

The Origin of Life from the Viewpoint of Information – Dr. Werner Gitt

Information is not a property of matter. Matter is merely a carrier. When the progress of transmission events of information is traced backwards, it leads to a mental source, the mind of the sender

Debate with AI about Intelligent Design of Life

The AI chatbot concedes it's not likely that a natural process can create a

detailed picture of a person in sand but also says, "the genetic code encoded in DNA can arise through natural processes such as mutation, recombination, and selection" in spite of the fact a living cell is indescribably far more complex than a detailed picture of a person in sand.
