. Now you must act. Because when we talk about the ‘they’, we empower the ‘they’.

“But when we talk about the names of people, we humanize the sociopathic behavior. We humanize the fact that there are individuals and organizations that are willfully murdering the humanity that we know and love and we cannot let that happen on our watch. It is incumbent on all of us to get those words out.”

Doctor Admits Vaccine Is More Deadly Than Swine Flu Itself & Will Not Give It To His Kids

Vaccinations are more harmful than what the vaccine is supposed to prevent.
